VOTE THE LIBERAL TICKET TOMORROW

Government Rallies To Mark Climax Of Campaign Tonight

Huge Crowds Expected to Turn Out on Eve of Election to Hear Final Speeches of Premier and Other Victoria Candidates at Theatre and Hotel.

On the eve of the Oliver Government's appeal to the electors of British Columbia the climax of the election campaign, which has been waged all over the Province for the past few weeks will be reached to-night when Premier Oliver and the three other Government candidates in Victoria will address final rallies in the Royal Victoria Theatre and the Empress Hotel.

With the whole city fairly seething with excitement over the election to-morrow there is no doubt that huge crowds will turn out for the Government rallies to-night. Anticipating a record attendance, the Government campaign managers have arranged for Mr. Oliver and his fellow-candidates to speak both at the Theatre and the Hotel during the course of the evening. In addition to the Premier and Hon. John Hart, Minister of Finance, H. C. Hall and J. B. Clearihue, all candidates for Victoria seats, Hon. Walter Scott, former Premier of Saskatchewan, who will preside at the theatre meeting, William Ivet, President of the Liberal Association, chairman of the hotel rally, and Mrs. Watt, M.B.E., will speak.

The doors of the Royal Victoria Theatre will open at half-past seven and the meeting will commence as soon as the building is filled. It is expected that large numbers will be turned away from the doors before 8 o'clock. The meeting at the hotel will commence at eight with the Premier's second important speech here since the campaign opened.

An excellent musical programme, in which three well-known artists will participate, has been arranged for the theatre meeting. A feature of the song programme will be a number of election parodies specially composed for the occasion.

Mr. Oliver will speak last at the theatre meeting, following speeches by the three other Victoria candidates and Mrs. Watt. After his speech at the hotel Mr. Oliver will arrive at the theatre in time to make what is expected to be the most notable address of the campaign.

The Programme.

The programme of the Royal Theatre meeting will be as follows:

"O Canada."

Remarks of Chairman, Hon. Walter Scott.

Song Mrs. Charles Wilson.

J. B. Clearihue M.C.

H. C. Hall.

Song Mrs. Archie Wills.

Hon. John Hart Minister of Finance.

Mrs. Watt, M.B.E.

Song, Mrs. S. M. Morton.

Hon. John Oliver, Premier.

God Save the King.

(Concluded on page 16.)

KILLS TWO DEER WITH ONE BULLET

Swansey, N.H., Nov. 30.—The killing of two deer with a single bullet is reported by Marshall Hill, of this town. Hill fired at a large buck, which immediately bolted, when he reached the spot where the buck had stood he found that he had killed a doe. Following the trail a short distance, the hunter came upon the body of the buck. The bullet had passed through the neck of the buck into the head of the doe.

FIRE DOES MUCH DAMAGE IN CORK

City Hall Set Ablaze; Four "Republican" Army Leaders Arrested

Belfast, Nov. 30.—The City Hall at Cork was set on fire this morning, and reports from that city state the Thomas Ashe Sinn Fein Club and the Charlotte Quay are ablaze. Much damage has been done, it is stated.

Arrested.

Bantry, Ireland, Nov. 30.—The military, after an exciting pursuit, to-day arrested four men who are said to be of high rank in the Irish Republican Army."

Guarded.

London, Nov. 30.—Public buildings in London and in many of the other large cities of England were closely guarded against apprehended Sinn Fein attacks by heavy detachments of police and detectives last night. In this city the patrol was not limited to the streets, but armed motor boats moved up and down the Thames in front of the Parliament Buildings. With Downing Street and its immediate neighborhood shut off from the rest of the city by a high fence, which was constantly under the eyes of uniformed men, and with the Parliament Buildings sentinelled, Government sections of London to-day assumed the atmosphere of an armed camp.

Bomb Explosion.

There is nothing to connect the Sinn Fein with an explosion of a bomb in a warehouse in Old Swan Lane this city early this morning, but the people of the city ascribed it to that organization. The bomb, which apparently was carried into the warehouse in a traveling bag and left there to explode by means of a time fuse, was heard over a wide area of the city and blew out the windows of buildings nearby. It started a fire, but the police and firemen, who were on the scene almost immediately, succeeded in extinguishing the flames before they gained headway. The street where the ware-

(Concluded on page 16.)

Splendid Meeting Cheers Messrs. Hart and Pauline

"Our opponents have been attacking us, but we will ignore anything that the Opposition candidates have said. We will merely tell you of the programme of progress carried out by the Liberal Government in the face of many difficulties and we will be satisfied to leave it to the people to judge whether or not they will return us to power on our past record," said Hon. John Hart, Minister of Finance, at the meeting at St. Columba Church schoolroom, Oak Bay, last night in the interests of F. A. Pauline, Liberal candidate for Saanich.

"Mud Slinging."

Refutation of groundless and unfair charges against the Liberal administration was characterized by the Conservatives as "mud-slinging," said Mr. Hart.

Mr. Pauline declared, "We are told that we have reached the mud-slinging stage, but the Conservatives seem to have all the mud."

Both speakers objected to the campaign of misrepresentation carried on by the Opposition candidates. Such things were despicable in a contest where the people were seeking an administration of honesty, integrity and good business ability.

The hearty applause with which the speakers were greeted gave evidence of where those present intended placing their vote on December 1.

The P. G. E. Scandal.

When Hon. John Hart had completed his review of the Government's regime during the past four years, and had outlined what was contemplated if they were sustained on Wednesday, he referred to the splendid qualifications of Mr. Pauline as a representative of the people of Saanich as he was always alert as to the needs of the district, and was a keen observer of all that was progressive.

Mr. Hart's remarks respecting Mr. Pauline were greeted with applause. The speaker said that he would of necessity refer to the P. G. E. matter while discussing the financial situation. It was responsible for a great deal of the trouble into which the Province had been drawn. It was brought about by a coterie of promoters, who scheming for their own benefit, went to the Government and got huge guarantees for miles and miles of railway that were never built, and much of it never even ballasted. In fact portions on which the guarantees were paid in cold cash had never seen the contractors.

(Concluded on page 13.)

FARM TRAINING COURSES FOR WIVES OF EX-SOLDIERS

Vancouver, Nov. 30.—Short courses in farming will be given by the University of British Columbia to the wives and sisters of returned soldiers, according to a decision of the board of governors last night.

The courses will commence on January 1 and will be held at Point Grey.

ALLIED WARSHIPS SENT TO GREECE

Britain and France Will Protect Nationals During Greek Plebiscite

Paris, Nov. 30.—With reference to the concentration of important French and British naval forces in Greek waters, the Foreign Office explained to-day that several French and British warships were being sent to Piraeus, the port of Athens, to assure protection for French and British nationals in the event of disorders during the plebiscite of December 5 and after it.

For Constantine.

Athens, Nov. 30.—The Greek cruiser Averof has been ordered to proceed from Constantinople to Piraeus and to prepare to go thence to Brindisi, escorted by all the other Greek warships, to bring back ex-King Constantine after the plebiscite.

Tino Gets Ready

Athens, Nov. 30.—Former King Constantine's valets have arrived here with boxes and trunks. To-day they were busily engaged in caring for the uniforms Constantine intends to wear when he returns.

The French Legation staff was packing up this afternoon in anticipation of orders to leave Athens.

GERMANS AND VOTE IN SILESIAN AREA

Berlin, Nov. 30.—It is probable the upper Silesian plebiscite, the date for which has been fixed for next month, may be so arranged that Germans residing out of Silesia and still entitled to vote will be compelled to cast their ballots at Cologne. This report, which comes from Paris, has stirred up opposition here on the ground that such a plan would be a violation of the Versailles Treaty and unfair to Germans.

WHISKY CARGO REACHES ST. JOHN

St. John, N.B., Nov. 30.—The first steamship to bring a cargo of liquor to St. John this season is the Canadian Government Merchant Marine steamship Canadian Trader, which arrived yesterday from Glasgow. She brought 30,000 cases of whiskey for upper Canada.

PREMIER SHOWS HIS BONDS TO PROVE DEAL

He Never Received One Cent From Cordage Co., Despite Dr. Mahan

Premier Oliver on his return from his Mainland tour to-day denied that he had ever received one cent from the Western Canada Cordage Company when the company took over the property at New Westminster for its factory site.

To refute statements about the deal that are being made on the Lower Mainland by Dr. J. W. Mahan, the Premier on his arrival this morning took newspaper reporters to the safety deposit vaults in the Pemberton Building, where he produced two municipal bonds from the City of New Westminster, No. 712 and No. 713, dated October 2, 1919, signed by A. W. Gray, Mayor, and R. S. Gilchrist, Treasurer. These bonds are for $4,500.

When the Western Canada Cordage Company was looking for a site last year, New Westminster offered them one, the Premier explained. The city and company officials agreed on a site and the city agreed to buy it for the company. It happened to be part of a piece of property in which Premier Oliver had an equity.

City Voted to Buy Land.

To buy this property for the Cordage Company, a by-law was submitted to the people of New Westminster. They voted on September 5, 1919, in favor of the city buying this property in which the Premier had an interest and presenting it as a site to the Cordage Company.

To complete the deal, the Premier agreed to accept bonds of the City of New Westminster in payment for his interest, instead of cash.

"I have had no dealings with the Cordage Company at all," the Premier stated. "The people of the City of New Westminster voted and passed a by-law to buy this land and offer it to the Cordage Company in order to get the industry to their city. At the request of the city, the B. C. Brass Company sold the property to the city and I accepted city bonds instead of cash in payment of my equity."

MINISTER OF FINANCE APPEALS TO CONSTITUENTS

TO THE ELECTORS OF THE CITY OF VICTORIA.

Dear Sir or Madam:

Owing to the absence of practically every Cabinet Minister from Victoria during the Election Campaign I have been compelled to devote considerable time to Departmental business. Consequently I have had to forego the pleasure as well as the possible advantages which a personal canvass would have afforded me.

Throughout the whole Campaign I have refrained from personalities. The personal attacks that have been made upon myself as well as the unfair criticisms that have been levelled against the administration of my Department have necessitated my replying to these would-be besmirchers of my character and efforts.

When I first assumed office the late Administration showed a deficit of over six million dollars. The last financial statement of the Province as published in The Times yesterday showed a surplus of over three hundred and fifty thousand dollars. These figures speak for themselves.

I am content to appeal to your fairmindedness as to whether or not my administration has been a success. The present high financial standing of our Province in the eyes of the financial world I attribute to the sane economic measures that have been introduced during the regime of the present Government. On my record alone I appeal for your support and if re-elected you can rely on a continuance of my very best services and endeavors in furthering the interests of the City of Victoria, which I have been privileged to do for the past four years, as well as the maintenance of our Province's splendid financial position which I think I can justly say with pride has resulted from the efficient administration of the Financial Department under the Oliver Government.

May I count upon your support for my colleagues and myself.

Yours truly,
JOHN HART.

CLAUDE E. EMERY WAS MURDERED IN MEDICINE HAT

Spokane, Nov. 30.—Information of the murder at Medicine Hat, Alberta, last night of her brother, Claude Elliott Emery, was received here today by Mrs. Guy Gerrish. Robbery was the supposed motive. He is survived by his widow and by a sister at Tacoma and a brother at Pendleton, Oregon.

ARMISTICE BETWEEN LITHUANIANS AND ZELLGOUSKI'S MEN

London, Nov. 30.—The League of Nations commission of control has arranged an armistice between Lithunia and General Zellgouski, the insurgent commander at Vilna, according to a Kovno dispatch which reached London this evening.

200 PATIENTS CARRIED TO SAFETY

Fire Destroyed Building of Hospital For Consumptives in Ontario

Patient-Nurse Took Woman Down Fire Escape From Second Floor

Gravenhurst, Ont., Nov. 30.—Two hundred patients in the Muskoka Free Hospital for Consumptives were carried to safety early this morning when fire destroyed the main building of the institution.

Miss Lillian Powell, a patient nurse in the main building, is given much praise for her action in carrying a woman down a fire escape from a second story window.

The fact that the main building was devoted to bed cases made the work of clearing the wards more than ordinarily difficult.

MRS. HOHENZOLLERN SEMI-CONSCIOUS AND GROWING WEAKER

Doorn, Holland, Nov. 30. — Mrs. W. Hohenzollern, former Kaiserin of Germany, who has been suffering from a grave heart attack for some time, was much worse this morning. She had a high fever and was only semi-conscious.

Frederick Wilhelm Hohenzollern, former Crown Prince of Germany, had again been summoned, and this morning was hurrying from his residence at Wieringen to his mother's bedside here.

EUGENE W. CHAFIN DIED IN CALIFORNIA

Long Beach, Cal., Nov. 30.—Eugene W. Chafin, aged sixty-eight, Prohibition candidate for President of the United States in 1908 and 1912, died to-day at his home here from burns received November 20, when his clothing caught fire while he was lighting a gas heater.

Not Anxious About Result Of Polling, Says Premier Oliver

Hon. John Oliver Is Back From Mainland, Confident of Return of His Administration By Electorate At Polls Wednesday.

"I have never felt a bit of anxiety over the result of this election," said Premier Oliver to-day on his return from his Mainland tour.

"To me this campaign seems to be different from any other campaign I have taken part in. The people seem to have been more attentive all the way through and have taken a deeper interest in their affairs than they have ever done before.

"I am not worried one particle about what the result is going to be to-morrow. The reports I have received this morning from all parts of the Province indicate that the Government will be returned with a substantial majority. I don't want to make any boasting predictions, as my friend Mr. Bowser sadly did in 1916."

The Premier concludes his campaign here to-night at the Royal Victoria Theatre. He will remain in Victoria over election day and will vote early to-morrow morning at the Ward Four polling station.

ASSEMBLY COMES TO CRITICAL PERIOD

Unanimous Votes Are Required at Sessions of League Body

Geneva, Nov. 30. — (Associated Press).—Many delegates to the meeting of the Assembly of the League of Nations regard the coming week as the most critical period in the history of the organization. Questions which have been settled in committees by majority votes after stubborn contests in some cases, must be decided in the Assembly by a unanimous vote. The only exception is in the case of the election of new members and amendments.

If the Assembly proves capable of agreeing without a dissenting vote on the different problems to be placed before it during the next few days, it will, in the estimation of some of the leading members, have passed a most dangerous point.

Mandates.

The Council of the League was engaged during its entire session with the question of mandates, and could not proceed to the election of a successor to Sir Reginald Tower as High Commissioner at Danzig.

It seems probable that a definite solution of the question relative to the economic blockade will not be reached at this session of the Assembly. A resolution passed by the sub-committee on blockades yesterday proposes that an international commission on blockades be appointed by the Council, and this body shall report to the Assembly the measures it would put into effect against an aggressor nation.

TACOMA EXHIBITION.

Tacoma, Nov. 30.—Thirty-three local manufacturing plants are represented at the Pierce County manufacturers' exhibit, which opened here to-day.

BANK CLEARINGS MAINTAIN STANDARD

The Total For the Eleven Months of 1920 Is Now $134,141,345

Bank clearings for the month of November were $11,718,430, as compared with $12,145,250 in the corresponding month of 1919, and $8,420,648 in the month of November, 1918.

This makes an aggregate for the eleven months of 1920, which have ekpired of $134,141,796, as compared with $123,351,345 in the whole of 1919. The eleven months are just equal to the whole year of 1911, but considerably less than in 1912 and 1913, the last named being the record figure for Victoria.

STRIKE CUTS OFF PART OF ROME'S LIGHT

London, Nov. 30.—Emcloyees of the Italian Electrical Society in the City of Terni, about thirty-five miles north of Rome, have struck, says a dispatch from Rome to The London Times. Nearly all the large cities of Tuscany are affected, and Rome is only partially illuminated. The Chamber of Deputies was in session when the strike was called, and some confusion prevailed when the lights were suddenly turned off. The session continued, however. Deputies striking matches until other illumination could be provided.

LIVES TO SERVE TERM.

Portland, Nov. 30.—George Langdon, convicted here last week of violation of the Mann Act, who, according to jail attendants, attempted to end his life last Wednesday night by drinking a quantity of disinfectant, was to-day sentenced in Federal Court to seven years in prison.

Art Lovers Here Plan For Permanent Gallery

Steps to establish a permanent art gallery in Victoria were taken to-day when members of the Provincial Arts and Industries Institute headed by F. B. Pemberton discussed the question with Premier Oliver.

The present proposals are that the Government aid the establishment of a gallery here by giving the use of one of the large rooms in the Parliament Buildings, preferably that used for all the recent art exhibitions, along with a caretaker to look after it.

Premier Oliver said that he was sympathetic with the proposals and would place them before the executive when it meets after the election. He declared, however, that it would be better if the work were undertaken in co-operation with the city, with the Government contributing, as then the Government could not be accused of favoring one community at the expense of the others.

Start on Small Scale.

"We don't want to start on a big scale," said Mr. Pemberton. "You have kindly lent us a room and our exhibitions there have been very successful. We want to get this thing started and then it will go on as there will be lots of donations if we have the home for them."

Refining for a City.

"As an educational centre there is nothing more important to the people of this Province than to have a picture gallery where works of art may be exhibited," said Dr. Edward S. Hasell. "The unconscious effect on the minds of children seeing works of art is incalculable. There is nothing more refining to the people of a city than to have a good collection of works of art. All we wish now is that they can be sure of being housed. We can get donations of many objects of art as long as we are sure they can be housed undisturbed.

Offset Movie Effects.

"The education of the eye and mind is most desirable to counter-effect the movies," said Mrs. Curtis Sampson, representing the I. O. D. E., who declared that members of her organization endorsed the proposal.

"We are here so far removed from the art treasure centres of the East that we should have some art centre of our own."

Mrs. Sampson said that there would likely be no difficulty in getting loan collections from England and other places if there were a permanent art home here to house them.

Counteract Vulgarity.

"I hope that we will not only have a permanent home, but also a permanent building in a city as big as

(Concluded on page 16.)

INCREASE IN WHEAT IN AUSTRALIA

Yield of 137,000,000 Bushels Predicted; Marketing of Crop

Ottawa, Nov. 30.—(Canadian Press)—An increase of 1,120,000 acres in the area planted in wheat in Australia is reported by the Canadian Trade Commissioner at Melbourne. The total acreage is placed at considerably more than 10,000,000 acres and a yield of 137,000,000 bushels, or between 13 and 14 bushels to the acre, is estimated.

If this estimate is realized, it will be the largest yield in Australia with two exceptions, 1915-16 and 1916-17, with 179,000,000 and 152,000,000 bushels, respectively, marketed.

Guarantees.

The report states that the Commonwealth Government has guaranteed an advance to the grower of $1.21 a bushel for wheat delivered at country railroad stations, which is equivalent to $1.40 f.o.b steamship. To this guarantee, the Government of the State of New South Wales has added 61 cents a bushel for all wheat grown in that State and placed in a pool. The f.o.b. price in New South Wales will have to be from $1.95 to $2.07 a bushel to save the Government loss on the transaction.

It is also announced from Melbourne that private parties have made a contract with the Egyptian Government for the purchase of a large quantity of wheat. While the amount of wheat sold and the price has not been officially announced, it is announced that the quantity is about 300,000 tons, of which 260,000 tons are to be gristed in Australia, and the basis of price agreed upon is $2.25 a bushel f.o.b. Australian ports.

DUNCAN SPOKE AT COWICHAN LAKE

Cowichan Lake, Nov. 30. — K. F. Duncan, Independent candidate for the Legislature in Cowichan, held a meeting in the Cowichan Lake school-house. The gathering had been called for 8 o'clock, but owing to the bad condition of the roads, Mr. Duncan and his platform supporters were an hour late, having to leave their car and walk in the last four miles. Frank Green acted as chairman, introducing H. F. Prevost, who said in part, that although Mr. Duncan was supposed to be affiliated with the Liberals, it was a false statement. He was an Independent and as such had taken his seat in the House. He then read extracts from a Vancouver paper, "John Bull," telling how highly Mr. Duncan was esteemed and respected in the Legislature.

Mr. Duncan said he was pleased to see so many people in attendance and proceeded to give a brief outline of his present platform, which was the same as the one eighteen months ago and on which he hoped to "carry on" if elected. He dealt with the road and the rural school questions. Asked if he was in favor of a ten-hour working day, he replied that he favored an eight-hour day, but if satisfactory to the employer, and employee, then the working hours could be extended.

A vote of thanks was then passed to Mr. Duncan and Mr. Prevost, and F. Green for acting as chairman. The meeting closed with the singing of the national anthem.

COL. BUELL HONORED.

Brockville, Ont., Nov. 30.—Word has been received that Lieut.-Colonel W. S. Buell, C. B. E., who went overseas in 1914 as officer commanding the first local contingent, has been given the belated award of Chevalier of the Legion of Honor of France in recognition of his services in the great war. He went to reside in Vancouver, B. C.

MAINLAND STEEL PLANTS ARE GIVEN PROVINCIAL LOAN

Port Moody, B. C., Nov. 30.—Announcement was made last night by Major Martyn at a Liberal meeting that the Industrial Department of the Provincial Government had during the day voted a loan of $250,000 to finance the amalgamation of all the local rolling mills and electric steel smelters.

The new company, to be known as the B. C. Steel Works, Limited, will be comprised of an amalgamation of the Port Moody, Eburne and Tudhope electric plants under an organization headed by Brigadier-General Victor W. Odlum, assisted by iron and steel experts. Orders in advance have been received for much of the output.

The plant will give employment to several hundred men in continuous day and night shifts, and will, it is estimated, keep in the Province $1,750,000 which yearly goes out under present conditions.

GERMANS DUMPING GOODS IN BRITAIN

Ottawa, Nov. 30.—That German manufacturers already are beginning to supply the people of Great Britain with many lines of manufactures which Canada has been supplying to the Mother Country since the Armistice, is a statement made in a report received by the Department of Trade and Commerce from Harrison Watson, Canadian Trade Commissioner with headquarters in London.

Mr. Watson states that "complaints that United Kingdom manufacturers are being again subjected to unfair competition owing to the prices at which the exchange position enables Germans to sell goods, have been voiced recently from many industrial centres, combined with complaints that the Government is still postponing the introduction of the bill which was promised to protect key industries and prevent "dumping."

A table giving official details of the importations by Great Britain of manufactured goods from Germany, incorporated in Mr. Watson's report, shows that for the period mentioned, the value of such imported goods from Germany exceeded $80,000,000. The items include woollens, worsted yarn, silks and ribbons, hosiery, leather goods, paper, motor cars, furs and skins and other articles manufactured in Canada.

HOUSE HEATING SCHEME DROPPED BY WINNIPEG OFFICIALS

Winnipeg, Nov. 30. — Professor Dorsey's scheme for heating houses by electricity has been dropped by the city authorities, upon the recommendation of their light and electrical managers, who state that Professor Dorsey evidences no intention of giving them sufficient information of his discovery or idea to permit them to come to any useful decision.

LABOR MAN FOR RAILWAY BOARD

Ottawa, Nov. 30.—(Canadian Press)—It was stated here last night that an effort may be made by labor interests to have the vacancy on the Board of Railway Commissioners caused by the death of the late A. S. Goodeve filled by the appointment of a representative labor man. The various railway brotherhoods, it is said, would be well pleased to be represented on the Board by an experienced railway man.

PROFIT-SHARING PLAN IN TORONTO

Toronto, Nov. 30.—In connection with the opening of a new soap factory here on Saturday by Lord Leverhulme, head of the concern, a distribution of certificates entitling the employees to five per cent dividend was made.

JAPANESE HAVE NEW POISON GAS SHELL

Tokio, Nov. 30.—Successful tests have been completed of a new poison gas shell. This shell is of Japanese manufacture.

TO TORONTO.

St. John, N. B., Nov. 30.—Thomas McAulay, who has been general manager of the St. John Street Railway for the past two years, severed his connection with the company last night. He will become associated with a Toronto company. He was formerly a street railwayman of Calgary.

Joints Quit Aching Soreness Beats It Away

NO MORE STIFFNESS, PAIN OR MISERY IN YOUR BACK OR SIDE OR LIMBS!

Wonderful "Nerviline" is the Remedy

A marvelous pain reliever.

Not an ordinary liniment—just about five times more powerful, more penetrating, more pain-subduing than any thick, oily or ammonia liniment. Nerviline fairly eats up the pain and stiffness in chronic rheumatic joints, gives quick relief to those throbbing pains, and never burns or even stains the skin.

"Rheumatism kept my joints swollen and sore for ten years. My right knee joint was often too painful to allow me to walk. In this crippled tortured condition I found Nerviline a blessing. Its warm, soothing action brought relief I had given up hoping for. I rubbed on quantities of Nerviline and improved steadily. I also took Ferrozone at mealtime in order to purify and enrich my blood. I am today well and can recommend my treatment most conscientiously.
(Signed) C. PARKS,
Prince Albert.

Not an ache or pain in the muscles or joints that Nerviline won't cure. It's wonderful for lumbago and sciatica; for neuralgia, stiff neck, earache and toothache. Nerviline is simply a wonder. Best family liniment known and largely used for the past forty years. Sold by dealers everywhere, large family size bottle 50c., small trial size 25c. Refuse a substitute, take only "Nerviline."

BRITISH-DOMINIONS TRADE IS URGED

London, Nov. 30.—(Canadian Associated Press).—Sir Robert Horne, President of the British Board of Trade, speaking at Manchester, said he did not believe the present slump in trade would be of long duration, but prices must come down.

The proportion of goods which the Dominions received from Great Britain, said Sir Robert, was less now than before the war. The United States had got into the Dominion markets. Great Britain, the Minister maintained, should do everything to recover the fullest measure of trade with the great Dominions.

It was also not going to do any good for the British to say they would not trade with Russia because of the character of her Government. Great Britain must trade there sooner or later, and it was no good waiting, claimed Sir Robert.

NEWS ITEMS FROM COWICHAN LAKE

Cowichan Lake, Nov. 30.—The many friends of Mr. and Mrs. G. K. Gillespie will be glad to hear that their two children, who were seriously ill last week, are progressing favorably.

A. C. Snewart, school inspector, visiter the school and found the pupils progressing satisfactorily.

Mr. F. Reid has bought Jim Palmer's houseboat and has had it towed down the lake by H. Johnson to Honeymoon Bay.

H. Hodgson, of the Riverside, was host at a most enjoyable evening. The time was pleasantly spent with music and cards.

Mrs. Swanson entertained at a tea in honor of Miss Ethel Johnson. A very enjoyable afternoon was spent. Among those present were: Mrs. Stubbs, Mrs. Scholey, Mrs. Hardinge, Mrs. Sidney Scholey, Mrs. H. Johnson, Mrs. Castley, Mrs. Schiegel, Mrs. Langneick and Mrs. E. Lomas.

H. Johnson, of the Lake Launch and Motor Works, left early Monday morning for the head of the lake, taking Mr. Fred Lomas, who has charge of the ballot box for Clo-oose, and T. A. Greensmith, who is electioneering for Kenneth Duncan in the different camps up the lake.

At the present terrific rate of divorce cases we shall soon need a new reference book—"Who's Whose."—London Opinion.

CLEANLINESS IS HEALTH

By the use of Gillett's Lye, house cleaning is made a pleasure instead of a drudgery. It softens the water and cleans thoroughly whether the dirt is visible or invisible. Destroys all bacteria and infectious germs, removes obstructions from drain pipes, closets, sinks, etc. Refrigerators are made delightfully fresh and clean by using one teaspoonful of Gillett's Lye dissolved in two gallons of water.

"GILLETT'S LYE EATS DIRT"
Made in Canada.

C.P.R. PRESIDENT SPEAKS OF RATES

Beatty Visits Winnipeg in Connection With Company's Expenditure Plans

Winnipeg, Nov. 30.—E. W. Beatty, President of the Canadian Pacific Railway is in Winnipeg in connection with the preparation of the estimates for the company's expenditures during the coming year, would make no prediction as to probable extensions to the great National Railway system beyond the cryptic remark that "railways are always building."

Regarding the Edmonton and Dunvegan line, now being operated by the C. P. R., he said it was too soon to make predictions on its possibilities. The road was in bad condition and things had not been brought to anything like normal as yet.

On the electrification of lines in mountain areas, Mr. Beattly said the feasibility of the project was being investigated by engineers. No reports definite enough to warrant a start had yet been submitted.

One passenger vessel for coast service was now under construction on the Pacific Coast, the President stated, and the big ocean liner Empress of Canada would be complete and ready for service in the Tran-Pacific trade by July 1.

Pensions.

The twenty-five per cent. allowance for increase living costs which applied on all C. P. R. pensions during the war and up to the end of 1920, had been extended for another year, the President announced. This involved an additional outlay on pensions of about $100,000.

"Construction work in Manitoba and the West will depend upon the report of Western officials and labor conditions," Mr. Beatty stated. In referring to the 1921 estimates, he would make no announcement as to improvements for the West beyond the fact that provision had been made for a new pier at Vancouver.

In connection with the situation in regard to railway rates, President Beatty said: "If discrimination has been found to exist between the East and the West, it will be removed."

The inquiry ordered, he said, would no doubt be exhaustive and be hoped, in the interests of the people and the railways, that it would fix the relations between the rates in the East and the West in a satisfactory manner. President Beatty expressed the hope that the rates set would have some permanence. Freight and passenger traffic had not been as heavy as was estimated at the time the application for increased rates was made, he said. Failure to get the Eastern hauls on grain and the curtailed shipments of lumber to the United States were two reasons for the decreased tonnage. He expected a decrease in passenger traffic.

Changed.

When it was pointed out to Mr. Beatty that variation in rates between Eastern and Western Canada, based on the finding of the 1911 inquiry, were not justifiable at this time, the railway President admitted that conditions had probably changed slightly. The inquiry now to be launched by the Railway Commission would disclose to what extent.

In connection with a telegraphed statement from Eastern Canada that under the new increased rates the Canadian Pacific Railway would have an annual surplus of $15,000,000, President Beatty said: "That statement was made by the Railway Board and was based upon the surplus of a normal year, if the full increase asked for had been granted."

"What will be the financial position of the C. P. R. under the existing rates?" he was asked.

"If business keeps up well till the end of the year, I should hope the C. P. R. would earn its dividend," he replied.

ALL RECORDS SMASHED SAY BIG DRUG FIRMS

Now Conservatively Estimated That British Columbia Will Require Over 8,000 Bottles of Tanlac For December and January Business

CARLOAD ORDERED FOR BRITISH COLUMBIA

Wonderful Success Preparation Has Achieved Here Has Far Exceeded All Expectations.

Announcement has just been made by The National Drug & Chemical Company, of Vancouver, the well-known wholesale druggists, that they have recently ordered a solid carload of Tanlac to supply the large and rapidly growing demand for this well-known medicine in Victoria and surrounding territory.

The fact that approximately 542,556 bottles of Tanlac have been sold and distributed by this firm through their Canadian branches since its introduction, a little less than two years ago, is a business item that will, no doubt, attract attention and be read with widespread interest.

As a matter of fact, Tanlac has already become the sensation of the drug trade in the United States and Canada. In the entire history of the drug trade in this country no other medicine has ever made a record worthy of comparison with the truly phenomenal sales record made by Tanlac.

The greatest drug firms of the country have voluntarily come forward and stated in cold, plain figures the record-breaking sales everywhere. The enormous popularity of Tanlac is the one great outstanding proof of its merit. No remedy of less than superlative quality could possibly attain such a huge sale record nor gain, as has Tanlac, the unqualified endorsements of thousands of well-known men and women who stand for the best in their communities.

The greatest test of any medicine is the "repeat" sales it enjoys. Tanlac's phenomenal record has been possible because of the fact that men and women who buy one bottle invariably return for the second. Tanlac accomplishes actual results and so almost at once, wins the firm faith of its takers.

In just a little over five years' time approximately 16,000,000 bottles of Tanlac have been sold, an average of almost one bottle for every family in America. This record eclipses any achievement of the past in the field of medicine, and it becomes all the more remarkable when it is realized that Tanlac is sold only through duly authorized Agents.

A further proof of the extreme popularity of Tanlac is the fact that it has now become necessary to have it shipped here in original carload lots and it is conservatively estimated that this market will require approximately 8,000 bottles for December and January business alone.

Tanlac is sold in Victoria by D. E. Campbell, corner Fort and Douglas, and Lang's Drug Store, Esquimalt Road.

TORONTO FIRM BUYS BY CARLOAD

Lyman Bros. Say Tanlac Is the Undisputed Leader Among Proprietary Medicines

The following letter has just been received from Lyman Brothers, of Toronto, Ontario, one of the largest and best-known drug houses in America, which gives ample evidence of the rapidly growing and widespread popularity of Tanlac:

Tanlac Company,
Fourth National Bank Bldg.,
Atlanta, Ga.

Tanlac continues to hold the rank of undisputed leader in this territory, and the increasing sales after Tanlac has been the sensation of our trade for over three years is most phenomenal. Undoubtedly, it is giving entire satisfaction everywhere, and it is something that has come to stay. We say this because our best trade is in the districts where it has been in use the longest.

In the short period of three years' time we have given you orders for 310,608 bottles, thus breaking all records for this city.

Very truly yours,
LYMAN BROTHERS.

RELIEF FOR BAD COLDS IN A NIGHT

Every Household Should Keep This Preparation on Hand

Don't suffer from a cold. Don't run the risk of its developing into influenza, pleurisy or other acute form. Prompt treatment will conquer it and save worlds of trouble.

Colds should be treated by keeping the system open, by reducing the feverish condition, by allaying the muscular soreness, especially in the back.

At any drug store you can get Grip-Fix, the reliable preparation which has a ten-year record of conquering even a bad cold in a night and even a case of grippe in 36 hours. It comes in capsule form for convenience in home treatment as well as prompt action.

Don't be afraid of Grip-Fix. Its ingredients are plainly stated on each box. They are just what physicians usually prescribe for colds. You can rest easy if you have it in the house.

Get a box to-day—all druggists have it. 35 cents per box.

Government Control for the benefit of the people. Vote for J. H. Gillespie."

DRUGS EXCITE YOUR KIDNEYS, USE SALTS

If Your Back Hurts or Bladder Bothers, Drink Lots of Water.

When your kidneys hurt and your back feels sore, don't get scared and proceed to load your stomach with a lot of drugs that excite the kidneys and irritate the entire urinary tract. Keep your kidneys clean like you keep your bowels clean, by flushing them with a mild, harmless salts which removes the body's urinous waste and stimulates them to their normal activity. The function of the kidneys is to filter the blood. In 24 hours they strain from it 500 grains of acid and waste, so we can readily understand the vital importance of keeping the kidneys active.

Drink lots of water—you can't drink too much; also get from any pharmacist about four ounces of Jad Salts; take a tablespoonful in a glass of water before breakfast each morning for a few days and your kidneys will act fine. This famous salts is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to clean and stimulate clogged kidneys; also to neutralize the acids in urine so it no longer is a source of irritation, thus ending bladder weakness.

Jad Salts is inexpensive; cannot injure; makes a delightful effervescent lithia-water drink which everyone should take now and then to keep their kidneys clean and active. Try this, also keep up the water drinking, and no doubt you will wonder what became of your kidney trouble and backache.

MANITOBA HOGS CARRY OFF PRIZES

Chicago, Nov. 30.—Manitoba has made a great killing on hogs at the International Livestock Show here, winning the championship for a pen of grade barrows against strong competition, first on a pen of grade barrows and second on individual grade barrows weighing between 250 and 350 pounds.

BOWSER AND OTHERS SPOKE IN VANCOUVER

Vancouver, Nov. 30.—The final rally of the Conservatives here before the election last night included meetings in Dominion Hall and at the Hotel Vancouver and an overflow meeting. Eight speakers, including Mr. Bowser, were heard. Mr. Bowser's remarks included much he said at his meetings in Victoria.

The WEATHER

Daily Bulletin Furnished by the Victoria Meteorological Department

Victoria, Nov. 30.—5 a. m.—The barometer is rising on the Northern Coast, accompanied by fair weather, which may become general on the Pacific Slope. Snow is falling in Cariboo and colder weather is reported in the prairie provinces.

Reports.

DR. CHAS. INFROIT DIED IN PARIS

Paris, Nov. 30.—The death has been announced of Dr. Charles Infroit, famous X-ray specialist.

One of Dr. Infroit's hands became infected in 1898 as a result of his constant use of the X-ray, and an operation was performed. Since that time he has undergone twenty-four operations, twenty-two of which were performed in the last ten years. The last was on August 1, when his right arm and left wrist were amputated. Dr. Infroit was a great surgeon, and his announcement in 1915 in the Academy of Medicine of Paris that he had extracted a shrapnel bullet from the heart of a soldier was read with interest throughout the world.

WAS SUFFERING FROM INDIGESTION

NO FEAR OF PAINS NOW.

Indigestion is one of the worst forms of stomach trouble, many people suffer terribly after every meal they eat. The rising and souring of the food, pains in the stomach, heartburn, water brash, belching of wind, vomiting shortly after eating, etc., are some of the symptoms.

There is no need for any person to be troubled with indigestion, dyspepsia or any other stomach trouble if they would only take Burdock Blood Bitters, which contains a combination of nature's roots, herbs, barks and berries; a combination that cannot help but put the stomach right.

Mr. H. H. Collins, Norton, N. B., writes:—"I was with the overseas forces for four years and two months, and in October, 1916, I was unfortunate enough to be wounded and taken prisoner. I was a prisoner for 2½ years, and the food they gave us was not good, at times, and after a few months I found I was suffering from indigestion. When I came home in July, 1919, I was nearly a wreck. I was told to use Burdock Blood Bitters. I did so and found great relief, and can now eat without fear of pains and sickness. I would recommend B. B. B. to all who suffer from indigestion."

Burdock Blood Bitters has been on the market for over forty years, and during that time has made a reputation second to none for relieving all stomach troubles. Manufactured only by The Milburn Co., Limited, Toronto, Ont.

Ohio is harvesting the largest sugar beet crop in her history.

LETTERS

Letters addressed to the Editor and intended for publication must be short, and legibly written. The longer an article the shorter the chance of insertion. All communications must bear the name and address of the writer, but not for publication unless the owner wishes. The publication or rejection of articles is a matter entirely in the discretion of the Editor.

QUITE BOWSERESQUE.

To the Editor—Mr. Bowser in his speech Saturday evening said that the B. C. government got cheaper money in New York in 1916 than France and England. Anyone making such a remark as that is either destitute of sense or takes his audience to be crazy. In 1916 it was hard to say what would happen to France and England.

LISTENER.

FOR SAFETY'S SAKE.

To the Editor:—In fairness to pedestrians and dumb animals surely some consideration should be shown them when roads are made for the benefit of motorists. Almost every day on the East Saanich Road accidents occur to horses, and in wet weather one has to walk as carefully as on ice. Sometimes even a dog cannot avoid skidding. As a quarter of the tax on land is due to this road, it seems that pedestrians should at least be able to walk on it with a reasonable degre of safety.

JOHN GREGORY SMITH.

Saanichton, V. I.

THE REAL FACTS.

To the Editor:—In criticizing the present Minister of Mines on Saturday last Mr. Bowser referred to the fact that the Ladysmith smelter was closed down. What are the facts? This splendidly equipped smelter was built at the beginning of the Bowser-McBride regime. It has worked about two and a half years since then. It was purchased by an American or German syndicate, the express purpose being to keep it closed. The idea being to compel the mine owners to ship their ore to Tacoma, which has been done ever since. The Bowser-McBride government made no effort to have the ore treated in this Province. The Hon. Mr. Sloan must have the credit of having sent out the parties of returned men who are prospecting, and who are making good. We need legislation to remedy such conditions. The re-opening of this property means a great deal to Vancouver Island and Newcastle District in particular. This with other things equally serious, no doubt, accounts for the fact that Mr. Bowser has no candidate in Newcastle riding.

RETURNED.

POLITICS AND GOVERNMENT CONTROL.

To the Editor:—On Saturday afternoon my attention was drawn to a pamphlet which appears to have been issued in the interests of some unnamed candidate or candidates for propaganda in the present election campaign. This pamphlet contains the following extract from a letter of mine, which appeared in The Daily Times of November 25, and which was signed by me in my private capacity only, and not as an offical of any organization:

"If returned to power are you in favor of permitting the sale of beer by reputable clubs, including the recognized ex-service clubs."

As I have been informed that there is an impression that I had something to do with the issue of this pamphlet, I desire to state that I had no knowledge of its existence until Saturday morning, nor was I at any time consulted regarding the issue of same by any party or candidate in the present election.

Being a returned soldier, I am not blessed with too much wealth, but am willing to donate the sum of twenty-five dollars to any charitable institution should any person come forward and produce proof that I wrote or was aware that such a pamphlet was about to be published.

ROBT. MACNICOL.

President Veterans of France Association, Victoria, B. C.

MR. GEORGE BELL'S ANSWER.

To the Editor,—In yesterday's Times there appears a letter signed by "Anti-ping pong" saying that George Bell occupied a seat on Mr. Bowser's platform last Saturday evening and applauded the Conservative leader with the enthusiasm of an old Tory."

The facts are as follows: I did attend the Conservative meeting in the Royal Victoria theatre. Upon arriving there we found that the theatre was completely filled and I was one of 150 or 200 people, of all political shades that managed to squeeze in through the side door—and then we occupied places—not on "Bowser's platform" but in the rear of the platform and in the wings on each side of the platform—for my own part I happened to be so far back that I found it difficult or impossible to hear.

Regarding my enthusiastic applause: Mr. Ping-pong, who has not the courage to sign his name, simply misrepresented me, his object in doing so being to antagonize the thousands of Liberal and Independent electors that are going to vote for me on Wednesday.

Mr. Ping-pong was also in error in stating that I announced myself as an "Independent Liberal supporting the Oliver government." My friends, while I was in Toronto, nominated me as an INDEPENDENT LIBERAL; since my return home I sign myself an AN INDEPENDENT.

I conclude by thanking you for your valuable space, and by saying that I deeply regret that party campaign tactics have reached such a low level.

GEORGE BELL,
Independent Candidate.

Victoria, B. C., Nov. 29, 1920.

HOW THEY WERE NOMINATED.

To the Editor:—I would appreciate a little space in your columns very much for the purpose of explaining how Messrs. Peirce and McDonald came to be nominated as candidates of the Federated Labor Party. On Thursday, November 4, at 8 p. m., a meeting was held for the purpose of nominating candidates for the Provincial election. The Grand Army of United Veterans was holding a meeting at the same time for the same purpose. Some of our members who also belong to the G. A. U. V. came in the room about 9.30 p. m. and told us that they had just left the G. A. U. V. and that they had nominated two candidates, Messrs. McLernan and Christian, so instead of the F. L. P. nominating four candidates I thought it would be a good idea to unite with the two G. A. U. V. candidates if possible and nominate two men instead of four and make a full ticket. So I moved that the meeting be adjourned until the following Tuesday for that purpose, and it was carried. A couple of days after I 'phoned up Mr. McLernan and asked him about the proposition and he said "go ahead and nominate two men and we will get together afterwards." However, Tuesday evening came, and to our surprise we were told that the Trades and Labor Council had nominated two candidates to run in conjunction with McLernan and Christian. Why the Trades and Labor Council should do a trick like this I am at a loss to know, because a good percentage of the Trades and Labor Council are prominent members in the F. L. P. Messrs. Dooley and Dakers are also members of the F. L. P.

Mr. Editor, I will endeavor to explain the reason the F. L. P. was formed. It was established for the purpose of avoiding the chaos that we have got in the labor ranks in this election. It was formed for the same purpose as the British Labor Party. For to be the political instrument of the labor movement it does not matter if a man is O. B. U. or craft union. We have unorganized men and women in our ranks; also returned soldiers who have come to a realization that they are of the working class. The erratic judgment of the Trades and Labor Council placed us in the embarrassing position of burning our charters and going out of business or to run candidates, so we chose the latter. We nominated Messrs. Peirce and McDonald to represent the Federated Labor Party, and who knows but what they may be elected.

SAMUEL HOWARD,
814 Courtney Street.

VOTING STRAIGHT LIBERAL.

To the Editor,—The outstanding feature of this election is its demonstration of the absolute necessity of that measure of electoral reform known as "proportional representation."

Under the present system an elector by voting for the candidate or candidates of his or her choice may unwittingly be assisting in the election of other candidates to whom he is diametrically opposed. I have no doubt that many other voters in this city find themselves in a similar predicament to myself. Some of the independent candidates are personal friends of mine with whom I am in the main in agreement politically, and under a better system of election I would feel honored in voting for them, yet holding the views that I do that it would be nothing short of a calamity to restore the Bowser regime to this Province, I am going to avoid the possibility of rendering any assistance to that end by voting for the straight Liberal ticket—Messrs. Oliver, Hart, Hall and Clearihue, and I would strongly urge all voters having the welfare of the city and Province at heart to do the same.

W. PERCY MARCHANT.

WOMEN VOTERS OF VICTORIA

To the Editor,—I am going to ask you for space in your columns to say a word to the women who now have it in their hands to cast a vote at the coming elections.

First, ladies, I want to thank you for that great silent vote that swept the Province of British Columbia on October 20. As one woman telephoning to me put it, "We are listening to their lectures and their sermons, but we do not believe them, and shall vote for Government control and a clean city."

Now in all the confusing political speeches that are being made, a mistake in the choice of candidates can easily be made, but I want you to keep one of two things before you when you make your selection.

Ask yourselves what is the record of the man who is running and what is his business capacity. Some of the members of the Legislature have a record for honesty of purpose, great business capacity and a tenacity for not being turned from their purpose. Others, while trying to do all in their power for their constituents fall when it comes to framing acts. Now the old prohibition act (say isn't it great we can say old?) was one of the failures. It was badly constructed and impossible of enactment, and its sponsors should be ashamed of it. The prohibition members who are asking for your vote on December 1 confidently say that after Government control is tried, they expect to bring in prohibition again. Now these men naturally will not care what kind of a liquor bill is enacted, the more impossible it is the sooner they can inflict their will and ideas upon the people again.

So in choosing a candidate we must conscientously leave them out and give the chance of framing the bill to men who have the electors' ideas at heart.

Hebden Gillespie is running as a member for the House on an independent ticket. He is being fathered (and mothered) by the Liberty League of Victoria, which worked so hard in the interests of the bill for Government control of liquor.

He is an honest, clean, sportsmanlike gentleman, whose home life and business relations (Gillespie, Hart & Todd) will bear the closest inspection. He will, if elected, help to frame a bill that will have the respect of the people of Victoria, and a bill that we can all put a shoulder to the wheel and see that it is properly enforced.

Therefore I ask you if you conscientously can to cast a vote for J. Hebden Gillespie.

GEORGINA SEYMOUR KENT.

A Vote for Government Control and J. H. Gillespie means universal prosperity.

A Kidney Remedy

Kidney troubles are frequently caused by badly digested food which overtakes these organs to eliminate the irritant acids formed. Help your stomach to properly digest the food by taking 15 to 30 drops of Extract of Roots, sold as Mother Seigel's Curative Syrup, and your kidney disorder will promptly disappear. Get the genuine. 7

JOHN OLIVER, CITIZEN.

If there were no other recommendations in his favor his position of Government Leader would warrant Premier Oliver's candidacy in the capital city of the Province. But it is all the more fitting that the Chieftain of a party which is seeking a renewal of its mandate from the people should be so well known in the city wherein lie his official duties. The part Mr. Oliver has played in the inauguration of civic and Island development in general is too well remembered by the people of this community to require anything like a lengthy refresher at this time. It was the Premier of the Province who succeeded in obtaining the requisite supply of rails for the continuance of railway construction on Vancouver Island and the development of the Canadian National system towards fulfillment of the original contract. The former Songhees Reserve, its preparation for an ultimate industrial area, owes much of its present day development and actual commercial usefulness and activity to the energy of the Government Leader. Mr. Oliver's platform appearance in support of the negotiations leading up to the successful disposal of all outstanding difficulties in connection with the Johnson Street bridge always will associate him with the progress of this community. Added to these particular reasons why John Oliver's citizenship has been valued and appreciated by Victoria are his numerous practical manifestations of interest in Vancouver Island's general well being.

TO THE WOMEN.

During the session of the Legislature in 1909 the McBride-Bowser Government completely smothered a bill to extend the franchise to the Women of British Columbia to which the late Premier Brewster and the present Leader of the Government, in company with the progressive minority in the House at that time, recorded their unqualified support. During the session of 1916, however, Mr. Bowser startled the Legislature with the announcement that he had had a change of heart and felt it incumbent upon himself to acknowledge the position to which the women of British Columbia had attained by virtue of their sacrifices in the war. In other words, of course, he had brought himself to a grudging recognition of the trend of popular sentiment, and a shrewd estimate of the political value attaching to the submission of a referendum on this particular question convinced him that it was time to take a plank out of the Liberal platform of 1910 and capitalize it for all it was worth during the 1916 campaign.

But it appears to have escaped the notice of Bowser candidates and speakers who have been falling over their feet in haste to purloin the credit for this long overdue reform that a bill was introduced to the Legislature in May, 1916, by Mr. J. T. W. Place designed to give practical effect to the then Premier's change of heart, and provide the women of this Province with the liberty to vote in the general election of that year. But what did Mr. Bowser do? He and his majority would have none of it. And when the measure came up for second reading it was rejected by an overwhelming McBride-Bowser vote.

Among the number agreeable to postpone the day of equal franchise were Bowser, Schofield, Jackson, McDonald and Pooley, all of whom are seeking re-election to-morrow. Those who gave practical expression to their life-long principles in support of the bill that would have made history of one plank of the Liberal platform formulated six years prior were the late Premier Brewster, M. A. Macdonald, Place, Williams, Foster and Ellison.

These are matters of public record and they impart appropriate value to the statement made by one of the lady speakers at yesterday afternoon's Bowser gathering at the Princess Theatre who prided herself upon the fact that to her had gone the pleasure of moving the resolution at the Conservative Convention in Vancouver thanking the Leader of the Opposition for his interest in extending the franchise. Suffice it to say that Mr. Bowser did all he could to prevent the introduction of an equal franchise measure. Popular opinion forced him to adopt it. And then he did his best to postpone the day of an application of the principle unwillingly accepted by the Legislature's brute majority of 1916.

HIS PROMISE FULFILLED.

When the Hon. John Hart assumed the portfolio of finance in the present Administration he announced to the people of British Columbia that he would reorganize the Department and conduct his branch of the public service along the identical lines that any competent business manager would follow in the control of a private corporation. He declared his intention to make both sides of the ledger balance. Borrowings to meet the demands of current liabilities would find no part in his programme.

The public accounts of the Province during the last two years provide all the proof that is necessary to convince the electorate that Mr. Hart has accomplished what he set out to do and a good deal besides. His financial statement made public yesterday indicates a surplus for the twelve months which closed on the last day of March of the present year of $350,479.71 after meeting all capital and current expenditure and interest on the Pacific Great Eastern Railway. Lengthy comment upon such an excellent showing is needless. An intelligent electorate does not require a maze of statistical data to understand the significance of a balance sheet which discloses a current trading account with a margin on the right side of the ledger.

It may be pointed out once more, however, that it is this very business management of one of the most important departments of the public service that has restored British Columbia's credit and revived the confidence of the money markets which did not exist four years ago. In short Mr. Hart has fulfilled his promises and the condition of the Treasury to-day will enable him to give practical heed to other pressing matters in which the financial difficulties of the municipalities are involved.

THE DIFFERENCE.

On December 1, 1915, Mr. Bowser's Government sold $3,130,000 of B. C. 4½ per cent. bonds, due December 1, 1925, and payable in New York. The bonds brought the Government 86 in Canadian money.

The cost of that money to the Province is 6.39 per cent. a year, without exchange.

Five years from now these bonds must be paid off in New York at the rate of $100 in American money for each $86 in Canadian money the Province received.

On October 25, 1920, the Hon. John Hart, Minister of Finance under the Oliver Government, sold $1,000,000 of B. C. 6 per cent. bonds, due October 25, 1923, and also payable in New York. These bonds brought the Government 103 in Canadian money.

The cost of that money to the Province is 4.78 per cent. a year, without exchange.

Three years from now these bonds must also be paid off in New York at the rate of $100 in American money for each $103 in Canadian money the Province received.

If exchange were to remain as it is to-day it will take $113 in Canadian money to make $100 in American money.

That is, it will take $113 in Canadian money to pay off the Hart bonds for which the Province received $103.

But, it will take $113 in Canadian money to pay off the Bowser bonds for which the Province received only $86. Obviously the Hart bargain is by far the better one

REAL ACHIEVEMENT.

Out of "an era of experimental legislation for many items of which the people have had to pay without any tangible advantage to the progress of the country" our morning contemporary appears to find it difficult to extract more than one alleged example of this type of iniquity. It continues to denounce the Oliver Administration for permitting the people of this Province to give a clear expression of opinion upon one of the most controversial subjects of the present age untrammelled by political or other considerations. It is safe to assume, however, that the people as a whole approve the course taken by the Government for the reason that it has provided a definite instruction to the next Legislature to enact a measure that will indulge the extremes of nobody.

But the morning paper is not clear in what it labels "experimental legislation." It is true that a number of measures have reached the statute books of this Province which neither interested nor appealed to the former regime prior to its ejection from office. The establishment of a minimum wage for women, the provision of mothers' pensions, the creation of a Department of Industries, the provision of equal guardianship for children, the inauguration of employment bureaus for men and women, the creation of a Department of Labor, the right to estate, increased grants to hospitals, improvement and enforcement of sanitary laws, and the establishment of juvenile courts are all examples of progressive legislation which should have reached the statute books ten years ago. Will it be claimed with any degree of seriousness that these are examples of "experimental legislation" without tangible advantage to the progress of the country? We think not.

NOTE AND COMMENT

Look out for the Bowser roorback!

Mr. Napier Denison is to deliver a lecture on the subject of earthquakes To-morrow night. Many political candidates throughout the Province will no doubt experience various shocks during the course of the evening.

WHERE IT STARTED

GRAMMAR

(Copyright, 1920, By The Wheeler Syndicate, Inc.)

While men have always spoken words, they did not begin the formal arrangement of grammar till in the 5th century B. C., when the Hundu Nirukta of Yaska began the first grammar school. Greece independently evolved a system of grammar from the criticisms of Homer's poems. Soon grammar-books began to appear. The first English grammar was written by Wallis in 1653.

"The stars incline, but do not compel."

HOROSCOPE

TUESDAY, NOVEMBER 30, 1920

(Copyright, 1920, by the McClure Newspaper Syndicate.)

The Sun dominates to-day in benefic aspect, according to astrology. Uranus, Neptune and Saturn are adverse.

All the signs seem to encourage the seeking of positions or patronage under this sway of the stars.

It is a time when men who hold important places like to use their powers in the bestowal of favors.

The planetary government should be favorable to politicians and to those who have worked for party success.

Although men in authority are well directed at this time, menacing stars control many destinies to-day.

It is not an auspicious day for any of the enterprises of women. They should delay all important action, especially if it is progressive, for Saturn is in a place that thwarts advancement.

There is an aspect to-day that makes for wrong opinions and general misjudgment, so it is wise to live by the rule of kindness.

It is a most unfavorable time for beginning any long journey. A wreck or an accident at sea is forecast.

For all who love material success there is the promise of disappointment, for it is prophesied that keen mental vision will destroy the enjoyment of hard bought attainment.

This is not a lucky wedding day, since all the planetary influences contribute to the advantage of men.

This is not a propitious time for speculation, and all who are wise will avoid great financial risk.

Jupiter rising at Washington with the ingress of the Autumn quarter was held to presage a flurry in Wall Street or at least a depreciation of securities.

The stars to-day seem to forecast financial welfare and to indicate that the money market will be steady after the first of December.

Persons whose birthdate it is may have the menace of thieves or loss during the coming year. Business will be successful in all probability.

Children born on this day are likely to be independent in spirit, quick-tempered and courageous. They should succeed early in life and attain to all their heart's desires.

RED CROSS DRIVE IS BRINGING RESULTS

Total of $1,920 Received to Date For Relief of Suffering Humanity

The local Red Cross drive in connection with what is known as the British Empire Relief Fund has so far netted $1,920 and will be continued until the end of this week. The money raised will be used in the relief of cases in Europe and Asia, where the condition of the people there has aroused the pity of the entire world and, naturally, the sympathies of the Red Cross, which found it necessary to appeal to those who are more happily situated to do what they can to assist in eradicating the dread disease and in offering relief for the suffering.

The amount so far collected does not include £35 in English cheques.

The British Empire Relief Fund appeals for donations to help with this work. Contributions may be sent to 641 Fort St., Honorary-Treasurer Red Cross, Belmont House or to Times and Colonist offices.

DOUGHTY SAYS WILLING TO HELP

Ready to Try to Solve Small Mystery, He Tells the Police

Toronto, Nov. 30.—The return of John Doughty and the recovery of $5,000 more Victory Bonds that Doughty is charged with stealing, have started a flood of theories as to the possible fate of his old-time employer, Ambrose J. Small, whose disappearance from Toronto antedated Doughty's by almost a month. Whether Small is living or not, his wife expresses hope that he may yet be found alive, but the majority of his friends have long since come to the conclusion that he lost his life.

Crude attempts at exacting ransom were made shortly after the publication of the fact of Smalls disappearance, there having been an intimation from New York that the missing theatrical man could be found alive.

John Doughty may be able to throw some light on the mystery, but so far as is known, he has not yet done so, but has been quoted as saying he knows nothing of the cause of Mr. Small's disappearance.

Questioned.

Doughty was put through an official examination yesterday by detectives here. Inspector of Detectives Guthrie stated afterward that Doughty had declined to make any explanation of how the bonds came to be found in his sister's house, or make any statement in connection with the charges on which he had been arrested.

Inspector Guthrie said that Doughty had intimated a willingness to do all he could to clear up the mystery of Small's absence.

LEAVE TO APPEAL.

London, Nov. 30.—(Canadian Associated Press)—The Privy Council today granted leave to appeal in the Royal Trust Company vs. the Finance Minister of British Columbia case, which involves questions relating to the succession duties of the estate of the late Sir William Van Horne.

BICYCLES HERE TO BE LICENSED

City Plans to Put New Regulations Into Effect If Allowed to Do So

Bicycles like automobiles will be licensed in Victoria next year if the Provincial Legislature grants to the City Council the necessary authority. In its Private Bill the city will ask for power to make cyclists carry license plates, to register their machines and inform the civic authorities of their sale or transfer.

The preliminary draft of the Private Bill, which was brought before the City Council last night for the first time, contains little of note. Some provisions relate to tax relief and make legal certain minor measures which the Council has been enforcing during the year. The Bill, if passed, will allow the Council to restrict to eight miles an hour the speed of motor vehicles at street intersections and will make it lawful to leave automobiles standing on lighted streets after dark without tail lights burning.

The Council asks in its bill for the following powers:

1. To increase retroactively the powers granted to the Council to permit the issue of treasury certificates as collateral security to original debentures:

2. To assess and tax all lands of the city, which may be sold by agreement for sale or otherwise, from the date of such sale, and granting the city, its assessor and collector, all rights and powers in relation to assessment and taxation of such lands as if owned or occupied other than by the Municipality, and making these provisions retroactive from January 1, 1920.

3. To provide that all tail lights mounted on motor vehicles need not be kept burning at night on cluster lighted streets of the city during the time such streets are kept continuously lighted.

4. To restrict the rate of speed of motor vehicles to not less than eight miles per hour at street intersections or crossings in areas or at places specified in the by-law.

5. To make, alter and repeal by-laws in relation to bicycles used on the streets of the city, as follows:

(a) For requiring the owner of every bicycle used on the streets of the city to register same with the collector upon written application therefor, and to furnish the collector with full description of same as may be required for identification;

(b) For requiring such owner to procure from the collector a numbered licence tax or number-plate, property of the city, and to pay the collector for the use of same an annual charge not exceeding one dollar for one registration for each current year or part thereof;

(c) For requiring the owner to keep such tag or number plate displayed on his bicycle when in use on city streets;

(d) For requiring the owner to give the collector written notice of transfer or sale, name and address of purchaser and date of sale;

(e) For requiring every purchaser of a bicycle to register same and to give notice and information in the same manner as required to be given by the former owner thereof.

(f) For imposing fines or penalties for infraction or breach of the by-law.

Camosun Chapter Shower.—The regular monthly meeting of the Camosun Chapter, I. O. D. E., will be held on Thursday afternoon, December 2, in the I. O. D. E. rooms. The date has been changed in order not to conflict with the Christmas preparations. In addition to the usual business, the meeting will also take the form of a shower of articles for the maternity bags, to be held from 2.30 till 5 o'clock.

For Women And Home

Social and Personal

On Saturday the marriage of Miss Eva Marie McNeill to William George Wilson was solemnized in Chicago, Ill. The bride is a native of Victoria, and her large circle of firends here will be pleased to learn of her wedding. She was formerly on the staff of operators of the B. C. Telephone Company at Victoria, as well as at Port Alberni, and four years ago left for the American city, where she has since remained. This Fall, Mrs. Wilson spent in Victoria a few weeks' vacation from the arduous duties of telephone work in the metropolis, and upon her return to Chicago arrangements were made for the marriage, which was solemnized at St. Michael's Church by the Rev. Father Foley, and was attended by the bride's mother, who is spending a few weeks with relatives in the East.

☆ ☆ ☆

At Saanich, Elk Lake district, on Friday evening, the Rev. Dr. Campbell officiated at the marriage of Frederick J. Painter, of Victoria, and Miss Henrietta C. Campbell, daughter of Mr. and Mrs. William Campbell. The bridegroom was accompanied as groomsman by his brother, Herbert G. Painter, and the bride, who was given in marriage by her father, was attended as bridesmaid by her sister, Miss Marion V. Campbell. After the ceremony a dainty supper was served to the assembled guests. Mr. and Mrs. Painter left by the night boat for Vancouver, and on their return will make their home in Victoria West. The bridegroom is a native of Victoria, and the bride of Saanich.

☆ ☆ ☆

John Allan Taylor, for many years manager of the local branch of the Royal Bank, and now of Montreal, arrived in the city during the weekenr to spend two months here as the guest of his mother, Mrs. Taylor, Linden Avenue.

☆ ☆ ☆

Up-Island visitors registered at the Dominion Hotel include Mr. and Mrs. Gibbons, of Hillbank; C. B. Fearney, of Nanaimo; A. C. Foster, of Courtenay; L. W. Toms, of Mill Bay; Mrs. Thorn, of Duncan, and R. G. Smith, of Ladysmith.

☆ ☆ ☆

Mrs. Sydney Booth, of Thetis Island; Mrs. J. J. Shaw, of South Salt Spring Island; Mr. and Mrs. Vogel, of Otter Point; Dr. and Mrs. Barker, of Happy Valley, are among yesterday's arrivals at the Dominion Hotel.

☆ ☆ ☆

Miss Mae Dinsdale, daughter of Alderman and Mrs. Dinsdale, arrived home on Sunday from Standard, Alta., where she has been the guest of her aunt, Mrs. D. L. Kelly, for the past three months.

☆ ☆ ☆

Complimentary to their house guests, Mr. and Mrs. Richard Bennett, of Edmonton, Mr. and Mrs. J. W. Morris entertained informally at dinner last evening, when their guests included Col. and Mrs. C. C. Bennett, Mr. Justice and Mrs. W. A. Galliher, Mr. and Mrs. B. S. Heisterman, Mr. and Mrs. Goulding Wilson and Mr. and Mrs. R. W. Gibson.

☆ ☆ ☆

Mr. and Mrs. Leonard R. Andrews paid a flying visit to-day to the latter's mother, Mrs. S. F. Tolmie, "Cloverdale." They are leaving again to-night for Vancouver, en route for Kamloops, and expect to return to Victoria before Christmas.

☆ ☆ ☆

Mrs. Douglas B. McConnan, the well-known soprano, is among the artists participating in the cabaret dance to be given in Vancouver on December 7, under the auspices of the B. C. Institute of Journalists.

☆ ☆ ☆

Mrs. W. H. Blenkinsop, who has been visiting her parents, Capt. and Mrs. Neroutsos, for the past three months, has left for her home at Chilcoten, B.C., accompanied by her husband and small son.

☆ ☆ ☆

Miss Helen Murray, of Dallas Road, returned home on Sunday, having spent a most enjoyable holiday as the guest of Mr. and Mrs. Rielly, Wynyard, Sask., for the past Summer.

☆ ☆ ☆

C. L. Smith and Mrs. Smyth, of Revelstoke; G. D. Marlatt and Mrs. Marlatt, of St. Thomas, Ont., and R. H Candy, of Oxford, England, are staying at the Dominion Hotel.

☆ ☆ ☆

C. Rice Jones, of Winnipeg; Mrs. H. Rice Jones, of Calgary, and Mr. and Mrs. T. H. Fleming, of Saskatoon, Saskatchewan, are registered at the Strathcona Hotel.

☆ ☆ ☆

The Bishop of Qu'Appelle and Mrs. Harding will be at home on Wednesday afternoon from 3 to 5, at Glencoe Lodge, 1075 Verrinder Avenue.

☆ ☆ ☆

Mrs. S. P. Corbett, of Pender Island; Mrs. S. F. Norrie, of Cowichan, and Miss Bartholomew, of Deep Cove, are guests at the Strathcona Hotel.

☆ ☆ ☆

Miss Fletcher returned to her home in Vancouver on Sunday after being the guest of Col. and Mrs. Peters, Esquimalt, for the past ten days.

☆ ☆ ☆

Mrs. Stainton, of Vernon, B.C., is the guest of her sister, Mrs. James H. Fletcher, Rockland Avenue, for a few days.

☆ ☆ ☆

W. B. Horton and Mrs. Horton and Alf. Ker and Mrs. Ker, of Calgary, are guests at teh Dominion Hotel.

☆ ☆ ☆

Miss V. Randall, of Vancouver, has been spending the last few days in Victoria.

☆ ☆ ☆

Mr. and Mrs. D. E. Richards, of Detroit, are staying at the Empress Hotel.

☆ ☆ ☆

J. L. Trethewey, of Toronto, is staying at the Empress Hotel.

TO-DAY'S JEWELS

Jade, the good luck stone of the Chinese, is to-day's talismanic gem. To wear it, is to find success and riches. Moreover, this gem is believed to have the power to protect its wearer from disease, and to bestow upon him health and long life. But to secure these blessings, a bit of jade must be worn always, in an ornament which touches the flesh.

One of the most curious stones in existence is to-day's natal gem. It is the chrysoprase. The ancients believed that this stone possessed all the good qualities of the opal, the emerald and jade, rolled into one. Its most startling quality is one related by Volmar:

"If a thief, sentenced to be hanged or beheaded, should place this stone in his mouth, he would immediately escape from his execution."

Black is the significant hue to-day. Worn by a young girl, is a sign of coquetry.

The camelia, symbol of feminine beauty and loveliness, is to-day's special flower.

I.O.D.E. Protest.—Telegrams to the Hon. Arthur Meighen and the Hon. S. F. Tolmie, protesting against the proposed closing of Esquimalt Hospital during the Winter months, were sent from the executive of the Municipal Chapter, I.O.D.E., as the result of a special meeting held at the I.O.D.E. headquarters yesterday afternoon. The regent, Mrs. Curtis Sampson, presided, and a representative from each chapter was present at the meeting. A resolution of condolence was passed to Mrs. R. S. Day, on the recent accident sustained by Mr. Day.

Lutheran Sale of Work.—All is in readiness for the sale of work to be held by the ladies of St. Paul's Lutheran Church, corner Princess and Chambers Street, on Wednesday, December 1, in the basement of the church. Many useful articles have been donated and the ladies are doing their best to make it a success. A fish pond will keep the children happy. Rev. Mr. Kibler will open the sale at 2.30 p. m. and a short programme will be rendered in the evening.

☆ ☆ ☆

Here are the Winners—Oliver, Hart, Henry Hall and Clearihue. You don't want to be on the losing side?

☆ ☆ ☆

Military 500.—A good time was spent at the Military 500 Drive held under the auspices of the West Saanich Women's Institute, at their rooms, Sluggett's, last Wednesday evening. The winners of the first prizes were as follows: Miss Gladys Lindsay, Mr. Sutton, Mr. Barnes, and F. Richardson. Consolation, R. Freeland, F. Mitchel, R. Anderson and Mrs. Murray. Another of these drives will be held on Wednesday, December 8. The members of the Institute are busily engaged in the final preparations for their bazaar to be held on Saturday afternoon and evening, December 4. The evening will be given over to a social time.

☆ ☆ ☆

The Best Four and Four of the Best—Oliver, Hart, Henry Hall and Clearihue. Vote for them to-morrow.

COMMITTEE NAMED FOR CHILD WELFARE

Vancouver Island Council Organization Under Federal Body Is Formed

Steps toward the formation of a Vancouver Island Child Welfare Council were taken at a special meeting held in the Provincial Library last evening under the aegis of the Provincial Board of Health. The following were appointed to represent Victoria on the Island Council:

Chairman, Dr. Raynor; Miss McKilligan, Mrs. Peter MacNaughton, Mrs. R. S. Day and Miss Wark.

B. C. Organization.

Mrs. R. S. Day, who was appointed secretary pro tem, addressed the meeting, reviewing the efforts made in Victoria to establish an organization for the promotion of child welfare. A year ago steps had been taken to form a Child Welfare Association of British Columbia, when a canvass had resulted in a charter membership of 87. Since then the organization of the Dominion Council of Child Welfare had rendered it advisable for the existing organization to merge into the Dominion-wide body, which would be done through the meeting then in progress.

Scope of Work.

Dr. Young, Secretary of the Provincial Board of Health, was in the chair and briefly summarized the plan of work and general policy of the Dominion Council.

Child welfare in remote and sparsely settled places, children's clinics, maternity centres, health centres, well-baby clinics, children's courts, children who need special care, diseases of childhood, education and illiteracy, home-service, housing, immigrant child welfare, medical education, legislation, morals and manners, nourishment and feeding of children, safeguarding of school children from temptation to the use of drugs, protective and preventive work, public health nursing, all come within the purview of this Child Welfare organization, and the fact that such organization is under the Federal aegis standardizes the work from the beginning.

New Committee's Duties.

Miss Winn and Rev. H. T. Archbold also spoke briefly, the former dealing with the financial statement of the Child Welfare Association which had suspended activities with a balance in hand of $40.50. The new committee which is empowered to nominate officers, draw up a provisional constitution and by-laws, and arrange details of organization to lay before a general meeting to be held early in January under the chairmanship of Dr. H. E. Young, will meet on Thursday at the Provincial Library.

WHAT'S IN A NAME?

Facts About Your Name; Its History; Its Meaning; Whence It Was Derived; Its Significance; Your Lucky Day and Lucky Jewel.
By Mildred Marshall.

(Copyright, 1920, by The Wheeler Syndicate, Inc.)

MINNIE

The simple little name of Minnie has a most devious history. It originated away back in Teutonic mythology, where, according to the story, when creation began, the cow Andumbila licked out of the stones a man named Bur who was the grandfather of three primeval gods, Adin, Will and Ve, and it was these three who gave life to the first pair of human beings. Will was the Will of man. His name echoes down through the ages of Norse mythology in various combinations, which savor boldly of Valhall and prefaces many other names.

The Frank Queen Billichilde was really Willihilda, meaning resolute battle. Her name was popular among Norse maidens and even had vogue in Teutonic countries. Wilhelm was "made in Germany" and signified "resolute helmet." The feminine counterpart of this name was Wilhelmina. Always popular in Germany, it was adopted by England and penetrated Holland, where the most famous modern woman who bears the name is Queen Wilhelmina, beloved of the Dutch.

England found the name a trifle cumbersome in spite of its regality and it gradually changed under British influence to Wilmet, Wilmot, Mina, and finally, the popular diminutive Minnie. America has reached out and extracted Minnie from the numerous derivatives, discarding almost all others with the occasional exception of Wilhelmina which invariably changes to "Willie" "Billie" under our preference for diminutive.

France makes the name even more ponderous by calling it Guillerume, Guillemette, Minette, Gullette and Mimi. In Spain Guillemina is popular and in Italy, Guglielma. Wilhelmine is preserved in Germany, interchanged with Minna.

The regal diamond is quiet little Minnie's talisman. It promises her fearlessness, invulnerability, and victory in any endeavor. To dream of it signifies victory over enemies, and to wear it on the left hand is said to enhance the love of a husband for his wife. Saturday is Minnie's lucky day and 6 her lucky number.

The pastor and his wife had gone out to dinner at a large farmhouse, taking with them their little boy of two years of age. The dinner passed off well, till the dessert was served, when a piece of cocoanut pie was placed before the child.

He proceeded to taste it, but evidently it was not to his liking, for removing the cocoanut shreds he passed them to his mother with the simple explanation — "dirt." Happening, however, to look up just then, he caught the eye of the hostess and instantly remarked, "Nice pie, lady, nice pie."

It was a fruitful cause of discussion on the way home, as to which side of the house such duplicity originated on.

LADIES' CLUB NOW WELL UNDER WAY

Membership Roll Mounting; Hope to Acquire Top Floor Campbell Building

The process of resuscitating the Alexandra Club for ladies made considerable headway at an enthusiastic meeting held in the Alexandra House yesterday afternoon when a further membership of twenty-seven was added to the initial list handed in at the meeting held last week. Mrs. W. H. Belson, chairman pro tem, presided at the meeting, it having been decided that the present officers should act provisionally until the full membership was acquired, when the permanent officers and committee would be elected by the members.

The committee appointed to inquire into the matter of suitable quarters reported that the top floor of the Campbell Building, now occupied by the Elks Club, would shortly be available. The meeting was unanimous in favor of acquiring the premises if possible, the general consensus of opinion being that the premises were ideal for the purposes of a ladies' club, being airy, commodious, well-arranged and centrally situated.

Definite action in this regard, however, was deferred until Friday when a meeting is to be held in the Alexandra House at 2.30 o'clock for the further consideration of the project, and at which it is hoped there will be a further addition to the steadily growing list of members. In the meantime prospective members are invited to send in their names to Mrs. A. E. Hodgins, telephone No. 7526L, or Mrs. Guy Langton, telephone No. 1679.

MISS ROBERTSON TO APPEAR HERE

Well-known Folk Lore Interpreter Plays Recital in Victoria

The present revival of folk-songs finds in Miss Iona Robertson (Miss Mary Campbell Mackenzie) one of its most able exponents. She is a Highlander by birth and education, with the invincible spirit of her race, and sings the songs taught her traditionally as a child at her mother's knee with true Gaelic temperament and enthusiasm. Miss Robertson is now touring and has arrived in Victoria. She contemplates giving a dramatic and musical recital here shortly.

"Scotch folk-lore is among the best of that of any people in Europe, and when sung by Miss Robertson with great depth of feeling, true insight, and spontaneity of expression, human interest and sympathy are deeply stirred.

"She has a fine sense of rhythm, melodic beauty, and the true import of each song and imbues it with the charm of a vivacious and winning personality. A lady once described her to a friend as not of striking beauty of face, figure, or voice, but when she appeared on the platform and sang those glorious old Highland melodies everybody loved her.

Is Appreciated.

"This graphic appreciation is well deserved, for she is a great public favorite, having won her individual interpretation of music which is very dear to her. She has sung in many parts of the world, and in her tours in Canada and the United States she has had many artistic triumphs.

"The rare talent of Miss Robertson was discovered by the Duke of Argyll, who induced her to give a drawing-room entertainment of Gaelic songs in London. Her initial success was so complete that she embarked upon a career which has had no parallel, and that the Scotch people appreciate her great work is shown by the fact that the London Argylishire Association selected her as their special emissary to Canada to raise funds for the benefit of rescuing and preserving the old Gaelic and Scotch music. On her departure they presented her with a cheque of £200, a silver salver, and a letter couched in the most appreciative terms.

"Miss Robertson's tour of Canada was one series of triumphs, and a large sum of money was raised in support of the worthy object: to promote the teaching of Gaelic: to develop Gaelic literature, music, and art; and to encourage home industries among the Gaels.

"There was a large audience present at her recital in Bechstien Hall, and the enthusiasm was of the kind which is aroused by great and individual artists. During her absence from us she has lost none of that grace and naturalness of manner, infectious enthusiasm, or artistry which give her a unique position among her contemporaries." — Musical Courier, London, England.

MR. BOWSER PRAISED BY MRS. ANDREWS

Charges that the Oliver Government, in putting into effect much-needed social legislation and reforms had stolen the platform of the Opposition were voiced at a meeting of Opposition ladies in the Princess Theatre yesterday afternoon by Mrs. Bertha P. Andrews. The social legislation in question, she affirmed, had been promoted by W. J. Bowser, K.C., Leader of the Opposition. She recalled that the last Conservative Convention she had brought in a [illegible] thanking Mr. Bowser for his efforts in getting women the franchise.

Mrs. Andrews said that the present Prohibition Act was a good one. The only trouble about it was that it was not enforced, and the Government was trying to discredit it. "It is because I believe that Mr. Bowser and his supporters will be able to draw up an Act that will be favorable not only to the supporters of Government control but of the Prohibitionists themselves that I am asking you to support the four Conservative candidates," she asserted.

The four Opposition candidates in Victoria also spoke, as did Mrs. Roberts, a member of the Women's Conservative Association. Mrs. Margaret Jenkins presided and with her on the platform were Lady McBride, Mrs. Bowser, Mrs. Burdick and Mrs. Mouatt. Mrs. Harry Pooley and Mrs. Smith, accompanied by Mrs. Gibson, sang solos.

The turnip came from Rome.
The peach came from Persia.
The nasturtium came from Peru.
Horse radish is a native of England.
Melons were found originally in Asia.
Sage is a native of the south of Europe.
Sweet marjoram is a native of Portugal.
The bean is said to be a native of Egypt.
Damsons originally came from Damascus.
The pea is a native of the south of Europe.
Coriander seed came originally from the East.
The gooseberry is indigenous to Great Britain.
Ginger is a native of the East and West Indies.
Apricots are indigenous to the plains of America.
The cucumber was originally a tropical vegetable.
Pears were brought from the East by the Romans.
The walnut is a native of Persia, the Caucasus and China.
Capers originally grew wild in Greece and northern Africa.
Garlic came from Sicily and the shores of the Mediterranean.
Asparagus was originally a wild sea-coast plant of Great Britain.
The clove is a native of the Malacca Islands, as also is the nutmeg.
Cherries were known in Asia as far back as the seventeenth century.
The tomato is a native of South America, and takeg its name from a Portuguese word.

Invigoration and satisfaction in every cup of **INSTANT POSTUM**

make it the ideal drink for those who want to live well and sleep well.

HISTORIC OLD PIANO SOLD.

The Chicago "Daily News" recently published an interesting account of a piano used by the famous Jenny Lind in her concert tour of 1850 in the United States. Until recently the piano had been resting in the second-hand store of Thomas E. Smith, of Chicago, but was puchased by a New Haven junkman and removed to that city. Phineas T. Barnum, the great American showman, in 1850 engaged Jenny Lind, the Swedish contralto, for a concert tour of the United States for which he paid her $302,000, and contracted with a New York piano concern to construct a mammoth piano of the square type for the concerts at a cost of $5,000. While this piano was in public no duplicate was to be made. Its case and legs were made of San Domingo mahogany, enameled in ivory and embellished in gold. Otto Goldschmidt was her accompanist on the Crystal Palace piano and married Jenny Lind while they were on the concert tour in this country.

The Crystal Palace was destroyed by fire in 1857 and the late Allen M. Colgrove, of this city, owner of the McDonough house block, bought the piano for private use for $1,000 and had it removed to his home, called Colgrove Castle, on the Middlefield road, where it remained mute for more than forty years. Many old citizens may recall seeing the instrument there, its top forming a storage for discarded and out-of-season hoes, scythes, and farming tools for which there was not room on the veranda or in the yard. After the death of Mr. Colgrove Mr. Smith bought the piano and has had it ever since.

He had been courting the girl for a long time. It happened on Sunday night after church. They were sitting on the sofa, and she looked with ineffable tenderness into his noble blue eyes.

"Tom," she murmured, "didn't you tell me once you would be willing to do any act of heroism for my sake?"

"Yes, Mary, and I would gladly reiterate that statement now," he replied. "No Roman of old, however brave, was ever fired with a loftier ambition, a braver resolution than I."

"Well, Tom, I want you to do something really heroic for me."

"Speak, darling, what is that?"

"Ask me to be your wife. We've been fooling long enough."

A desire for revenge for alleged ill-treatment caused Angus Irvine, of Newark, O., to kill his father, Walter Irvine, former judge and army

A Vote for Government Control and J. H. Gillespie means universal prosperity.

Hundreds Cheer Dr. Hall Urging New Social Era

A crowd of 700 persons who jammed the Crystal Theatre and stretched out into the street cheered Dr. Ernest Hall, Independent candidate, last night when he declared for "a new age that is going to put the nation before party and the spirit of truth before anything else."

"As far as I am concerned the victory is already won," Dr. Hall said. "We are simply going to celebrate next Wednesday. At least 75 per cent. of the people we have interviewed are supporting me and there is only one man yet who has called me a damphool.

"We have listened for the last two weeks to the vilest campaign of mud-slinging and personal tirade. If we were to believe one-quarter of what the politicians call one another we would not only have lost all faith in politics but in humanity.

"I sympathize with the Canon in his campaign, trying to mix religion and politics in Victoria. But they won't mix.

Reactionaries Control Parties.

"The greatest mistake of this campaign has been the turning down by the Liberals of the man who next to the Premier took the highest vote at the polls last election. That is, George Bell who controls 10,000 votes in Victoria. It is the most glaring injustice that has ever characterized political life in B.C. It was an insult to the Methodist Church, and no one can insult the Methodist Church in Victoria with impunity. It was an insult to the Christian manhood of Victoria, and no one can insult the Christian manhood of this city with impunity.

"The way Mr. Bell was dealt with and the way Mr. Beckwith was dealt with in the Conservative convention show that the forces of reaction are in control of one convention as well as the other.

"The Premier was no more responsible for this than for many other things which have happened in the last four years.

Not Convention Product

"I stand, not 'convention-made' but as the representative of those whose names have been affixed to my requisition, names of men and women who represent the best type of Canadian citizenship, men and women of ideals, who are willing to work, and if necessary sacrifice for those ideals, men and women whom future generations will look back upon and thank for their efforts in nation building," said Dr. Hall.

"Some are Conservatives, some Liberals, some Independents, some Laborites, but all some people, who have forgotten the narrow confines of the partizanship of yesterday, and are living in the unity of purpose of to-day, and in the hope and achievement of to-morrow.

"They are men and women who have evolved from the jungle age of political machine politics, that system that makes for all that is obnoxious in public life, that system which encouraged vicious men into disreputable acts that prostitutes honor, blasts integrity, and ruins manhood, all that the machine might flourish and the boodle bag overflow. Men and women who have made stepping stones of their dead partizan selves to higher things.

Human Interest Platform.

"Now for a few words about myself. Although not wholly a stranger it is customary though hardly necessary to let you know the tendency of my thoughts, desires and purposes.

"You ask for a platform. It is simply myself known and open before you. It is freedom, independence, the protection of the weak, the relief of the oppressed, the building up of the broken-hearted, the freeing of the captive, and the helping of the under dog.

"Democracy to the hilt, whatever makes for human uplift count me there.

Started Venereal Lectures

"Let me call your attention to the fact that I was the first to begin the public instruction and agitation about venereal disease in this Province and did it against severe opposition and ridicule. But I have lived to see my sentiments crystallized into a statute and a measure of protection given to our boys and girls.

"Much more is to be done, I shall not rest satisfied until into every home in B. C. is placed literature that will warn the rising generation of the perils surrounding them, and until as much care is taken of our children as is devoted to our horses.

"And in this connection allow me to say that so far as I know, I am the only medical practitioner in B. C. who has ever been called to deliver a course of lectures outside the Province. I refer to the invitation given to me by Dr. David Starr Jordon, Chancellor of Leland Stanford University, to deliver a course of lectures on venereal diseases, before his university.

Remove Fear of Sickness

"For thirty years I have been in favor of state medicine and the sole advocate for many years in our Province. If elected, I will move as far as possible in this direction to make the burdens of life more easy for some of you. The fear of poverty is almost as bad as poverty itself.

"The knowledge of what sickness means to the average working man's family is almost as bad as sickness itself.

"Under our present conditions a case of typhoid fever, or a case of any prolonged sickness is a calamity not only for the present, but the organized medical profession is able to mortgage your earnings for the next four years for services. All this burden of fear must be removed, and medical attention be as free as public education. I fought the battle of the fraternal societies almost alone, and it had to fight the organized medical profession which spread reports about me throughout Canada little less misleading as were the vile reports circulated by the whisky ring about my friend George Bell.

Aided Influenza Victims

"And again during the severe Influenza epidemic two years ago, I gave the public through the press the treatment which I had found the best for that dreadful disease. I received expressions of gratitude from all parts of the Province. For that also I gained the general censure of the profession and condemnation by the Victoria Medical Association. Always and ever I have championed the cause of the feeble and sided with the unfortunate. These matters have been engaging my attention while politicans were sparring and throwing mud.

"Now we will proceed to business to discuss in detail some planks in my platform.

Parasite's Prestige Waning

"1. Consideration of the worker:

"I have no desire to unduly emphasize the labor factor, but let me say in all sincerity that the day of the worker is fast approaching, as the prestige of the parasite is rapidly receding.

"Up from the farm, the desk, and the workshop is coming a mighty host whom neither Grits nor Tories dare attempt to number. They are knocking at our legislative halls, and the doors are opening to them. There soon will be neither forum nor council chamber where their voice is not heard, and their influence not felt.

Labor Giant Coming

"This sleeping giant of labor has at last awakened. He is sitting upon the bedside of opportunity and rubbing his eyes. He will soon marshal his forces and march upon us. He has sent his challenge to the industrial world, and the wheels of commerce stand still to listen, while the boldest even Lloyd George, holds his breath for a time.

"He has sent his challenge to the religious world, and in reply Catholic, Congregational, Anglican, Methodist, Presbyterian, Baptist and Quaker, all meet upon common ground and demand in no uncertain terms a clearer expression of Christianity in the economic terms of daily life.

What Bishops Predict

"Listen to what the United States Episcopal bishops have to say.

"'It is increasingly manifest that there must be progress away from selfish competition to unselfish co-operation in that struggle for daily bread which is the largest single fact in the life of the majority of men.

"'We favor collective bargaining, as an instrument for the attainment of industrial justice, and for training in democratic procedure, and we favor also the advance of the workers themselves through profit-sharing and through positions on boards of directorship.'"

Churches Favor Radical Move

Dr. Hall read the official statement of the Baptist churches in British Columbia, "that an ordered and constructive democracy in industry is as necessary as political democracy, that collective bargaining and the sharing of shop control and management are inevitable steps in its attainment, and that the first charge upon industry should be that of a wage sufficient to support an American standard of living."

"To that end we advocate the guarantee of minimum wage, the control of unemployment through government labor exchanges, public works, land settlement, social insurance, and experimentation in profit-sharing and co-operative ownership," Dr. Hall quoted the church as advocating.

"The Presbyterian Church favors giving workers a voice in altering conditions under which their work is to be done, and a proper share of control of industry, giving workers an equitable share of the wealth jointly produced, state aided co-operation in social insurance, against unemployment accident and illness, pensions for old age and widowed mothers," Dr. Hall went on.

Against Swelling Private Fortunes

"Here is the official statement of the Methodist Church of Canada.

"The triumph of democracy, the demand of the educated workers for human conditions of life demand nothing less than transference of the whole economic life from a basis of competition and profits to one of co-operation and service. We are convinced that the time has come for the deliberate undertaking to build by design and intelligence the fabric of human society on a new basis. Society, as the individual, lives not by bread alone, and the purpose of social organization is not found in the production of wealth to swell the magnificence of private fortune.'

"Catholic bishops of the United States have come out and say that, 'the right to collective bargaining should never be questioned,' and that the 'possibilities of increased production will not be realized while most workers remain mere wage earners,' and that 'above all, a reform of spirit is required and this centres in the re-affirmation of the human values of labor and of employer alike.'

Challenge From Giant

"This labor giant now sends out his challenge to the political world, and he who is wise will read mark, learn and inwardly digest the signs of the times," Dr. Hall went on.

"See how this sentiment is growing. Stop it? Try and stop Niagara with a tooth pick, or a woman talking on a double telephone line. It is a stage in the evolutionary progress and must go on. Misrepresentation can't check it, calling it names won't destroy it, adverse legislation cant impede it.

"It is the product of two great factors, Christianity and education. This new inspiration which has stood throughout the world has filtered through the church and taken root among the masses outside the church, and, there finding fertile soil, has brought forth much fruit, though often imperfectly stated and sometimes crudely expressed.

"The other factor is education. You can't keep an educated people in bondage. Education spells freedom and freedom spells democracy in its widest and fullest sense, and that widest expression and application of democracy is the aim and purpose of this great universal upward movement.

Only Birth Pangs

"Stop it? Never! It is world-wide, it is cosmic. It is the great working world finding its soul, realizing its manhood and demanding expression.

"The present world-wide agitation is but the birth pangs of a new order, and soon the child will burst its swaddling clothes. What does this movement stand for? It stands for rights of all who work by either hands or head, and as for the man who can work and won't work, the society of the future will recognize no right. None did I say? Yes, there is one. He will have the inaliable right, the personal liberty to starve, and in this we have the corroboration of scripture, for did no less an authority than Paul state that 'he who will not work neither shall he eat'? And even an Irish Lord Mayor cannot live without eating.

Place of Rich Man

"What of the rich man in the new society? He will remember that his responsibility to society will be estimated in direct proportion to what society has contributed towards him. He may learn of the joys of service and also be benefited.

All For Soldiers

"Now as to the consideration for the man who saved the country, the soldier. To him I take off my hat, we cannot do too much for him, for we owe more to him than we can ever pay. I mean the real soldier, the over-the-top man. I don't mean the chocolate man. I am ready to go over the top for him in anything to make his pathway and that of his dependents brighter and his lot easier.

Liquor Troubles Coming.

"The liquor traffic, like the poor, this is ever with us. The people have spoken, wisely or unwisely it is not for me to say, but the verdict must be accepted and that is against prohibition, but God help the government that will have to carry out the expressed will of the people. They have my sympathy and I hope will have my assistance. If I have anything to say about it, it will be a control that will give no idle definition to that term, and at the same time satisfy even Mr. Gillespie, if not Mr. Hastings. Remember that the character of that control will not be regulated by what Mr. Bowser or Mr. Oliver have been saying or may say as pre-election vote-getting sparring, but it will be determined by the sentiments of those who constitute the next House. Then be careful in the selection of such candidates who have rung true to the great principle involved in this issue. You can't gather grapes off thistles or temperance legislation from the intemperate.

Prohibition Plans

"The prohibition party requested that the present act enforced for one year after being amended, that there be no referendum in the meantime, that enforcement be entrusted to a commission of three, and requested the Provincial Legislature to bring in a Provincial referendum under the Canada Temperance Act, to prevent importations, as the four other provinces voted dry on October 25.

"This request was voiced by Mr. George Bell, in a resolution on April 17, this year, but Hon. John Oliver moved an amendment embodying a plebiscite. This, I understand, was to fulfil a promise by Mr. Brewster that when the soldiers returned they would be given a voice in this matter.

Blames Attorney-General

"We of the prohibition party feel that the Government was lax in the enforcement of the act, and that this mal-administration lay at the door of the Attorney-General, not forgetting that in the municipalities the the non-enforcement lay within the power of those in whom we placed in positions of trust, and since a popular vote elected them we have but ourselves to blame for such non-enforcement.

"We also feel that the wording of the ballot was so framed as to confuse the voter. Nor did the Government make any attempt to tell us what they meant by Government Control. Only God and themselves knew, and now only God himself knows. They have taken fire into their bosoms and already it is beginning to burn.

People's Own "Mess"

"I must say that I cannot agree with the suggestions to put this matter under a Commission, however desirable that may seem. The people did not ask for that, and we must, abide by the will of people as expressed in the pelbiscite.

"Government Control, is not Commission Control. No government has a mandate from the people to slight the responsibility. It's their mess, it is for them to make the best of a very bad job.

"Nor is the local option clause which is proposed, in harmony with the voice of the people. Much as I would like to see it personally, I do not think, I could favor it. The people have said Government Control. It is up to us to give it to them. They will change their minds in a very short time.

Educational System Wrong.

"Why should our educational system be framed from the University downward? The high school course set to accommodate the university, the public school course to accommodate the high school, and to favor about four per cent. of the students while ninety-six per cent gather what they can get?

"Why should we keep up an expensive system that does not fit the pupils for real life? Why the most flourishing and successful business colleges in B. C.? If our high schools can't compete with private colleges in fitting the pupils for real life, they should close the doors. We need more practical adaptation, and such education that will fit for the duties and responsibilities of life.

"I would recommend the investigation of our system by a modern educational expert who could point out how to relate our system of education to requirements of to-day. We are not geting value for our educational outlay either in our schools or in the university.

Fossilized Foolishness.

"One half of the university activity is an indefensible waste of effort in giving relatively useless knowledge of obsolete subjects for no purpose whatever but to get a degree, or to become teachers in order to perpetuate the vicious circle.

"Away with the fossilized foolishness of centuries, and bring us in touch with life! Our system is top heavy, and should be on the scrap heap. The Province has no right to pay for instruction in that which gives neither knowledge nor efficiency, and only panders to conceit and parasitism.

"In Mr. Willis we have a thoroughly competent Superintendent of Education, who has already accomplished much, and would be only too glad to receive orders from the Minister of Education to develop a forward movement in this line. I assure you the independent Government of the next session will give you 100 per cent. efficiency in this matter.

Has Coal Proposals.

"With unlimited coal deposits, in fact, almost living over a coal mine, are we satisfied with the price we pay for coal? There are thousands of acres of coal areas that might be brought under production, while thousands of our population will be shivering this Winter.

"Is it not a function of Government to give us the necessities of life, at cost, or, at least, to prevent exploitation. New Zealand broke the coal combine. Why not B. C.? By doing this we can accomplish two purposes, warming us and giving men work. Our Government has not realized that the out-of-work man is a dangerous product to foster.

Electricity For All.

"The state should consider every man, the war has tought us this fact. The idle man is bad business. The forces of labor should be organized with as great proficiency as an army in time of war. It is the duty of government in such a province as this to carry on development work and see that the idle man is eliminated.

"As to our water powers and their potential electrical energy, what are we doing? Two-fifths of the electrical energy of the United States is developed by water power, while we have almost endless water power going to waste. Electricity could be economically placed in every house both for lighting and heating purposes, when we wake up and smash monopolies.

Must Wake Up For Health.

"Now we approach a problem of supreme importance.

"Our general health is below par. The official report of our Canadian soldiers was so far from satisfactory that it becomes us as a nation to wake up. Examination showed that only 36 per cent. were fit, 22 per cent. fairly good, 31 per cent. unsound and 10 per cent. were useless. Of 66 per cent. accepted for overseas service 25 per cent. never left England.

"Nearly 60,000 of our best blood sleep in Flanders fields while the rejected and physically subnormal are here to become the basis of the next generation.

"National health as a factor of national efficiency is beginning to assume greater importance, and certainly no other problem of equal importance to wage earners, to employers, and to the state has been longer understood and more persistenly neglected. The Roosevelt Conservation Commission reported years ago that the average span of American life might be increased fourteen years if we would but use the knowledge already at hand.

Lauds Compensation Act.

"I consider this Workman's Compensation Act one of the most valuable achievements of any government, one of the most humane acts of any legislature. Conceived in pity, developed in compassion and executed in justice, it has brought comfort to thousands of sufferers and joy into hundreds of homes.

"But is is only a beginning. We must go on until sickness as well as accident is included and such benefits extended to the wives, families and dependants of the workingman. We must realize that the Government that makes education not only free but compulsory, must take another step and make the care of the body also free, for without health, education is worthless.

Health First.

"You will all agree with me when I state that health of the individual is perhaps his greatest asset, and national health is equally the nation's greatest asset, of greater importance than our mines, agriculture, public works or education. Our Government has special departments for these factors, but a relatively very meagre consideration for public health. It seems to me that in the establishment of a portfolio of health a deep need would be met. Under this department would come the work now so excellently accomplished by our able Secretary of the Provincial Board of Health, Dr. Young, but with a very widely extended scope.

Should Lead Pure Lives.

"Public lectures and demonstrations upon all phases of social disease should be given in every center of population. The rising generation of both sexes should be instructed in all that pertains to their own personal development. The necessity of living a pure and victorious life emphasized. Periodical examination of the whole population should be made to eliminate undesirable features, and eradicate so far as possible all factors that retard development of an 'A.I.' citizenship. You can't make 'A.I.' men and women out of 'B.2' children. The hospital management should come under this department.

Should Idealize Motherhood.

"A most important measure is free maternity attendance when you realize that under the present conditions the advent of an additional number to the family means expense of from 100 to 200 per cent. if the mother and child are to be given the best of care, and they should have it. Nothing is too good for her who enters the gates of death to give a new life to the world. Motherhood to-day is penalized where it should be idolized.

"I could in this take you into my confidence, but time will not allow. Just permit me to say that race suicide cannot be prevented by moral lectures when the economic pressure remains as it is.

Stop Unnecessary Operations.

"Especially should we develop free maternity hospitals which should be a tremendous saving both of life and expense. With a properly equipped institution and resident physician he could attend ten cases as easily as we now attend one, and a great many unnecesary operations be avoided, which are done for the glory of the young operator more than as an act of necessity. Too often the unfortunate mother is thus exploited for the advantages and preference of the attendant who makes the unnecessary suffering of the mother his stepping stone to prominence.

To Combat Mother Deaths.

"This matter is rendered more essential when we realize that at least 23,000 mothers die every year in the United States from causes due to child-birth, and thousands more become permanent invalids. The sacrifice of babies also is appalling. At least 250,000 babies fail to survive their first year. This disaster falls heaviest upon the poor, and the real tragedy of it is that it is largely preventable. This is so important a matter that the Peace Conference made a place for maternity protection in its programme of safe-guarding the working people.

"What is the value to the state of population? Let us look at the immigration statistics. During the last 20 years Canada has expended $19,000,000 in getting the scum of Europe to come to Canada.

Need Health Insurance.

"The greater part of Europe is now protected by health insurance and it is being discussed in the United States.

"In the New Republic of Czecho-Slovakia, compulsory health insurance applies to all persons working for hire, except public employees. The act provides for free medical care, maternity service, a cash sickness benefit of 60 per cent. of the wages payable during six weeks following confinement, a nursing benefit of half the amount paid for twelve weeks to those who nurse their children.

(Concluded on page 18.)

The Joy of Living

DO you feel like these children in the morning, full of energy and buoyant spirits?

Do you get up refreshed by your night's sleep ready for anything the day may bring forth?

You should and you may if the simple rules of health are observed.

It is possible that by some excess in eating, or over-exertion, your heart has not been working with its accustomed regularity, and you are not getting undisturbed and refreshing slumber.

Your sleep may be broken with terrible dreams, smothering spells, sinking sensations, and even fear of impending death.

Milburn's Heart and Nerve Pills have brought relief to hundreds of such cases.

Milburn's Heart and Nerve Pills enrich the blood, strengthen the heart and tone up the nerves, making the whole organization work in harmony, and bringing back in a few days that blessed condition where you sleep as peaceful as a child and hail with joy the return of another day.

Mr. Harold Acker, Springfield, N.S., writes:—"I was bothered all the time with nervous headache and dizziness. I could not stoop down at times, as everything would get black before my eyes. I could not sleep at night, and my appetite was very poor. I was almost on a nervous breakdown. I used four boxes of Milburn's Heart and Nerve Pills and they helped me fine. I would recommend them highly to any person troubled with their heart or nerves."

Milburn's Heart and Nerve Pills are 50c. a box at all dealers, or mailed direct on receipt of price by

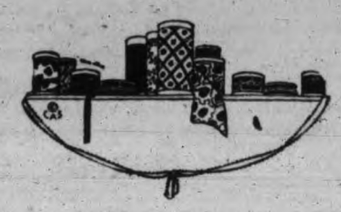
BURBERRY COATS

Store Opens at 9 a.m. and Closes at 6 p.m. Wednesday at 1 p.m.

An Important and Extensive Showing of Dainty Ribbons and Ribbon Novelties



Intending purchasers would do well to inspect this showing of ribbons and make selection now in order that they may have ample time to make their Christmas gifts.

There are ribbons here to suit all requirements — never has the stock been more complete.

Women who look for quite the best in ribbon novelties will find their needs have been anticipated in this showing. Note the following:

Dainty Taffeta Ribbon, one-eighth to five inches wide, in a good assortment of colors—**7¢** to **80¢** a yard.

Duchesse Ribbon, one-eighth to ten inches wide, in various good colors—**7½¢** to **$4.50** a yard.

Dresden Ribbon Special, 4 inches wide—**50¢** a yard.

Other qualities are 5 and 6 inches wide—**85¢, $1.00** and **$1.25** a yard.

Extra Wide Dresden Ribbons at **$1.50** and **$2.00** a yard.

Novelty Check Ribbons, are 6 and 8 inches wide—**$1.50, $1.75** to **$3.50** a yard.

A Heavy Quality Taffeta Ribbon with contrasting colored satin stripes, blue, pink and maize—**$1.75** and **$2.75** a yard.

Fancy Tapestry and Brocaded Ribbons suitable for making vests, handbags, etc., to 10 inches wide — **$4.50** to **$17.50** a yard.

Dainty Lingerie Ribbon in all the required widths, a splendid assortment to choose from in colors of white, pale blue, pink and mauve, also rose and maize—**10¢** to **$1.00** a yard.

Kam-i-Sol Ribbon in the following widths:

9-inch, pale blue, with tubular border—**$3.25** a yard.

9-inch, plain white, with tubular border—**$3.25** a yard.

10½-inch, pink with pale blue tubular border half inch wide—**$4.00** a yard.

Bolts of Christmas Ribbon, have mottos, holly, and are in red and green; five yards in a bolt—**45¢** a bolt.

Bolts of Lingerie Ribbon in white, pink and blue, 2½ yards in a bolt—**25¢** and **30¢** a bolt.

The showing of Ribbon Novelties includes Boudoir Caps, Shoe Trees, Coat Hangers, Powder Boxes, Garters, etc.

Bag Handles in Various Styles

A good assortment of styles and colors in amber and tortoiseshell bag handles from **$1.75** to **$6.95** each.

Heavy Metal Bag Handles with metal chain—**$1.75** to **$6.95** each.

Some very neat designs in combination metal and tortoiseshell bag handles with metal chains, from **$2.50** up.

Oval and round celluloid Handbag rings at **$1.00** a pair.

Purchase Crepe de Chine For Making Intimate Gifts

40 Inches Wide Special Value Wednesday Morning $2.95 a Yard

This is a very serviceable quality and especially suitable for making envelope chemise, bloomers, etc. Purchase now and make your Christmas gifts while there is yet time. The color range includes sky, maize, white and flesh; 40 inches wide. Reduced to **$2.95** a yard.

Special Notice

THE BALANCE OF OUR REMNANTS WILL GO ON SALE WEDNESDAY MORNING AT HALF PRICE.

The collection is large and varied, including remnants of Silks, Dress Goods, Cotton Goods, Trimmings, etc., all at HALF PRICE.

Phone 1876. Blouses, Lingerie and Corsets, 1878. First Floor 1877.

A daily cupful of hot OXO gives warmth, energy, vitality and fortifies against illness.

Give Strength

What the Liberal Government Has Done in Four Years' Work

Land and Agriculture.

In 1917 the Government passed the Land Settlement and Development Act, to grant loans enabling farmers to extend their operations in production. To take over from private owners land held out of production and sell it to bona fide settlers.

The Land and Settlement Board was instrumental in forming ten cattle clubs in 1919, resulting in the distribution of 908 cattle and 205 sheep supplied on extended payments.

As a result of the Contagious Diseases (Animals) Act, to which amendments were passed, B. C. now holds first place in Canada for healthy herds. In certain sections the reactors to tuberculin tests have decreased from 35 per cent. to 3¼ per cent. Financial assistance has been given to Live Stock Associations.

And, as a result of demonstrations given under the Department of Agriculture 65 silos have been erected.

Under the Oliver Government, British Columbia lands are disposed of on the basis of use by actual settlers only.

Half a million acres have been taken up by genuine settlers in the last three years.

Public Works.

Large sums of money, averaging $2,000,000 annually, have been spent in the construction and reconstruction of highways in British Columbia, and the physical nature of the country makes it necessary to spend increasingly large sums every year in order that the vast natural resources of the Province may be adequately developed and suitable transportation afforded existing and prospective settlers.

Mines and Fisheries.

Sane and Progressive Mining Legislation wisely administered.

Government Mining Engineers in field—Mining roads and trails constructed—Aid in development of mining properties.

British Columbia's iron ore resources demonstrated and Iron and Steel Industry encouraged.

Prospectors protected and assisted—Higher standard of working conditions for coal and metal miners.

Every safeguard known to mining science provided underground workers.

In administration of Fisheries Department adoption of policy of Perpetuation of Salmon of Pacific as well as broader industrial development of Fisheries.

Taxation Department.

This Department has been reorganized and put on a business basis.

All persons entitled to pay Personal Property Tax or Income Tax are now obliged to make proper returns to the Department.

Mining Companies, Coal Companies and Canneries were brought under the Income Tax Act. Previous to this administration they did not pay income tax.

Arrears outstanding nearly 20 years when this Government came into office have since been collected and a business system of collection put in force.

An audit system in connection with returns for personal property and income tax has been established, with wonderful results.

Up to November 1, 1920, no less than 72,134 accidents have been dealt with since the Workmen's Compensation Act came into force in 1917. Compensation has been paid to workmen amounting to over $2,300,000.00. New claims are being filed at the rate of 70 per day, and claims are being adjusted on an average of from five to seven days after the reports are received from all parties concerned.

To Returned Men.

The return for the fiscal year 1918-19 showed that 114 returned men had been employed in permanent positions, and 109 in temporary positions. In other words, in that year 90 per cent. of the vacant positions went to returned men. Compared with other western provinces, this percentage is about double Saskatchewan's case, and more than double in the other cases. A report from the Civil Service Commissioner, bringing the matter down to quite recent date, showed that out of 187 appointments made, 89 went to returned men, 81 to women and juniors, and only 17 to civilians. That is to say, 84 per cent. were returned men. In March, 1920, the record of the Civil Service Office shows that 203 men had been reinstated, not a single man unplaced, and the increases in salaries had gone on during their absence. All Civil Servants who returned from overseas have had their former, or else better, positions restored to them, excepting only a few who did not desire to return to Government employ.

The record of appointments to the Civil Service for the past four years shows that out of a total of 598 adult male appointments and reinstatements made, 526 were returned men and only 72 were civilians. It should be noted that, owing to the high salaries paid in industrial enterprises, there have been more changes in the Civil Service than ordinarily. Since January, 1919, 141 men have been sworn in as Provincial Constables. Of these 129 were returned citizens. Out of 80 other appointments to branches of the departments, 73 went to returned citizens. Of the remaining seven, four were junior appointments not acceptable to veterans. OUT OF 76 APPOINTMENTS AVAILABLE TO RETURNED CITIZENS, ONLY 3 WENT TO CIVILIANS.

In thus granting assistance to industries representing a capital outlay of over two million dollars, the Department of Industries has acted with all the caution that should actuate any sound business company. The loans are all repayable, with six per cent. interest, within a term of ten years, and they are only granted after investigation by, and on the recommendation of, an Advisory Board composed of experienced and representative business men.

Social Legislation.

Extended the Franchise to Women. It has been a plank in the Liberal platform for years and became law with the advent of the Liberal Government.

Enacted the Mothers' Pensions Act, an important piece of legislation for the women of British Columbia.

Passed a Minimum Wage Law for Girls and Women, raising the starvation rate paid by some employers from $4.00 to $12.75.

The Oliver Government reorganized the Returned Soldiers' Aid Commission.

Prepared and Submitted the Soldier Housing Scheme to the Government at Ottawa.

Exempted Pensions of Returned Men from Taxation.

Withheld from Tax Sale Lands of Soldiers and their dependents.

Outfitted and Paid Expenses for Returned men to engage in Prospecting.

The Oliver Government has passed Legislation along Humane Lines for Boys and Girls in Industrial Schools. It is making an honest attempt to get boys and girls right with themselves, rather than stamp them as a criminal.

The Liberal Government has established a Juvenile Court with a Lady Judge.

It has amended the Marriage Act, giving a Mother at least equal rights with the Father in the Marriage of a minor child. In this regard the Oliver Government has taken Marriage Act from out of the Cave-Dwellers' Age and placed it on a 20th Century plane.

Free Employment Bureaus were established by the Oliver Government in British Columbia, seventeen of which are located in the principal cities in this Province.

These are some of the accomplishments of the Brewster and Oliver administrations in four years. It is essential there should be a stable government to enable the Oliver administration to complete its work for the public weal.

Fighting Speech To Be Premier's Final Appeal To Electors

Hon. John Oliver Arrives In City to Address Two Meetings To-night; Expected to Deliver Most Notable Addresses of Campaign.

Replying to the charges of the Opposition and explaining the policies, aims and record of his administration, Hon. John Oliver will deliver what are expected to be the most notable speeches of the present election campaign at the final Government rallies in the Royal Victoria Theatre and the Empress Hotel to-night. The Premier is expected to deliver in typically vigorous style the last speech he will make before his appeal to the electors to-morrow, and there is no doubt that packed audiences will turn out to hear him.

Mr. Oliver returned to the city to-day in order to be ready for his appearance to-night and is resting during the afternoon in preparation. He will speak first in the Empress Hotel and later in the evening at the Royal Victoria Theatre.

Financial Question.

Recognizing that one of the most important issues to be decided by the electors to-morrow will be that of British Columbia's financial policies, Mr. Oliver intends to deal with this subject in some detail. Discussing the address which he will deliver and referring to Mr. Bowser's recent speech here, the Premier said this morning:

"Mr. Bowser claims that our Government came into power in 1916 under the most propitious circumstances. The facts are that the revenue of the Province which had been $12,510,000 in 1912, had shrunk to $6,291,000 in 1915, and the estimate of revenue for 1916 as made by the Bowser Government themselves was less than $6,000,000. There was $54,000 in the treasury and a deficit of $4,000,000 due within a few weeks' time, whilst the aggregate of deficits for the years 1911 to 1916 inclusive was $19,910,000. These were the propitious circumstances which Mr. Bowser mentions.

'Mr. Bowser refers to a loan which he had placed in New York for $1,000,000, and the rate at which the money was borrowed as at 5.62 per cent. Mr. Bowser himself furnishes one of the reasons why a higher rate of interest had to be paid by the Province in 1917. In the fact that the nations which were at war were competing in the money markets for money, and that the credit of the Province, owing to its immense obligations and shortening of revenue, had deteriorated in the meantime. The silence of Mr. Bowser in reference to the letters which he received in 1915 from the bond brokers, pointing out to him that Provincial bonds were not looked upon with favor, shows that whilst he was claiming to be desirous of the public knowing all the facts, he was carefully suppressing a portion thereof."

"Mr. Bowser alleges that our Government has borrowed $27,500,0000 in four years, and he wishes to know where the money has gone to. Mr. Bowser knows perfectly well that $14,328,000 of these borrowings went to meet the obligations of the Pacific Great Eastern Railway, which were a direct result of his policy. He knows that $4,000,000 went to meet the deficit which his Government left when they vacated office. He also know that the other borrowings, with the exception of approximately $1,500,000, have been in the nature of investments repayable to the Province."

Coal and Oil.

"As to the price of coal per ton, some more effective control might have been effected by the Province had not the Government of which he was a member, alienated every coal measure within the reach of transportation. He also knows that the price of coal is controlled by his friends at Ottawa."

Mr. Oliver also will deal with Mr. Bowser's statements concerning the Government's policy in connection with the development of British Columbia's oil lands. The Premier will explain why his administration placed reserves upon certain mineral lands—a policy which Mr. Bowser claims is retarding the development of the Province.

Mr. Hart will deal with the finances of the Province since 1917. He intends to explain the international exchange situation.

Mr. Hall.

Mr. Hall stated this morning that he intended to centre his remarks to-night around the question of industrial development, the industrial policies of the Oliver Government, and its industrial plans for the future. Mr. Hall will deal particularly with the opportunity to explain the policy of the Government in placing reserves upon portions of the Province's mineral riches—a matter which the Leader of the Opposition dwelt on at considerable length in his recent speech here. Mr. Hall will show that the reserves placed upon mineral lands are having and will have the effect of developing the resources of the Province instead of retarding them as was charged by the Opposition Leader. The Government's policies in this connection, Mr. Hall will explain, are similar to plans which have proved most successful in other countries.

Mr. Clearihue.

Mr. Clearihue will deal with industrial development particularly as it applies to Victoria, and will show the excellent results achieved by the B. C. Department of Industries, created by the Oliver administration. He will describe also the splendid social legislation brought into effect by the Government.

At noon to-day Mr. Hart, Mr. Hall and Mr. Clearihue spoke at the Victoria Machinery Depot, where they were cordially received by the men. The issues of the campaign were placed before the workers in short concise speeches which were accorded generous applause.

STERNLY REPUDIATE PARTY INSINUATIONS

False Impression Regarding Work in Reserve, Say Candidates

There is no possible chance of the Government work on the Songhees Reserve being closed down immediately after the elections, as insinuated by the Bowser candidates in the present election campaign and the work is expected to last out for at least three months, with the possibility, of course, of further employment developing as the plans of the Liberal Government, if elected, are made.

J. D. McNiven, Deputy Minister of Labor, and A. F. Proctor, the engineer in charge of the work, is responsible for the assurance that the work will last for at least three months. It is pointed out by some of the Government candidates that everything that has been done recently to help better conditions and give employment to men out of work has been construed as "an eleventh hour idea to cadge for votes." As the business of the country must be carried on whether there is an election in the offing or not, regret has been expressed by the Liberal candidates that work offered at this time should be construed as an election dodge.

Attention is called to an article appearing in The Colonist this morning which claims that in order to secure votes the Government has decided to put on a further crew of men, bringing the total up to 250, and says: "That is to say that those 250 men are given one day's work at a rate of $4.35 for the day."

It is pointed out that this is a deliberate attempt to belittle the attitude of the Government and injure its reputation for sincerity and fair dealing with the people of this district, and for that reason a refutation of the insinuation is made in the strongest possible terms by the Liberal candidates.

WHY

CAN WE "SEE OUR BREATH" ON A COLD DAY?

(Copyright, 1920, By The Wheel Syndicate, Inc.)

The phenomenon commonly referred to as "seeing one's breath" is really mis-named, inasmuch as we do not see all our breath, but merely the moisture in it. On a warm, dry day this moisture is taken up by the air, and mixes with the surrounding atmosphere without any apparent change. In cold weather, however, it condenses like a cloud, and is visible to the eye precisely as the clouds are visible. It sometimes happens that on a damp, foggy day in Summer we can also "see our breath," though the temperature is not nearly cold enough to appear to warrant it. Here, however, it is not a question of cold as much as of the fact that the air contains a large quantity of moisture, and the additional water-vapor hangs suspended for an appreciable time before being absorbed or blown away.

The same effect of the condensation of moisture is apparent at all times when we breathe on a mirror. The surface of the glass holds the vapor, and the cloudy appearance persists until the moisture has had an opportunity to evaporate.

KIWANIANS CONSIDER ELECTION OF OFFICERS

Nominations To-day Returned Names of Present Executive

Expressions of confidence in the present officers greeted the President of the Kiwanis Club as he rose to-day, to suggest nominations for the ensuing term. The present executive officers, consisting of the President, Mark Graham; Vice-President Kenneth Ferguson, and Treasurer Mr. Robertson, were nominated unanimously to run for another year. Names to fill the places of the seven directors were then called for, and some twenty-five names were proposed.

Nominated for the office of director for the next term were W. W. Ballard, B. C. Nicholas, Braidwood, G. H. Christie, H. M. Diggon, G. Maynard, Fred. McGregor, J. N. Spence, S. J. Willis, E. J. Little, J. A. McIntosh, J. V. Roberts, D. Spencer, Dr. Lewis Hall, E. H. Dennis, Dr. Vye, Dean Quainton, G. Newton, H. Ivel, A. E. Meharey, H. Hewlett, H. A. Lee, J. B. Clearihue, Henry C. Hall, Col. Lorne Ross, and R. S. Day. The names would be submitted to the members by notice, stated the President.

Mr. Ferguson then moved that the fees of the club be raised to $20 a year, which motion carried unanimously. A motion of sympathy was expressed for the unfortunate accident of R. S. Day. The condition of Mr. Day was stated to be all that could have been expected under the circumstances, and it was reported that he was progressing rapidly after his unfortunate accident.

Mr. Ferguson gave an enthusiastic report of the Tacoma convention, in which some eight or nine cities of the Pacific Northwest were represented. Victoria secured the Kiwanis convention for 1921, other rival cities withdrawing their offer when Victoria was mentioned in that connection. The reception given the delegation at Vancouver last year was stated to have a great deal to do with the popularity of Victoria, and all B. C. cities for the convention purposes.

The usual entertainment provided to-day by Mr. Ballard took the form of several vocal selections which were heartily encored.

NO GRAFT POSSIBLE, MINISTER EXPLAINS

Creston Soldier Purchases Bought For Lowest Prices, He Says

There has been no change for anybody to do any grafting in connection with the purchase of supplies for the soldiers' settlement at Creston, according to a statement issued to-day by the Hon. E. D. Barrow, Minister of Agriculture, in reply to charges of graft by the opposition.

Records show that between January 1 and September 30, 1920, $96,517 of goods were bought for the settlement.

Of this 67 per cent., or a total of $64,938, was bought up-country and only 32 per cent., or a total of $31,573, worth of goods ordered from the Coast.

Of the up-country purchases $28,244 went for groceries, hay and provisions and $36,693 for hardware, machines, powder and camp supplies.

Tobacco, hay and provisions bought at the Coast amounted to only $4,105 and machinery and other purchases to $27,472.

"Purchases were made at the Coast either because it was impossible to procure the supplies up country or else an exceptionally good price was obtainable," Hon. Mr. Barrow states. "No groceries whatever were bought at the Coast, the orders going either to the Western Grocers, Cranbrook, Western Canada Wholesale, Fernie, or A. MacDonald & Co., Nelson and Fernie."

Explaining how the possibility of graft is eliminated, Hon. Mr. Barrow said that comparative prices were taken for all machinery purchases and tenders called for all others. When each purchase is made the account is checked up and the prices examined by as many as ten officials and departments to make sure that everything is above board.

SHIP CHRISTMAS TREES.

Chehalis, Wash., Nov. 30.—Shipment of Christmas trees from this section to Eastern cities is well under way, thousands having gone forward.

SIX-CENT FARES IN VICTORIA IN FORCE NEXT WEEK

Operation of Universal Jitneys in Victoria Became Unlawful To-day

The day of the universal jitney in Victoria came to an end this afternoon when the city's Jitney By-law, prohibiting the operation of jitneys except on a few specified routes, became law. Following the registration of the by-law to-day, A. T. Goward, local manager of the B. C. Electric Railway Company, announced that, unless unforeseen delays occurred, six-cent fares and reduced lighting rates would come into effect here some time next week and possibly next Monday.

The new Jitney By-law provides that jitneys shall operate only on the Gorge, Quadra Street and Haultain Street routes. Jitneys so operating, the civic authorities feel, will not be competing unfairly or directly with the B. C. Electric Railway Company. Operation of jitneys on all other routes is prohibited, so that the long-drawn-out fight to keep jitneys running on Victoria streets appears to be at an end. Jitney operators will not be fined to-day, of course, as it was not generally known until this afternoon that the new by-law was going into effect immediately. To-morrow, however, no jitneys will be allowed to operate.

As soon as his company had reached an agreement on the street car fare and lighting rate issues with Victoria, Oak Bay, Esquimalt and Saanich, Mr. Goward wired the company agents at Ottawa and instructed them to apply immediately to the Board of Railway Commissioners for permission to charge a six-cent fare on Victoria street car lines. Mr. Goward has not been informed from the East whether the application has been made to the Board or not yet. However, as the application, so far as is known, will be unopposed, it is considered a more or less formal matter. On this account Mr. Goward expects to hear at any moment that the Board has given the company the necessary authority. As soon as possible after this word has been received the new fares and lighting rates will become effective. The necessary arrangements will consume several days, but it is anticipated that by next week, possibly by Monday, Victorians will be paying six-cent fares with transfers and a seven-and-one-half-cent lighting rate.

VISITING SICK LEADS TO PENALTY

Savory Flavor of Cinnamon Tea Fails to Secure Acquittal For Opium Users

Because like a good Samaritan he had collected a few of his friends and gone with them to minister to the needs of the ailing Lee, Hing appeared in police court this morning, in company with some of his friends, charged respectively with being in possession of and frequenting an opium joint.

Hing told the court that he had heard that Lee was sick, so he met Lee Chung, his cousin, and asked him to help prepare some cinnamon tea for the ailing relative. Lee Chung, who had seen more of the ailing Lee, told the court how he had filled a Chinese prescription for some drugs, necessary ingredients to the cinnamon tea that was needed to cure the sickened Lee.

Described the "Tea."

The making of the cinnamon tea was described in detail to the court, where it was affirmed that fresh cinnamon was an essential ingredient of the remedial brew. What the witnesses failed to account for was the overwhelming odor of opium smoke that permeated through the habitat of the said Lee. This slight omission was simply made good by Detectives Phipps and Siciliano, who in evidence described to the court the proceedings that led up to the arrest of the three accused. Together the detectives had visited the premises at the top and in rear of 546 Fisgard Street, while gaining admittance they had noticed a bell button that was connected to a horn upstairs, and had not failed to see traces of two trap doors that evidently were used by the Chinese inmates in time of emergency, when exits were the more desirable when extremely rapid and unconventional departure was desired.

Lee, the sick man was apparently not much the better for the ministrations of his friends, and appeared to be drousy. The opium, explained several Chinese, was purely as a medicine for the ailing Lee, and it was naturally by the merest chance that they were fortunate enough in being able to secure the small quantity that they did to aid the sick man.

J. S. Brandon appeared for the three accused and entered pleas of guilty for Hing and Lee, but one of not guilty for Lee Chung.

The Magistrate imposed fines of $200 and costs on Hing, and $20 and costs on Lee. Lee Chung, who pleaded not guilty was fined $20 and $2.50 costs.

AMERICANS ON TRAIL OF WHISKY

Allege Smuggling Is Operating Here to Washington Side

It is alleged by United States officials in Seattle that a boot-legging and smuggling ring has been in existence for some time for the purpose of smuggling whiskey from British Columbia into the State of Washington. Donald A. McDonald, United States Federal prohibition enforcement officer for the State of Washington, has conferred with the Provincial and other authorities in an effort to curb the flow of liquor into the United States, and a special correspondent of The Seattle Times who arrived here last week has written a sensational article, from the first installment of which the following excerpts are taken:

Where does Seattle get booze?

From British Columbia.

How?

By rail, by boat, and by automobile. Take your pick. Delivery is guaranteed over any one of the three routes.

The amount of liquor that flows over the border line into Washington State is apparently limited only by the demand below the boundary. Liquor running has become a highly specialized game; the sole occupation of an efficiently organized band that employs codes, operates boats, automobiles, trucks by schedule and laughs—so far—at the dry laws in Canada and the United States.

Canadian, Scotch, Irish and Kentucky whiskey, imported champagne and gin are offered in Victoria in any amount up to 1,000 cases a week, the "broker" to arrange shipment.

The rum runners working from Victoria and Vancouver, principally from Vancouver, apparently have over-estimated the demand. They have shutted the Seattle market until the price of liquor has tumbled under the influence of the law of supply and demand.

More liquor is flowing toward Seattle than at any time since the United States went "bone dry." By the first of the year, or soon thereafter, the bootleg fraternity will be able to lay booze down in Seattle at even cheaper prices than now, they say, unless the "ring" chooses to profiteer.

British Columbia has become the big source of Seattle's supply since the Volstead Act became effective in the United States January 16, 1920.

So well has the trade flourished that Canadian liquor has almost driven moonshine from the market in the last two months, and the operators there, emboldened by success, are even soliciting orders in case lots from Seattle consumers.

The law permits importation into British Columbia from anywhere for exportation anywhere, taking no cognizance of the fact it is being exported into dry American territory. The Canadian authorities frankly take the position that it is up to the United States to stop the traffic. The Canadian public feels that the American public is being imposed upon and considers the situation as humorous.

SHELL SHOCK CASE IN PORTLAND; MAN IS A CANADIAN

Portland, Nov. 30.—Frank Walsh, aged twenty-one, a discharged Canadian soldier, was found lying in his bed in a downtown rooming house last night suffering from shell shock and unable to move. An interne from the Emergency Hospital was called and sent the veteran, who was wounded in France, to St. Vincent's Hospital, where he seems to be improving. Subsequent to leaving the army the young man had taken a homestead near Calgary, Alberta.

GERMANS DELIVER COAL TO ALLIES

Paris, Nov. 30.—The Reparations Commission announces that the German deliveries of coal during October amounted to 2,186,968 tons. Of this amount France received 1,526,334 tons; Italy 272,864; Belgium 265,770, and Luxemburg 128,000.

You can wear Woollen Underwear if the "Itch" is taken out

Overheard at a Club---

One day at the Club I overheard two fellow members talking of the coming cold weather---one chap said,

"I do hate cold weather; I wish I could wear woollen underwear, but my skin is too sensitive."

And the other said, "Well, there's one make of woollen underwear you or anyone can wear, no matter how sensitive their skins may be---and that is "CEETEE."

It is the softest stuff I have ever seen or worn---you just try it. I know you will like it."

He spoke the truth—"CEETEE" pure wool underclothing is so clean and soft a baby can wear it.

There is none other like it made in Canada.

Only the finest Australian Merino wool is used.

There are no seams, as it is knitted with selvedge edges, which are *knitted* (not sewn) together.

MARINE INQUIRY AT VANCOUVER TO-MORROW

Capt. J. D. Macpherson, wreck commissioner for British Columbia, is leaving for Vancouver to-night to conduct the marine investigation into the collision between the Princess Royal and the steamer Marmion and barge Louisiana. The inquiry will open at the Vancouver Court House at 10.30 o'clock to-morrow morning.

Capt. Williamson and Commander Evans, R.N., will be the nautical assessors, acting with Capt. Macpherson.

The marine inquiry into the Princess Royal-Charmer collision, which was to have been held here to-day, has been postponed until after the Marmion investigation.

BRIEF LOCALS

School Gets Land.—At the request of the School Board the City Council last night transferred property at the west side of the High School grounds to the jurisdiction of the School Trustees. The land includes about one and a half acres assessed at $13,750.

☆ ☆ ☆

Guild of Health Meetings.—On Wednesday and Thursday morning from 10.30 to 12 noon, Rev. T. E. Rowe will be at the church house, 85 Broughton Street for consultation. On Wednesday at 8 p. m. Mr. Rowe will lecture in Christ Church Cathedral. On Thursday at 8 p. m. he will give an address in the Church of Our Lord, Humboldt Street.

☆ ☆ ☆

Mr. Hall Replies.—The City Council last night received from H. C. Hall, Government candidate in Victoria, a letter setting forth his attitude toward the municipal finance question. Mr. Hall stated his views as follows: "I can at this time only speak in general terms. I believe in further aid to municipalities. If the Oliver administration is returned, as I expect it will be, an opportunity of a full discussion will be had, and I will be happy to assist to bring about a favorable adjustment."

☆ ☆ ☆

In Police Court.—James Paine, for being in charge of a car while under the influence of alcohol, was given the benefit of the doubt and fined the minimum for that section of the Act, being ordered to pay $20 in the police court to-day. W. L. Kerr, who stating that he did not wish to vote this year anyway, charged with failure to pay his road tax, was convicted and fined $2.00 and $2.50 costs.

☆ ☆ ☆

Renovations at Dominion Hotel.—The suites on the first floor at the Dominion Hotel are now in course of repainting and general renovation. The artistic work displayed will be appreciated by patrons, and Mr. Jones is sparing no effort to harmonize the color scheme in his designs. In addition to the family trade for which the house has been famous for so many years, the management can look for the most critical clientele.

☆ ☆ ☆

Daisy Chain Chapter's Tea.—Mrs. W. A. Galliher, 914 St. Charles Street, has kindly placed her home at the disposal of the Daisy Chain Junior Chapter, I. O. D. E., for a sale of work and afternoon tea to-morrow afternoon from three till six o'clock. Fancy work and dressed dolls will be among the features, and a musical programme will be given during the afternoon. The proceeds will be devoted to the chapter's work.

☆ ☆ ☆

Domestic Products Bazaar.—Delectable home cooking, including Christmas puddings made from Queen Victoria's favorite recipe, obtained from the chef at Windsor Castle, will be among the many good things offered for sale at the Domestic Products stall to be held in the city market on Saturday next, December 4, under the auspices of the Women's Independent Political League. Home made jellies, jams, preserved fruits, cakes, in addition to dainty fancy work, hand painted calendars and other novelties suitable for Christmas gifts, will be offered for sale.

☆ ☆ ☆

To Query Ward System—Following their promise made to Esquimalt Property Owners' Protective Association some time ago, the Esquimalt Council last night passed a by-law authorizing the holding of a referendum on the ward system at the next muhicipal election. The referendum is to be worded: "Shall the ward system be abolished?" Letters from the Victoria Real Estate Exchange and the Kelowna Ratepayers' Association were read both dealing with municipal aid, and asking that the candidates be asked to pledge themselves, but it was stated that the time had gone too far to do much in that direction now.

BRITISH PLANNING BULLION CONTROL

Measure Affecting Exportation Is Given First Reading in Commons

London, Nov. 30.—Moving rejection in the House of Commons yesterday of the bill to continue control of exports of gold and silver bullion set to expire on the conclusion of the last of the peace treaties, Samuel Samuel, a Unionist, argued that the measure was unsound. He based his opposition particularly on inclusion of silver under the provisions of the measure, saying that free exportation of silver was a necessity for British Eastern trade.

Sir Donald Maclean, seconding Mr. Samuel's motion, urged that the bill, if adopted, should be operative only six months. He declared that after what had happened at the Brussels financial conference, when all the nations urged restoration of the gold standard, the bill would be regarded by them as a most reactionary measure.

Needed.

Replying for the Government, Stanley Baldwin, Financial Secretary of the Treasury, argued that the bill was necessary as a permanent dormant power and an essential part of the country's financial armor. That did not mean that the Government was not as anxious as anyone to see once more in London the free market for which it had been renowned for so many years.

Mr. Baldwin expressed the hope that it would not become necessary to make any regulation against exportation of silver bullion but he considered it necessary in times like this to have twofold powers. He added that London bankers unanimously favored the bill.

Mr. Samuel did not press his motion for rejection and the bill was given first reading.

Mr. Gordon Speaks. — Charges against Hon. John Hart, Minister of Finance, were discussed at length by M. P. Gordon, Opposition candidate for Saanich, at a meeting in Saanichton last night. Mr. Gordon alleged that Mr. Hart had participated in the profits of the firm of Gillespie, Hart & Todd in connection with Pacific Great Eastern Railway insurance. H. W. R. Moore also spoke, assailed Premier Oliver on the Dolly Varden incident and criticized conditions in the Civil Service. H. O. Wallace acted as chairman.

RELIEF AID LAPSED

In reply to Premier Oliver's telegrams urging the Dominion Government to do something to relieve the unemployment situation here, Rt. Hon. Arthur Meighen, Prime Minister, has telegraphed that the Dominion Government appropriation for relief lapsed with the end of the fiscal year, and "the Government has no authority as respects same now."

Mr. Meighen reminds Premier Oliver of all the shipbuilding and drydock work that is under way or promised here and on the mainland.

DR. A. M. SANFORD IS PRESIDENT OF LORD'S DAY ALLIANCE

The annual meeting of the British Columbia Lord's Day Alliance was held in the Y. M. C. A. here last week. Right Rev. C. D. Schofield, D.D., Bishop of Columbia, was in the chair. The meeting was well attended.

Dr. C. H. Huestis, secretary for British Columbia and Alberta, presented his report for the year. He also presented the treasurer's report in the absence of that officer. This showed an increase of over $800 over the preceding year. Dr. W. M. Rochester, of Toronto, general treasurer, also spoke of the work all over Canada.

Dr. W. L. Clay, of Victoria, presented a resolution calling upon all true citizens of Canada to preserve the Lord's Day from all unnecessary encroachments from business and pleasure, and asking ministers to keep the matter before their congregations.

Dr. A. M. Sanford, New Westminster, was elected president of the Alliance and Rev. A. D. Archibald, Vancouver, recording secretary. A vote of appreciation of the work of the secretaries was also presented and passed.

OBITUARY RECORD

The funeral of the late Skene Lowe took place this morning, private services being held at the B. C. Funeral Chapel at 11 o'clock. Rev. Dr. Clay officiated and the pallbearers were: J. C. Newbury, James Paterson, A. Harvey and G. Appleton.

The funeral of the late Mary Ann Darling, whose death occurred last Saturday at her home, 3280 Alder Street, took place yesterday afternoon at 3.30 o'clock from the Sands Funeral Chapel. The Rev. C. E. Wood officiated. The hymns sung were "Nearer, My God, to Thee" and "Rock of Ages." The following acted as pallbearers: Messrs. E. Wilton and V. G. Mayor. Interment was made at Ross Bay Cemetery.

The funeral of the late Goodman Thoriakson, who passed away at 50 Regina Avenue, the home of his daughter, Mrs. Joe Murphy, last Saturday, took place yesterday afternoon at 2 o'clock from the Sands Funeral Chapel. The Rev. Dr. Campbell officiated. The pallbearers were: Messrs. J. L. Johnson, P. Christianson, J. Stephenson and J. L. Lindal. Interment was made at Ross Bay Cemetery.

The death occurred yesterday at his home, corner Craigflower and Admiral's Road, of Charles Gunion, husband of Mrs. Emma Gunion. He was 64 years of age and born in this city. He is survived by his widow, two daughters, Mrs. John Karr, of Kansas, and Mrs. Alder, of this city. The funeral will take place to-morrow morning, the cortege leaving the Sands Funeral Chapel at 9.20 o'clock, ten minutes later Mass will be celebrated at St. Andrew's Cathedral by the Rev. Father Selen.

DOG CAUSED DEATH OF MASTER

York, Maine, Nov. 30.—The caress of his dog resulted in the killing of Herbert Ware, a hunter, yesterday. Ware was leaning on his rifle in the woods when the dog in play jumped up and in so doing stepped on the trigger of the weapon, discharging the bullet into Ware's right eye.

ROBBED WHILE ABSENT.

Aberdeen, Wash., Nov. 30.—While Mr. and Mrs. Fred B. Weatherwax were out calling, burglars jimmied the back door of their residence and carried away jewels valued at $400.

"Say it with cards"—Diggons.

MASSACRES BY JAPANESE ALLEGED

Canadian Missionaries Say They Killed Off Christians in Manchuria

Tokio, Nov. 30.—(Associated Press)—Canadian missionaries in Manchura have sent a signed statement to the Associated Press telling of alleged massacres by Japanese troops in Chien Tao.

Dr. Martin, a Presbyterian missionary at Yong Jung, says: "The Japanese sent 15,000 troops into this part of China with the seeming intention of wiping out the entire Christian community, especially the young men. Villages were methodically burned daily and the males in them were shot. Yong Jung is surrounded by a ring of villages which suffered from fire and wholesale murder."

Dr. Martin names thirty-two villages in which massacres occurred or which were burned.

Reports received from other missionaries tend to corroborate the story of Dr. Martin.

Japanese Statement.

The War Office here informed the Associated Press correspondent that there were 50,000 troops in the region referred to. Churches and schools, it was said, had been burned only when there was evidence that they were being used for the purpose of creating disaffection. It was also declared that the only villages burned were those in which a majority of the inhabitants were leagued with outlaws.

A commission of inquiry has been sent to the scene.

AMERICANS TAKE CANADIAN BONDS

All New Provincial Bonds, Grand Trunk Securities, Go to United States

Sales of Canadian bonds during October reached the large sum of $43,880,000, according to the Monetary Times. This figure compares with $9,389,176 in September and $48,101,575 for March of this year, which month holds the record for new financing for 1920. In October a year ago there were practically no sales, the Victory Loan campaign claiming the attention of all bond-selling organizations.

The large volume of new bond issue last month does not indicate any strength or activity of the Canadian market, but rather reflects the power of the American market to absorb our securities, inasmuch as $39,450,000 of the total was placed across the line. All of the provincial bonds, the Grand Trunk Railway securities and the two largest corporation issues were sold to United States investors.

A summary of last month's bonds sales, with comparisons, follows:

	Oct., 1920.	Mar., 1920.
Provincial	$ 9,250,000	$14,850,000
Municipal	3,530,467	8,850,000
Railroad	25,000,000	24,000,000
Corporation	6,100,000	884,276
	$43,880,467	$48,101,575

Municipal Financing.

While the total of municipal sales was smaller than in the previous month, there was more activity in that section of the market—at least, as far as Canada is concerned. In September, the total was chiefly made up of two large issues, namely, Ottawa, $2,300,000, and Edmonton, $2,075,000, both of which went to the United States. Classified as to provinces, municipal bond sales in October were as follows:—

Ontario	$ 763,000
Quebec	1,457,000
New Brunswick	17,000
Nova Scotia	31,100
Manitoba	963,000
Saskatchewan	204,267
Alberta	80,000
British Columbia	39,000
	$3,550,467

Prices Not Changed.

Prices were not materially changed for municipals, very few issues being made at better than 4½ per cent. The provinces apparently made some good bargains as a result of the exchange situation between this country and the United States.

WRANGEL'S ARMY COULD OPPOSE THE REDS AGAIN

Paris, Nov. 30. — General Baron Wrangel has notified the French Government he is ready to come to Paris to discuss using his army once more against the forces of Soviet Russia, says The Matin. This army, which has been reorganized since its disastrous defeat by the Bolsheviki on the Crimean Peninsula, is said to number about 70,000 men.

SIXTEEN ARRESTS IN NEW YORK

New York, Nov. 30.—Sixteen of the twenty members of the employing Metallic Furring and Lathing Association were arrested to-day on a charge of destroying evidence needed by the legislative committee investigating the "building trust."

JUDGED BY THE SUPPLY.

The candidate's speech was long drawn out and getting tiresome. "Gentlemen," he said, presently, "a man is known by his works."

He paused impressively, when a heckler took advantage of the pause to remark, "Then yours must be a gas works."—Boston Transcript.

It was a typical west of Ireland estate, and the Sassenach landlord was just driving his newly arrived English guest through the lodge gates when a bullet zipped by his ear.

"Great Scott!" exclaimed the guest. "What was that?"

"Oh, only one of my men having a pot shot at me," replied the landlord. "I rather fancy it was my lodge-keeper."

"What will you do with the fellow—have him arrested for attempted murder?" asked the guest.

"Do with him?" repeated the landlord. "Nothing, of course."

"Not even discharge him?" persisted the guest.

"Why," replied the landlord, "I wouldn't lose the fellow for a fortune. He's one of the worst shots I've ever had on the estate!"—London Blighty.

Manitoba Amateur Body Opposed to Amendments

Does Not Want Professionals Re-instated Nor Sub-Division of Amateur Union Into Eastern and Western Branches.

Winnipeg, Nov. 30. — Proposed amendments to the constitution of the Amateur Athletic Union of Canada which will be considered at the meeting of that body in Winnipeg, December 10 and 11, were reviewed and commented upon at a meeting of the board of governors of the Manitoba branch held last night.

Manitoba, according to the consensus of opinion expressed last night, will oppose the proposal of the Quebec branch regarding the reinstatement of professionals who have not indulged in competition for three years.

No Sub-division.

The meeting unanimously opposed the further sub-division of the Canadian body into Eastern and Western units, on grounds that a loophole might thus be given for certain branches to introduce alterations which would not serve to strengthen amateurism in the country.

The granting of autonomy to Ottawa under the A. A. U. of C. was condemned without a dissenting voice as being a step toward giving the East greater voting power than the West in the governing body.

Proposed Amendments.

Toronto, Nov. 30.—Secretary Norton H. Crowe, of the Amateur Athletic Union of Canada, has received a number of proposed amendments of a more or less dractic nature for consideration at the 33rd annual meeting of the Association which is to be held in Winnipeg on December 10 and 11. Notices of motion to amend the constitution have been received, including the following:

To permit the reinstatement of professionals who have refrained from participating in competition for at least three years (Quebec Branch).

To define as amateurs physical directors, parks or playing ground instructors or physicians engaged in similar work who have never at any time competed as professionals (Quebec Branch).

To divide the Union into two sections, East and West (Quebec Branch).

To recognize the interchange of amateur cards between various governing bodies (Quebec Branch).

All athletes in A. A. U. of C. sanctioned competitions must register with a branch of the Union (Maritime Provinces Branch).

To amend boxing rules to conform with international boxing federation rules (the secretary).

Indications are that the Winnipeg meeting will bring together a representative body of amateur sportsmen.

QUEENSLAND IS BEATEN BY ENGLISH CRICKETERS

Brisbane, Australia, Nov. 30. — (Canadian Associated Press)—The touring English cricket team defeated Queensland by an innings and 44 runs to-day. The game began on November 27.

WHOLESALERS TO PLAY RETAILERS

A soccer match has been arranged to be played to-morrow afternoon between a team representing the Wholesale Grocers and the Retail Grocers, kick-off at 2.30 p.m., at Beacon Hill. The game will be refereed by Stokes. The Wholesalers' team will be as follows: E. Lumsden (Leiser's); J. Allen (Leiser's) and G. Patterson (Nabobs); R. Main, Rithet's), W. Marshall, captain (Wilson's) and L. McDonald (Leiser's); D. Davidson (Rithet's), H. Gray (Leiser's), J. O. Jones (Nabobs), G. Austin (Wilson's) and W. Erickson (Rithet's); linesman, E. Wright.

A VICTIM OF TERMINOLOGY.

"My father talked me into taking this course in domestic science."

"And how do you like domestic science?"

"Well, it looks like ordinary kitchen work to me. If my suspicions prove correct, I shall drop it and make pa buy me a new dress."—Boston Transcript.

Many New Faces Appear On Latest Rep. Rugby Team

When the Selection Committee of the Victoria Rugby Union emerged from its serious deliberations last evening it presented to the public an entirely new rep. team to do battle with the Vancouver squad at the Terminal City on December 11. The committee responded to the appeal for a little young blood on the team, and as each of the four clubs in the Victoria League has players wearing the red and white it is more of a representative team of the city's playing talent than the last.

If Claude Williams, the sterling Wanderers' back, is in condition to play, the Wanderers will have six places on the rep. teams and the J. B. A. A. four. If, however, Boss Johnson, of the Bays, goes over as full-back, this will give these clubs equal representation on the team, with five players apiece. The remaining five positions are distributed between the Old Boys and Cardinals, the former getting two and the latter three.

A Big Shuffle.

A big shuffle has been made in the three-quarters, halves and forwards. In the threes Jack Matson has been dropped in favor of Charlie Vincent, and Sholto Gillespie has been advanced to the forward line to lend his weight and leadership to the scrum. D. M. Grant has dropped back from five-eighths to his regular position at centre three-quarter. Stewart and G. C. Grant, who played half-back with the last rep. team, have given place to Billy Wilson and Nairn Robertson, the fleet pair of halves developed at the University School. V. Bendrodt, one of the neatest back in this city, will fill the five-eighths position.

Five of the pack of the last rep. team have gone. Drummond, Eric McCallum, Herman, Wilson and Tim Matson are not on the new team. Tim Matson was selected but owing to a serious injury he received in a recent hockey game, is unable to play. The new faces in the pack are J. McRoe, W. Tolmie, Billie Monteith, Bobbie Travis and Sholto Gillespie.

Good Reserves.

The Selection Committee picked good, strong, fighting reserves. Goodacre, of the Cardinals, and Jack Matson, of the Old Boys, are the threes, while Anderson, of the Bays, in the reserve half-back. John Johnson and Brynjolfson, of the Bays, and H. Wilson, of the Old Boys, are the reserve forwards.

The new rep. team is as follows:

Full-back — Williams or Boss Johnson.

Three-quarters — Charlie Vincent, D. Grubb, D. M. Grant and E. Gillespie.

Five-eighth—Bendrodt.

Half-backs—Billy Wilson and N. Robertson.

Forwards—Sholto Gillespie, (captain), Pendray, Acland, J. McRae, W. Tolmie, B. Monteith, Travis.

Reserve three-quarters — Goodacre and Jack Matson.

Reserve half-back—Anderson.

Reserve forwards — J. Johnson, H. Wilson and Brynjolfson.

Col. Cooper was the Victoria selection for referee for the game.

Desire Varsity Players Off Vancouver Rep. Team

Local Rugby Union Will Advocate Varsity Entering As Separate Team in McKechnie Cup Competition Next Year

That Vancouver in selecting its rep rugby team to play against Victoria for the McKechnie Cup should not draw on B. C. University for players, was the unanimous opinion of delegates to the regular weekly meeting of the Victoria Rugby Union held last night. The delegates did not see any reason why Varsity should not enter a separate team, but they thought that in the best interests of the game there should be no amalgamation of Varsity and other clubs on the Mainland. It was pointed out that the boys attending Varsity were from all parts of the province, and only residents of Vancouver while following their studies.

The matter was brought before the meeting by J. B. Ackland, who stated that he had been talking with a number of rugby enthusiasts since the last rep game here, and found the opinion general that Varsity players should be excluded from the Vancouver rep team. This year, it was explained, Varsity had eight men on the rep team, and in future there was nothing to stop Varisty from corralling all the places.

Conditions Reversed.

Chairman George Jay stated that conditions to-day were reversed. A few years ago when the fleet was stationed here Victoria drew from its personnel for some of its players, and Vancouver had objected.

The delegates, however, could not see where this comparison was fair, inasmuch as Varsity was drawing the cream of the athletic talent of the province and the naval squadron possessed elderly men and only a few stars.

Russell Ker stated that in the East the rugby unions did not play against the Varsities for the simple reason that competition was not on an equal basis. The Varsity men had six days a week to train, whereas the regular clubs had but limited training hours.

A Separate Team.

D. M. Grant throught that Varsity should be entered as a separate team. He considered that the play for the McKechnie Cup could not be considered inter-city as long as Vancouver was allowed to draw on Varsity, whose students came from all parts of the province. The men who were helping Vancouver to win, were not Vancouver men, he stated, and to prove his point intimated that Hogson, who scored the first two tries in the rep game here for the Mainlanders, was a Victoria boy. In Mr. Grant's opinion Victoria would never be able to win the McKechnie Cup as long as Vancouver drew on Varsity for most of its players.

It was decided not to object to Vancouver playing Varsity men this season, but the delegate to the British Columbia Rugby Union was instructed to bring the matter before a meeting to be held in Vancouver on December 11, and advocate that Varsity next year he admitted as a separate team, and Vancouver draw for its rep team from the other clubs. This step the local uinon considered, would be in the best interests of rugby in this province.

A quarrel that lasted 50 years was settled in Jamestown, N.Y., when Miss Mary Rockwell became the bride of her sweetheart of half a century ago, Orville D. Lyon.

UP TO "BIG FOUR" TO DECLARE ITSELF

Must Either Turn Professional or Have House-Cleaning; Patrick Returning

Frank Patrick, president of the Pacific Coast Hockey Association, succeeded in convincing the Alberta amateur officials at the meeting in Calgary yesterday, that his charges were correct, according to a telegram received last evening by Lester Patrick from his brother. Having placed considerable evidence before amateur officials Frank Patrick is now on his way back to Vancouver and will arrive there to-morrow.

Substantiates Charges.

Calgary, Nov. 30.—Charges that Mickey Mackay, former Calgary hockey star, and now with the Patricks, was offered $1,500 for the season this Fall by three officials of the Calgary hockey club, that Briden and Keats also were made offers, that Mackay was allowed the programme privilege last season for $1 and that he might sell it for $500 are some of the charges in the affidavits produced by Frank Patrick, Coast hockey magnate, to substantiate his charges. League, supposedly amateur, was really professional. Patrick appeared before the Alberta A. U. and made known that he had affidavits from Mickey Mackay and others to this effect. He will produce the affidavits later.

All Kinds of Evidence.

Patrick produced so many documents, original telegrams and statements of such a serious nature against the Big Four that the amateur authorities gave the officials of the Big Four time either to declare that they were an out and out professional organization or else immediately clean up. In the meantime, the amateur union will withhold the amateur cards of the Big Four players and will consider the action to be taken on the receipt of the Big Four league report.

Patrick promised to explode a bombshell into the Alberta hockey circles, and he did. He has a pile of documents, among them many that will later cause a big upheaval in Saskatchewan and Manitoba. He is out to clean up the situation in the interest of clean sport and intends to attend the Canadian Amateur Hockey Association annual session at Winnipeg next month.

Denials Are Coming.

Calgary, Nov. 30.—Denial by three Selkirk hockey players that they had been offered any inducement other than permanent positions to come to Calgary, and stating that they would declare under oath that no present, bonus or other remuneration has been suggested and that they did not expect to receive anything other than their legitimate salary for work was the feature of the morning session of the executive committee of the Alberta branch of the Amateur Union, called to probe reports that these men had infringed the Union rules.

CALIFORNIANS WILL NOT PLAY IN CITY

Victoria Rugby Union Refuses to Guarantee Sum Asked by Southerners

Victorians will not have the privilege of witnessing the combined Stanford and California University Rugby teams in action here next month. The Victoria Rugby Union was asked to guarantee the collegians $500 for the visit, but found it impossible to do so. The Union was prepared to give the Southerners a split of the gate, but would not go so far as to guarantee any sum.

The Californians are coming to British Columbia to play three games in Vancouver. Two of the games will be against the Mainland rep. team and the other against Varsity. The visitors were anxious to work in a game in Victoria, but the guarantee they asked was too heavy. Vancouver has guaranteed the visitors $1,500.

Olympic Champions.

The Californians won the Rugby championship at the Olympic Games and many Rugby followers here were hoping that they would play an exhibition game here against the Victoria rep. team. Last year the Californians staged a game in this city.

At the regular meeting of the Rugby Union held last night the resignation of W. H. Davies as a delegate from the local union to the B. C. Union was accepted. In a letter to the Union Davies asked that the charges alleged to have been made against him be set down in writing so that he might be able to answer them. The meeting, however, decided to receive Mr. Davies' resignation but to do nothing in regard to the charges, as it was realized these were a matter between the B. C. A. A. U. and Davies.

SURE ENOUGH.

"What is considered a good score on these links?"

"Well, sir," replied the youthful caddie solemnly, "most of the gents tries to do it in as few strokes as they can, but it gin'rlly takes more."—Windsor (Londoq).

JACK AND GEORGES MAY HAVE TO MIX THINGS IN EUROPE

Coldness in States Towards Battle Being Staged There; Change Considered

New York, Nov. 30.—In the event that no suitable place can be found in the United States to hold the forthcoming heavyweight boxing championship bout between Jack Dempsey, world's champion, and Georges Carpentier, European titleholder, the contest may be staged in England, it was reported in generally well informed circles here to-day.

The promoters are known to have held a number of conferences on the choice of a battleground within the past few days and it was intimated to-day an official announcement may be made within a short time.

The proposition to shift the fight abroad was said to have been prompted by coldness exhibited by members of the state boxing commission toward holding it in this state.

Think—Supposing the Bowser Government had been returned to power in 1916, who would you vote for on Wednesday—Think.

LOOKING THINGS OVER

After the rep game here between Vancouver and Victoria the cry went out for young blood and a more thorough representative team of the city's talent. The selection committee has picked the next rep team and it is pleasing to note that they have taken cognizance of the prevailing sentiments in the town. They have juggled the old rep team about, putting players in their proper places and added many athletes who will strengthen the team. It is good to see the giant Sholto Gillespie back on the forward line, and D. M. Grant with the three-quarters once again. Gillespie should never have been back with the threes and his presence with the pack will greatly improve the effectiveness of its work. The Bays are contributing several players of proven ability to the squad. The new rep team has a far better chance of holding Vancouver than the fifteen which failed so hopelessly here on November 20.

According to a British golf architect now in America, he has designed a course for Lord Northcliffe that may solve many perplexing problems on this side of the water, and incidentally give the game a grand boost. The Lord Northcliffe links now nearing completion consists of eighteen "one-shot" holes, and they are all playable on five acres of grounds and do not criss-cross. The shortest hole is 110 yards, and the longest 180. What a vista this opens for the golfer who dreads the miles of tramping for a round on an ordinary course! Also for the club which cannot obtain the 100 to 120 acres which are required for the regulation links. Also it is pointed out that two players of widely different handicaps may make a close thing of it on the baby links. The long driver loses his advantage. Only three clubs are required, so the caddied may be relegated to limbo. Also it is an excellent practice ground for the improvement of golf form. There are no fairways to be maintained like parlor carpets. Only the greens would have to be mowed close. The entire distance around the eighteen holes is about a mile and 500 yards.

When Harry Vardon and Edward Ray, the British professional golfers, toured America in 1913 they suffered only one reverse in their best ball contests. This year they have had their colors lowered no less than twenty-one times, either in eighteen or thirty-six hole matches. Notwithstanding that seven years ago no such ambitious schedule was attempted as that undertaken by the Britons this year of grace, there can be no gainsaying the fact that golf on this continent has improved out of all knowing in the interval. The figures speak for themselves, for, allowing that during their recent trip Vardon and Ray played eighty-one matches, they had at least half of that number in 1913. And yet only one defeat was chalked against them.

"Let the best team win" is a good feeling to have, but in many instances it is entirely obliterated by a wild passion to win at all costs. In referring to the recent game between McGill and Varsity for the championship of Canada, the Kingston Standard utters a happy thought, which cannot be uttered too often these days. Here is what The Standard has to say: "The wish was expressed here that not any particular team might win so much as that the better team might win. After all, victory, though highly desirable, is not the only thing in the game. It is the game itself that counts—whether it is played truly and cleanly and honestly. With two such fine teams in the field, it was taken for granted that the game would be played just in that spirit, and in none other, and that both teams might be depended upon to live up to the high traditions for which their splendid universities stand."

LARGE CROWDS VISIT "BEHOLD MY WIFE"

Premiere Last Evening at the Dominion of George Melford's Production

A picture that is distinguished by its breadth of theme and background came to the Dominion Theatre last evening for a week's run. "It is "Behold My Wife!" George Melford's latest production, based upon Sir Gilbert Parker's thrilling story of the Canadian Northwest, "The Translation of a Savage."

The central characters are an Indian girl and the aristocratic young Englishman who marries her in a moment of rage because of word that his fiancee back in England has thrown him over, due largely to his family's efforts. Determining to humiliate them, he sends his redskin bride overseas to them. Then he proceeds to go the the devil in his own way. However, dramatic events bring about the regeneration of the man and the translation of the girl into a beautiful, cultured woman, and the ending is a happy one.

"Behold My Wife!" has the rare good fortune to have a cast of players that interprets each role with rare sympathy. Mabel Julienne Scott is the heroine and Milton Sills portrays the part of the young Englishman. Elliott Dexter and Ann Forrest also have important roles. The picture is a Paramount and was adapted to the screen by Frank Condon.

AMUSEMENTS TO-DAY

Dominion—"Behold My Wife."

Pantages — "Yeomen of the Guard."

Columbia—"The Chorus Girl's Romance."

Variety—"The Law of the Yukon."

Romano—"The World to Live In."

Criterion—Belmont House.

Blue Mouse—724 Yates Street.

"YEOMAN OF THE GUARD."

An enthusiastic house greeted the third performance of Gilbert and Sullivan's opera, "The Yeomen of the Guard," presented at the Pantages Theatre last evening by the Victoria Operatic and Dramatic Society. The opera went with an even better swing than on the two previous performances, principals and chorus sustaining their parts with professional ease. Much credit for the smooth running of the production is due to the clever and efficient stage management of Stuart G. Clark, who has been untiring in his efforts in this direction.

The opera is to be again repeated this evening, and the proceeds will be devoted to the Navy League of Canada.

COLUMBIA

The theory sometimes advanced that a good magazine story does not mean a good picture certainly was refuted last evening when Viola Dana appeared at the Columbia Theatre as the heroine of "The Chorus Girl's Romance." This was taken from The Saturday Evening Post story by F. Scott Fitzgerald, entitled "Head and Shoulders." It has to do with the romance and later the marriage, and still later the very amusing and sometimes very pathetic but always very human vicissitudes of a chorus girl, with a propensity and gift for shimmying; and a scholarly prodigy at Yale. Miss Dana was at her bewitching best throughout the photoplay and Gareth Hughes, her leading man, gave decidedly his share toward the pleasing success of the picture. William C. Dowlan directed it. Percy Heath wrote the scenario; John Arnold did the photography and A. E. Freudenman furnished special art interiors for this Metro production.

ATTRACTIVE STORY IS NOW RE-TOLD

Service's "Law of the Yukon" Is Film Subject at Variety

Morgan Kleath comes to Gold City, a bustling mining camp in the Klondike country, in the film "The Law of the Yukon," which was shown for the first time at the Variety Theatre yesterday. Kleath makes his way to the "San Domingo," the principal gathering place and meets Tim Meadows, the proprietor, who had induced him to come to Gold City to establish and edit a daily paper.

Tim introduces Kleath to his daughter Goldie, whom he worships and guards with jealous care. Kleath invites Goldie to dance. Joe Duke, who has been paying attention to Goldie, conceives a violent dislike for Kleath and with the aid of his friend Jake Nichols, is able to pick a quarrel with him.

A fight follows, in which Duke receives a sound thrashing. Jake, seeing the turn of events and, striving to aid his friend, stabs Morgan Kleath in the arm.

Barney McCool, a good natured old Irishman, who is known as "the biggest liar in Gold City," takes a strong fancy to Kleath and becomes his good man, Friday. He takes the wounded man, Friday. He takes the wounded man to his log cabin and Dr. Meredith, the only physician in the town, waits on him. Mrs. Meredith, hearing of the newcomer, calls on him. She at once becomes infatuated with Kleath. Goldie, too, is strongly drawn to him.

Everybody is anxious to know of Kleath's past. His silence furnishes food for speculation. On two different occasions—once when he picked a lock with a rusty nail, and once when he opened Tim Meadows' safe after the combination had been lost, he played into the hands of his enemies. These enemies, seeking to discredit him, circulate a story that Morgan Kleath is a yeggman, a criminal fugitive from the States.

Duke, harboring revenge, sees his way clear to rob Tim Meadows' safe and have suspicion point toward Kleath. Duke and his partner, Jake Nichols, are successful in luring Goldie and Morgan Kleath to a deserted cabin, where they are forced to remain all night. During the night Duke and Jake commit the robbery.

Kleath's feat of opening the safe is remembered and he is arrested and charged with the grave crime. Before leaving the deserted cabin, Kleath exacts a promise from Goldie that she will not mention the fact that they spent the night there. This, of course, is done to protect her good name. Kleath's silence compels the court to declare him guilty. Goldie, unable to keep silent, lays bare the whole circumstance. A stranger, a woman, appears dramatically and reveals the history of Kleath's past life (an honorable history, by the way) and herself as the accomplice of Duke and Nichols. Duke, infuriated at the turn of events, shoots this woman. After a lapse of time Kleath and Goldie leave the Klondike for the "Outside" as man and wife, and thus the story ends happily, as it should.

PRINCESS TO PRODUCE DELIGHTFUL COMEDY

Fair Haired "Sunshine" and Beautiful "Tempest" Will Be Portrayed

'Tepest and Sunshine" is the delightful comedy drama chosen for the next production at the Princess Theatre, and this play has been so well known in novel form for so many years that it will, no doubt, afford many people great satisfaction.

The fair-haired, lovable Sunshine and the dark and beautiful Tempest are such direct opposites in appearance and temperament that it is almost startling to think of them as sisters. The ladies will be seen in the quaint flowing skirts of 1860, and there is a beautifully artistic scenic production in preparation. "Tempest and Sunshine" will begin on Wednesday night, December 1, and at the first performance a souvenir photo of Miss Berkley will be presented to each lady who attends. Miss Berkeley will appear as Tempest.

Also on Wednesday night the election results will be read from the stage between the acts of the play.

At the Saturday matinee of "Tempest and Sunshine" the prizes will be given for the two best guesses on how many words Mr. Aldenn had to say in the part of Rodney Martin last week in "It Pays to Advertise."

Remember "Tempest and Sunshine," the beautiful artistic comedy drama which has been for years dear to the hearts of so many as a word picture, will be set forth at the Princess by the Mildred Page Players with glowing colors in scenic effects and with all the warmth of human personality to add to its charm.

A Vote for Government Control and J. H. Gillespie means universal prosperity.

The Bahama Islands are noted for the beauty of their scenery and their equable climate. Some of the most beautiful scenes are found in and about Nassau on the Island of New Providence. Many of these have been caught by the camera and picture fans will find them in the new Ford Education Weekly entitled "Nassau," and released through Goldwyn Distribution Corporation.

The Weekly takes the spectator on a sightseeing trip around Nassau. First the film tourist are shown the beautiful Nassau Harbor and Hog Island with the city in the background. Next the tourist climbs the 100 foot hill, on which Nassau stands, to Fort Fincastle. The fort is reached by the Queen's stairway leading down to a passageway cut through coral rock.

ACUTE INDIGESTION CONQUERED BY HERBS

Vancouver Lady Tells of Simple Treatment Which Brought Relief

Persons afflicted with indigestion or stomach trouble of any form should be interested in the experience of Mrs. B. Debeck, of 2120 Scotia St., Vancouver. As the result of a simple treatment this lady has fully recovered for a chronic condition of stomach trouble from which she has suffered severely for several years.

The treatment used by Mrs. Debeck was the famous herbal remedy Wonder Health Restorer. For years she has been doctoring for the complaint, but without success. A few months ago she started taking Wonder Health Restorer. So marked has been her improvement that to-day she unhesitatingly recommends it to persons afflicted with any form of stomach trouble.

Wonder Health Restorer, the remedy used by Mrs. Debeck is a simple herb remedy, the formula for which was used for many years as a private prescription by one of the world's greatest herbalists. It's work has been described by thousands as simply marvelous, and it is to-day accounted an unequalled remedy by all who have taken it or who know persons who have used it. It acts on the blood, toning up the system while specific herb properties act on the gastric juice and other digestive fluids, restoring them to normal condition. Taken regularly a course of Wonder Health Restorer works wonders and no person afflicted with stomach trouble can afford to pass it by without enquiry. Ask your druggist about it. Get a copy of "The Road to Health," which gives instance after instance of its wonderful work. Wonder Health Restorer is sold in Victoria at Ivel's Pharmacy, Merryfield & Dack (all stores) Clearihue's Drug Store, Reiley's Drug Store and the Fernwood Pharmacy, in Esquimalt by Lang the Druggist, and at most drug stores throughout B C. If your druggist can't supply you send direct to the Distributors, the W. Y. McCarter Burr Co., Ltd., 646 Hillside Ave., Victoria. Phone 6950.

QUESTIONNAIRE ON SCHOOL ISSUES

Replies From Fourteen of Nineteen Candidates in City

A questionnaire has been submitted to the candidates at the Provincial election by Harry Charlesworth, general secretary of the British Columbia Teachers' Federation, on behalf of the association, and some replies are now to hand.

In the course of the preface the memorandum says:

"It is not our intention to ally ourselves with any political party. Our members will exercise their individual rights as citizens in casting their ballots—but we wish to be in a position to submit for their guidance the views on educational matters held by those from whom they must choose. Inasmuch as the Department of Education has to deal with finances exceeding those of any other Government Department, we feel that it is important that candidates for election should give some attention to this important feature of the Legislature's work.

"We do not, of course, at this busy time expect you to enter into details of educational matters, but there are question of great importance, involving general principles, upon which an expression of opinion would not be difficult."

The questions submitted were:—

1. Are you in favor of extending our High School or Secondary Education to include Technical, Industrial, and Vocational Education, etc., so that boys and girls who do not contemplate taking up one of the professions may have the same educational opportunities to prepare them for their future careers, as those who take the professions now have?
2. Are you in favor of such a readjustment of educational taxation as will enable all cities, municipalities and rural districts to provide equal educational opportunities? It would not seem right that children should be made to suffer educationally by reason of the fact that they are compelled to live in places where taxation difficulties exist.
3. Are you in favor of raising the standard of efficiency of the teaching profession by a longer period of Normal School Training for Teachers?
4. Are you in favor of raising the age of compulsory school attendance?
5. Are you in favor of changing to some extent the curriculum for rural schools, so that the children of such schools may receive an education which will fit them for their present surroundings and will tend towards their taking up rural life in later years, and not, as at present, tend to direct them to the cities?
6. Are you in favor of a superannuation scheme for teachers?
7. Remarks.

Accompanying are replies from some candidates for Victoria:—

Dr. Ernest A. Hall.

1. Yes.
2. Yes, in Public Schools.
3. Yes.
4. Yes.
5. Yes.
6. Yes, and for all others over sixty-five years of age.

Frank Giolma.

1. Yes.
2. Yes.
3. Yes.
4. Yes.
5. Yes, if the child is going to take up agriculture. If not, same teaching as in the cities.
6. Yes.
7. As I consider education as only second to health in importance I can most honestly endorse the above questions in the affirmative.

James Dakers and R. P. McLernan.

1. Absolutely yes.
2. Yes.
3. Yes.
4. Yes.
5. Yes.
6. Yes.
7. We are in favor of the whole cost of education being borne by the consolidated revenue of the Province; administration to be in the hands of the Department of Education, assisted by chosen representatives of the teaching profession. We are in favor of a substantial increase in the salaries at present paid to those engaged in the teaching profession.

C. K. Christian

1. Absolutely yes.
2. Absolutely yes.
3. Yes, through a progressive process according to the classes taught by the teacher.
4. I believe a standard of efficiency should be established before a pupil be permitted to leave school.
5. Yes, if the parents are satisfied that it is in the best interests of the child, but at all times the child should be placed in the same educational plane as the child of the metropolis, looking to the future as to possibilities.
6. Yes.
7. I further favor the establishment of bursaries to permit a pupil continuing his education through the universities, according to the attainments of the pupil.

Thomas Dooley.

1. Yes.
2. Yes.
3. Yes.
4. Yes.
5. Yes.
6. Yes.
7. I am advocating a provincial system of "secular" education from the elementary school to the university absolutely free.

A. Stewart

1. Yes.
2. Yes.
3. Yes if necessary.
4. —
5. Yes.
6. Yes.
7. When a pupil has reached a certain standard of efficiency he should be permitted to leave school. I am in favor of night schools for anyone who may wish to improve his education.

J. Hinchliffe

1. As I am not quite clear as to the extent to which technical, industrial and vocational education could be carried by our public school system, I am not, at present, prepared to express an opinion on this point.
2. The principle contained in the rider to this question is quite sound, and I would gladly support any plan that would bring that principle into practice.
3. I am.
4. I am.
5. If any change in the curriculum for rural schools would tend to make the pupils of those schools generally more likely to prefer country life to city life, I am in favor of such change.
6. Absolutely.
7. As an old member of the teaching profession, I desire to express the opinion that questions involving changes, additions, improvements, etc. in our educational system, should receive most careful consideration at the hands of the responsible officials in consultation with the best authorities on practical education (and particularly on practical education in this Province) that can be found.

Wm. W. Northcott

1. Yes.
2. Yes.
3. Yes, if necessary.
5. Yes.
6. Yes.

Joseph B. Clearihue

1. As much as possible this is the present policy of the Government.
2. This is a difficult question, but will favor anything that will equalize the opportunities of education.
3. Yes. This is going to be shortly done by the Government.
4. This will be done next year to the age of 15.
5. Yes, as far as possible.
6. Yes.
7. Am in favor of assisting education in every way possible.

William McDonald

1, 2, 3, 4, 5, 6, 7:

1. I am in favor of all Clauses except Clause 6. My wish is that all over 50 years of age should be exempt from Labor. All between the ages of 18 and 50 should support all younger and older, and when we have production for use and not for profit all will be happy.

W. E. Peirce.

1. Yes.
2. Yes.
3. Yes, and no. (See remarks).
4. Not at present. (See remarks).
5. Yes.
6. (See remarks).

I wish I had time to go into the matter you have referred to me, in detail, fully, but I haven't.

Re No. 3 question: I am certainly in favor of raising the standard of efficiency as high as possible, but it seems to me that it would not be necessary to insist on a "longer period" of training for all. Some might be able to qualify in less time.

Re No. 4: While financial conditions in the home life are as they are, and while opportunity to obtain vocational training must be gained outside the school, it does not seem advisable to me to force attendance after the age of 14. With proper condition of life I certain would be willing to raise the age to 18.

Re No. 6: I would be opposed to the idea of singling out the teaching profession for superannuation. This is a question where all who are contributing useful work must stand or fall together. I am in favor of all state employees being superannuated, but not teachers only.

The most important thing that I am interested in is not mentioned in your questionnaire. It is the establishment of a branch or class of "Economics" into the school curriculum.

Nearly all the next-books now used and nearly all the instruction given in nearly all the subjects has a tendency, by inference, to teach absolutely wrong ideas about the principle of social economy.

The real facts about the production of wealth and about the cause of unemployment should be taught to every child. With that knowledge in their heads, all the other subjects that you ask me about will practically solve themselves.

George Bell.

Replying to your favor of the 22nd instant, I beg to say: Until I hear the various questions that you mention fully discussed, I am free to say that I am not well enough informed to say either yes or no.

I can say, however, that I will listen carefully, and not only deal fairly but sympathetically with every problem you asked about in your questionnaire.

Herbert Wynn Davies.

If elected I will deal with the question, as with all questions, from an independent stand in the interests and welfare of the people of this Province as a whole.

SAANICH CONSTITUENCY.

F. A. Pauline.

1. Les. I have advocated this in the Legislature.
2. The principle is right; this raises the whole question of taxation which must be dealt with.
3. I am not sufficiently acquainted with conditions to say.
4. ditto.
5 and 6. Yes.
7. Lack of time prevents me from making some comment.

M. A. Orford.

1 to 6. Yes.

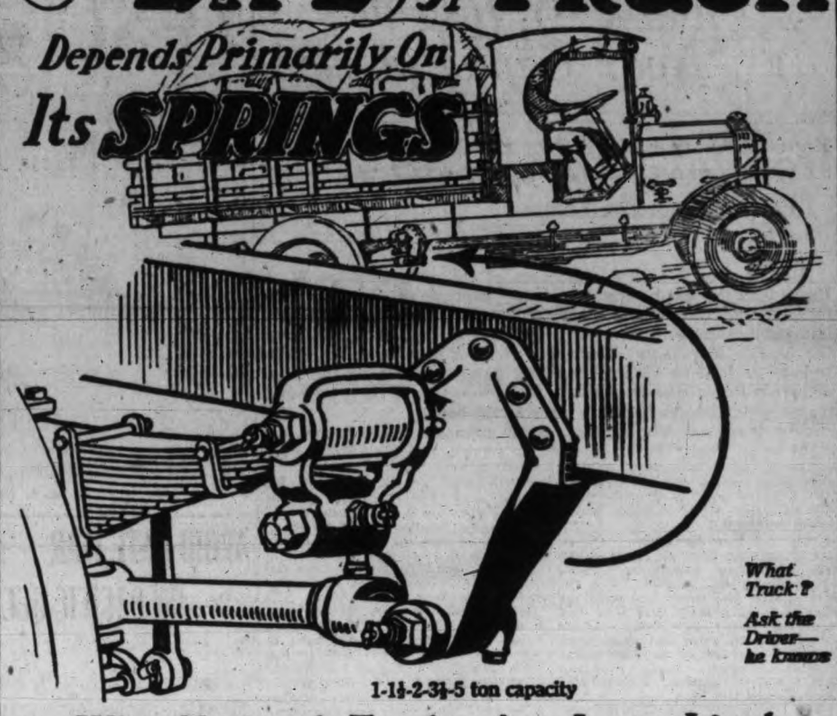
Vote For Clean Politics and a clean and independent candidate—J. H. Gillespie.

A DIFFERENCE.

"What!" said Lord Coleridge once to a puzzled cabman, "you a London cabby and don't know where the Law Courts are?"

"Oh! the Law Courts, is it?" I know them; but you said the Courts of Justice!"—The Christian Register (Boston).

The LIFE of A TRUCK Depends Primarily On Its SPRINGS



What Truck? Ask the Driver—he knows

1-1½-2-3½-5 ton capacity

Why National Trucks Are Long Lived

Look at a National swing down a rough road. How silently it moves. Note the sense of Power it gives you. Its load is carried easily, sturdily, steadily There is no rattle, no noise.

Motor Truck noises are mostly caused by parts shaken loose by excessive Vibration. This is due to poor springs. Kill Vibration and you double-treble the life of a truck. It can wear out, but barring accidents, it will be a stranger to the repair shop.

National Springs are semi-elliptic—front and rear. Each rear spring mounted on trunion at either end. Experience has proven this form to be best and strongest. They are made of Chrome Vanadium steel—the best steel for springs that science has produced.

Propulsion Power developed by wheels is carried to the Trucks frame by strong and sturdy radius rods—not through the Springs.

Leaf on leaf National Springs are built up. Their number is just right to give greatest strength and resiliency. Around the "eye" at either end the top leaf is wrapped. Oil-less bushings kill wear, prevent squeaks.

On such springs National loads ride swiftly, smoothly. Fragile loads are safe. Moreover the easy riding National Truck makes contented drivers

NEWS AND NOTES OF THE MINES

Trail Shipments.

Two mines in the Windermere district using Lake Windemere as a shipping point have joined the shipping list for the current year to Trail, according to latest statement of receipts at the Trail smelter. The receipts for the week ending Nov. 21 were 10,664 tons, of which properties of the Consolidated Mining & Smelting Company provided 9,733 tons.

For the year to date the receipts stand at 326,622 tons of smelter feed, of which 320,571 represents crude ore and 6,051 represents concentrates.

C. F. Caldwell.

Charles F. Caldwell, well-known Slocan mining man, has been elected it is stated general overseer of the Christian Catholic Apostolic Church, at Zion City, Illinois. Mr. Caldwell is well-known in Victoria. Mr. Caldwell was a pioneer in the Coeur dAlene, the Slocan, and the Salmon River districts. In his time he has been in touch with such well-known capitalists as F. H. Clergue, who established the steel industry at Sault Ste. Marie, Col. W. B. Thompson, who now is financing the development of the Flin Flon mine and others. Last Spring Mr. Caldwell procured a United States charter for a railway from Hyder up the Salmon River Valley.

Coal and Coke Prices.

The associated boards of trade of Eastern British Columbia have petitioned the Dominion Government for an investigation into the current prices of coal and coke, and have asked for a revision on the freight rate of coke. The boards decided to hold the mining convention at Grand Forks sometime during next Summer.

Remember Henry Hall is the Liberal candidate; make no mistake, but place your cross opposite the second Hall on the ballot.

Survivors of Pirrie Found By Indians Near Cape Johnson

Body of Another Member of the Crew Picked Up on Beach; Chilean Sailors Stated Barge Had Sunk; Floated Ashore on Lumber.

Seattle, Nov. 30.—Two survivors of the missing barge W. J. Pirrie and the dead body of another member of the crew were found by an Indian searching party near Cape Johnson, Wash., last night, according to a telegram from Clallam Bay, Wash., to the Seattle Merchants' Exchange, received this morning. The Indians arrived at Clallam Bay this morning, bringing the news of the finding of the two sailors, the message said. They reported they were unable to find any trace of the barge.

The two men, whose names were unknown, were taken last night to La Push, Wash., where they were cared for. Both were Chileans, unable to speak English. Searching parties left immediately for the beach north of Cape Johnson, where it was expected more bodies would be found.

Saw Bodies.

The Indians said the two sailors told them they had come ashore Friday night on lumber from the Pirrie, after the barge had sunk off Cape Johnson. They said they had seen the bodies of Captain Alfred Jensen and the first mate, but knew nothing of the fate of the other members of the crew or of the wife and infant son of Captain Jensen, who were aboard the boat.

The Pirrie, with twenty-three persons aboard, including the wife and infant son of Captain A. B. Jensen, was cut loose from the towing steamer Santa Rita Friday afternoon, when it appeared that both boats, battling a heavy gale, would be cast ashore south of Cape Flattery. The Santa Rita and the Snohomish maintained a search along the coast, but no trace of the barge was found beyond a quantity of lumber, believed to have been a part of her cargo, and hope for her safety was virtually abandoned yesterday.

The Pirrie, although listed as a barge, was rigged with short masts and carried sails.

Persistent Search.

The bulldog persistence with which the Snohomish, Captain Austin, and the Santa Rita, Capt. J. K. Tibbetts, have pursued the search for the Pirrie is receiving the highest commendation of shipping circles. Ever since Saturday morning when they began the search, the two vessels have had to contend with thick weather, squalls and gigantic seas. While all indications pointed from the first to the total destruction of the Pirrie and the loss of all aboard, Captain Austin and Captain Tibbetts have searched the shoreline from Cape Flattery to Destruction Island, running their vessels close to the shore in spite of raging seas and other dangerous conditions. When he saw that it might be days before he could send a boat ashore, Captain Austin headed the Snohomish for Neah Bay and Clallam Bay, the nearest points where he could send men ashore. The fact that he had to go so far gives a hint of the bitterly hostile character of the Washington coast south of Cape Flattery.

While the Snohomish hastened to Neah and Clallam Bays to land the shore parties, the Santa Rita continued to hover off the coast in the vicinity of James Island and Cape Johnson, plunging violently in the great seas that continue to assail the rocky shoreline.

Both the Santa Rita and the Snohomish, gave up all hope Saturday for the safety of the missing barge.

Loaded at Tacoma.

The barge Pirrie and the steamship Santa Rita loaded part cargo in Tacoma for the West Coast of South America. They sailed from Tacoma Wednesday night, the steamship towing the barge. They were to call in San Francisco to complete cargo. The barge, which had 600,000 feet of lumber aboard, was commanded by Capt. Alfred B. Jensen, a native of Denmark, who became a Chilean citizen eight years ago, the Pirrie being registered under the Chilean flag. He was accompanied by his wife, twenty-one years old, and their one-year-old son, Isakon Jensen. All told the Pirrie had twenty-three persons aboard when she was cast adrift.

The two vessels encountered an eighty-mile gale off the Washington Coast shortly after they passed out at Cape Flattery. They were then fifteen miles or more from shore and had no reason to feel alarmed. The terrific gale, however, forced them shoreward. Captain Tibbetts of the Santa Rita, made a game fight to save both vessels, but had to cut loose from the Pirrie at 1.30 Friday afternoon. They were then within 1,000 yards of the southwest corner of James Island. The gale was blowing from the southwest, and the last seen of the Pirrie she was being driven toward the James Island rocks.

ANOTHER CUNARDER IS SENT AFLOAT

S.S. Samaria Launched From Birkenhead Yards of Cammell, Laird & Co.

Cable advices just received by the Cunard Line announce the successful launching on November 27, 1920, of the new Cunarder Samaria from the yards of Cammell, Laird & Co., Ltd., at Birkenhead, across the River Mersey from Liverpool.

The Samaria is the fourth of the great post-war fleet of Cunarders to take the water, having been preceded by the Scythia, Albania and Tyrhennia. Like those vessels and the remaining nine yet to be launched, the Samaria is an oil burner with a single funnel, her dimensions being the same as the Scythia.

Her gross tonnage is 21,000 and she has accommodations for approximately 2,600 passengers to be divided among 336 first class, 340 second class and the remainder third class. The passenger accommodations are along the most modern lines and the vessel is equipped with complete wireless installation, gyroscopic compass and submarine signalling outfit.

ATTEMPT TO FLOAT STEAMER TAMALPAIS WAS UNSUCCESSFUL

Aberdeen, Wash., Nov. 30.—Another attempt was made to pull the steamer Tamalpais off the mud flats near Westport, Wash., in the lower harbor, yesterday afternoon, following the transfer of most of her deck cargo to the San Jacinto, also of the E. K. Wood fleet. The attempt was unsuccessful, and the remainder of her deck load will be removed, after which she will be pumped out and another attempt made to move her at high tide this afternoon.

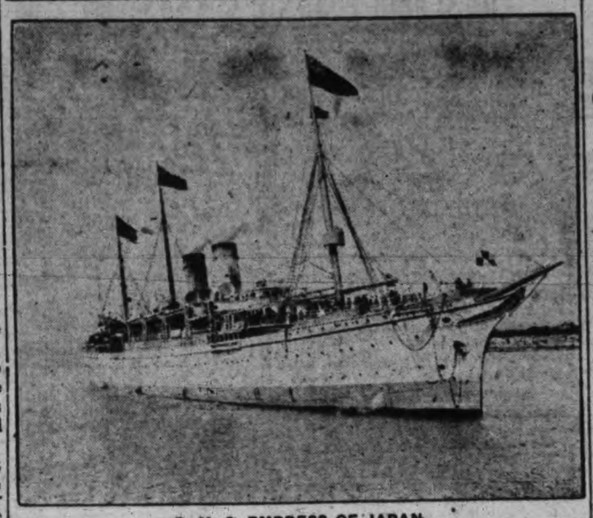
IN PORT TO-DAY FROM ORIENT



R. M. S. EMPRESS OF JAPAN

AVOID RATE WAR ON PACIFIC OCEAN

Agreement Reached by Shipping Companies Represented at Conference

Seattle, Nov. 30.—There will be no rate war among the various steamship operating concerns engaged in transpacific service, this much having been definitely decided at the first day's joint conferences of San Francisco and Puget Sound held at the L. C. Smith Building yesterday afternoon.

At the close of the first day's conference it was announced that there would be "no further reduction" in rates, but aside from that somewhat enigmatic statement, together with the assertion that all possibility of a general rates war had been obviated, the conference officials declined to discuss the proceedings until after the continuation of the meeting today.

While the recent clashes on lumber tariffs really brought about the joint meeting of the conference from both North and South coasts, it is understood that rates on practically every commodity handled overseas out of Pacific Coast ports of North America are under discussion, and until the many delegates and committees are able to reach an agreement on all these, a definite statement of the proceedings will not be available.

However, all the delegates in attendance were agreed that no general slashing of rates, or even temporary cutting of the tariffs on certain commodities such as lumber would occur. The concensus was that a general stabilization of the West bound rate, and an equally rigid observance of the rates from the Orient was essential.

At yesterday's meeting every operating line on the Pacific Coast was represented either in person or by proxy, and the utmost good feeling prevailed. Assurances were given by the representatives of the Blue Funnel line and the Alfred Holt interests, which control that service, that this line would abide entirely by the rates fixed by the conference, but declined, on plea of the company's policy not to enter into alliances, to enroll as a member of the conference. The representatives of Mitsui & Co. were again participants in the conference proceedings, this concern having returned to membership in the organization.

The amicable nature of the conference was highly satisfactory to all shipping interests participating, but it lends assurance to a general stabilization of the rates on the Western Ocean, and is believed to have obviated all danger of any rate war resulting as far as this trade is concerned.

EMPRESS OF JAPAN HAD STORMY PASSAGE

C.P.O.S. Liner Reached Port This Morning With 110 Saloon Passengers

Terminating her 144th eastbound voyage from China and Japan, the Canadian Pacific Ocean Services liner Empress of Japan, Captain W. Dixon Hopcraft, R.D., R.N.R., docked here about 9 oclock this morning, after a stormy passage.

The liner brought in 110 saloon passengers, including another contingent of delegates from the World's Sunday School Convention held last month at Tokio. The Canadian bound passengers included: Miss A. Cresswell, Martintown, Ont.; Miss A. Doner, Toronto; Miss N. Ferguson, Toronto; Mrs. M. Mackenzie, Toronto; Miss D. McLaughlin, Toronto; Rev. J. C. Robertson, Toronto, and Miss D. Wolverton, Vancouver.

The ship had an exceedingly rough passage and encountered particularly heavy weather as she neared the coast. Captain Dixon Hoperoft expected to bring his ship to port yesterday afternoon, but a heavy gale intervened offshore and the liner was prevented from making her usual time.

Quarantine was reached shortly before midnight and pratique was granted shortly after daybreak this morning.

In addition to her saloon passengers the Empress of Japan carried a large number of Chinese in her steerage accommodation, while her holds contained a rich Oriental cargo.

Took Aerial Mail.

Eddie Hubbard, the aerial mail carrier, reached here at 10 oclock from Seattle to pick up mails brought by the liner for the United States. The flying boat made a dandy landing at the entrance to the Inner Harbor and taxied to the new aerial landing-stage at the Brackman-Ker wharf. Eddie left shortly afterwards on his return flight to Seattle.

The liner left here about 11 o'clock for Vancouver.

ARMENTIERES WILL START TIDAL SURVEY EARLY NEXT YEAR

Captain J. A. Baillies will be in command of the steamer Armentieres when the former fishery patrol boat enters the Tidal Survey service. Chief Engineer Hindle will be in charge of the engine-room.

The Armentieres will enter the tidal survey service early in the new year.

Craft Signalled May Have Been Lightship

Commander of Liner Empress of Japan Convinced Vessel Flashing Lights Off Carmanah Was Not Missing Barge W. J. Pirrie.

That the vessel sighted in the Straits off Carmanah last night by the liner Empress of Japan may have been the Swiftsure relief lightship, which is reported to have gone adrift from her station, and not the barge W. J. Pirrie, was the opinion of Captain W. Dixon Hoperaft, R.N.R., commander of the C. P. O. S liner, on bringing his ship to port this morning from the Orient.

Totally unaware of the disaster which befell the W. J. Pirrie in Friday's gale, Captain Dixon Hoperaft was navigating his ship into the Straits from the Orient when, at 7 o'clock last night his attention was called to the flashing of signals from a vessel without topmasts drifting to the southward about three miles offshore from Carmanah.

Jury Sail.

Captain E. M. Legge, chief officer of the liner, who was on the bridge with Captain Hopcraft, thought he saw a jury sail rigged on the craft, but the skipper was unable to confirm this as darkness made identification impossible.

"At first it appeared to be a flare," said Captain Hopcraft and then we noticed a light flashing which in the Morse code we interpreted the letters M. O. R. G., after which the signals ceased.

Signalled in Morse.

"We brought our powerful Morse lamp into play and repeatedly asked "What ship are you," but got no further reply." Captain Hopcraft was under the impression that the signals may have been made by the manipulation of a lantern. He stated that small vessels at night were regularly in the habit of giving their numbers to passing liners in this manner, and not knowing that anything was wrong on the coast, the incident was dismissed from their minds after the signals ceased without replying to the request for information as to the identity of the craft.

Gave Position.

Subsequently the Empress of Japan's operator picked up a wireless from the coastguard cutter Snohomish inquiring if anything had been sighted of the barge Pirrie, and Captain Hopcraft immediately wirelessed the information of the craft which had been sighted and gave her approximate position.

A later message received on the Japan from the Snohomish stated that the American coastguard cutter was on the scene but nothing was in sight.

Had Captain Hopcraft known that the barge Pirrie was adrift when he entered the Straits, he would undoubtedly have taken a turn around the sighted craft to find out if she needed assistance.

Another message picked up asked the commander of the Empress of Japan if he had noticed the Swiftsure relief lightship adrift. In sizing up the situation this morning, Captain Hopcraft felt convinced that the vessel sighted might have been the lightship. It was a small craft of the schooner type and did not answer to the description of the Pirrie, which is said to be a vessel of about 2,000 tons.

NOTICE TO MARINERS

British Columbia—(196) — Vancouver Island—Quatsino Sound, West Arm—Unchartered Rock. Position—About one-half mile southwestward from the entrance to Clesklagh River. Latitude N. 50 degrees, 27 minutes, 21 seconds. Longitude W. 127 degrees, 54 minutes, 20 seconds. Description—Rock with a least ascertained depth of about 1¾ fathoms, but it is considered probable that there is less water.

British Columbia — (197) Brown Passage—Tree Knob Group—Triple Islet—New light and fog alarm to be established. Lighthouse. Date—On or about January 1, 1921. Position—On the northwesterly rock of the Triple Islet group. Latitude N. 54 degrees, 17 minutes, 36 seconds. Longitude W. 130 degrees, 52 minutes, 40 seconds. Character—Double flashing white light showing a double flash every eight seconds. Order—3rd order dioptric. Illuminant—Petroleum vapour, burned under an incandescent mantle. Elevation—97 feet. Visibility—16 miles from all points of approach. Structure—Reinforced concrete tower rising from corner of square concrete building containing fog alarm and dwelling. Color—Tower and building, white; lantern, red. Height—76 feet from base to top of ventilator on lantern. Fog Alarm. Description—Diaphone, operated by air, compressed by an oil engine, gives one blast of 4 seconds duration every 30 seconds, thus: blast, 4 seconds; silent interval, 26 seconds. Remarks—The horn, elevated 50 feet above high water, projects from the westerly corner of the building and points 278 degrees (S. 69 W. mag.).

WAS CHIEF OFFICER ON SUNKEN TANKER

Capt. T. Harbord, Master of Talarite, Was Aboard Luz Blanca When Destroyed

Captain T. Harbord master of the big tanker Talaralite, which discharged at the Macaulay Point tanks of the Imperial Oil Company yesterday, formerly was chief officer of the tanker Luz Blanca, which in 1918 was sunk by a German submarine operating off Halifax while convoying the 11,000-ton tanker Barstow.

The caster and survivors of the Luz Blanca received suitable recognition from the British Government for the heroic part played on that occasion.

While in the city yesterday Captain Harbord called upon Captain J. D. Macpherson, wreck commissioner for British Columbia. He is well known in the Pacific Coast tanker service.

The Talaralite, the tanker which Captain Harbord now commands, is a new vessel and was built at Collingwood, Ont., by the Collingwood Shipbuilding Company.

She left this morning for Ioco, Burrard Inlet, in charge of Pilot Foote, and will return to Esquimalt in a few days to be drydocked for overhaul.

The time used is Pacific Standard, for the 120th meridian west. It is counted from 0 to 24 hours, from midnight to midnight. The figures for height serve to distinguish high water from low water. Where blanks occur in the table, the tide rises or falls continuously during two successive tidal periods without turning.

The height is in feet and tenths of a foot above the average level of lower low water.

Esquimalt.—To find the depth of water on the sill of the dry dock at any tide, add 19.0 feet to the height of high water as above given.

Vote For Clean Politics and a clean and independent candidate—J. H. Gillespie.

HIGHER FREIGHT RATES ON B.C.E.R.

Same as Rates on Steam Railways, Says Dominion Commission

Ottawa, Nov. 30.—(Canadian Press)—The Railway Commission, without holding further hearings, to-day issued an order granting the application of the British Columbia Electric Railway to have the increased freight rates granted to the steam railway systems apply to freight carried by that company. The new rates will become effective as from December 6, 1920.

The increase in freight rates under the recent judgment in Western Canada was 35 per cent. until January 31, when it will drop to 30 per cent., and this increase will apply to the applicant company from the date mentioned.

HOW TO CONSTRUCT A CONCRETE MOORING ANCHOR

The principal point to remember when using concrete for marine purposes is that it is necessary to have a richer mixture than would serve for the same purposes when used only on shore. The simplest method of making a mooring of this material would be to construct a rectangular mould of any suitable boards and of a size to suit size of the boat. Concrete will weigh about 150 pounds per cubic foot and for a 30-foot boat a 200-pound mooring will be sufficient. For a 40-foot boat, 350 pounds is ample. The volume of concrete required to come up to these weights is not very much. A 500-pound mooring can be made 2½ feet square and 9 inches thick. A mixture of one part cement, two parts sand and four parts broken stone will be satisfactory for this service. In addition to the eye-bolt or bent wrought iron rod to which is attached a mooring chain, some small pieces of scrap rods and bars can be imbedded in the concrete which will serve to tie the whole mass together. When continuously submerged there is very little deterioration in concrete structures. The destruction occurs mostly at or near the waterline when concrete is exposed alternately to the air and water.—in Motor Boating for November.

NO RAILWAY STRIKE IN NOVA SCOTIA

Sydney, N.S., Nov. 30.—All fear of a strike on the Sydney & Louisburg Railway and a tie-up of the collieries of the Dominion Coal Company has vanished. At a conference of the representatives of the Sydney & Louisburg Railway yesterday the full demands of the men—the Chicago award—were granted.

The increase granted to the trainmen, including the engineers, conductors, firemen and brakemen, ranges between 80 cents and $1.60 a day. The telegraphers have been granted an increase of $25 a month.

What's Happening?

Watch to-morrow's "Times" and see what they're all waiting for. It's something about shoes, we think.

HOW TO MARK BALLOTS IN WEDNESDAY ELECTION

In view of the large number of women who, for the first time, will vote in a provincial election on Wednesday, the following instructions concerning the marking of ballots are of the utmost importance:—

1. Familiarize yourself with the candidates' names for whom you wish to vote before going to the polling booth.

2. Remember that the ballot is made out with the names of the candidates in ALPHABETICAL ORDER. As there is no mention of which party the candidate represents, this list, one yard long, is bound to be confusing.

3. You must not vote for MORE THAN FOUR NAMES, though you may vote for less than four.

4. Put one cross, and one only, in the blank space opposite the name of EACH candidate for whom you wish to vote. See that there is no other name, word, mark or sign of any kind on your ballot, or it will be thrown out. Place a single cross in the space opposite the name, in the middle of the space allotted.

5. Be sure to use only the pencil provided for the purpose in the booth. If you use other pencil or even fountain pen your ballot will be considered "spoiled."

6. Should you accidentally waste or spoil your ballot, even by a false stroke, hand it back to the returning officer and ask for a new ballot paper.

7. No questions must be asked of anyone, as no information can be given, even in regard to marking the ballot.

8. Fold your ballot yourself before handing it to the officer, and see that it is placed in the ballot-box BEFORE you leave the booth.

9. DO NOT FAIL TO VOTE OR YOUR NAME WILL BE TAKEN FROM THE VOTERS' LIST.

SPLENDID MEETING CHEERS MESSRS. HART AND PAULINE

(Continued from page 1.)

The records showed, he said, that this guarantee was only to be paid out as the work was done, but the late Government failed in its responsible duty to the people, and indulged in reckless distribution of the people's money to favorites, and for the purpose of furnishing the famous Conservative campaign fund, which was done through the payment of $500,000 in cash to D'Arcy Tate, who was told that, "he must look after the Conservative Campaign Fund out of this." The speaker also referred to the huge blocks of stock received by Mr. Tate.

"When we found out all this we took over the road and the subsidiary companies as well as getting $750,000 in cash, and we made the best deal we could, but it had cost the people over $34,000,000. We were left a small amount in the treasury and a huge deficit. We have recuperated the Province's waning credit, and put it on a basis second to none in the Dominion of Canada or anywhere else," he said.

Financial Remarks.

"Now Mr. Bowser tells you that if you will return him to power he will put the finances of the Province back where they were in 1916! He also says that he will borrow $25,000,000 and put the P.G.E. through to the Pouce Coupe. Where will he get the money? Yes, he will put the Province back where it was in 1916. Are you going to let him do it? asked Mr. Hart.

"No," cried voices in the audience.

Mr. Hart then dealt with the criticism of borrowings in the United States, and showed clearly that the only grounds for complaint were in connection with the Bowser loans. He stated that in 1915 the Bowser Government borrowed $3,000,000 in the United States payable in New York, subject to exchange, as are all loans.

But the crime of this latter transaction was that Bowser went to personal friends and political healers to have the loans put through, and the result was that it cost the people $120,000 in commissions.

"We have refused to deal with private parties and all the loans we have put through have been on the open market and the best terms always accepted," said Mr. Hart amid applause. The speaker went on to state that reference has been made to the firm of Gillespie, Hart & Todd. In the last loan a number of syndicates bid, in which 39 firms were involved. A. C. Flumerfelt, a Vancouver firm and Gillespie, Hart & Todd got together and formed one of these syndicates and to the credit of Victoria a local syndicate was successful in taking up part of the Provincial Government's business, which they had secured by public tender.

In illustrating the manner in which the credit of the Province had been raised to its highest peak, Mr. Hart said that the correspondence on record showed that so limited was the confidence of the eastern and United States houses in this Province under the Bowser regime that heavy underwriting charges had to be paid. The correspondence will also show, said Mr. Hart, that these same financial houses now have the greatest confidence in the credit of the Province and this change has been brought about by the Liberal's wise and business-like administration.

"To Necessities of Case."

"Mr. Bowser accuses us of having borrowed huge sums, but the people have heard how our borrowings were limited to the necessities of the case; how Bowser was responsible for the conditions which required these loans to cover his shortcomings and make good the Province's credit.

"Of the balance of the borrowings we have made, we have loaned money to assist the farmers. For this we have securities and the money is paying interest. We have put money out on the Better Housing scheme, on which we also have security and are drawing interest. We have also spent large sums on permanent public works.

"Much of the money borrowed we have also loaned out for the development of the resources and industries of the Province. I think if we do a lot more of that kind of business it will be in the interests of the Province," declared Mr. Hart and the audience expressed approval.

Mr. Hart then called attention to the report brought in by the Government accountants, as reported in yesterday's Times. "You will notice that the deficit of the Province has been changed inao a surplus. For the first time since 1910 there is a complete surplus above all. When we went into office we established a financial policy that the expenditure should be brought within the revenue. Now we have gone further, and we have brought the capital expenditure within it.

Municipal Aid.

"This surplus enables us to look the Municipal aid matter straight in the face but I do not think the Municipalities are managed properly. I believe that there should either be a city or municipal manager or the mayor or reeve should be given a term of four years. You cannot build up a financial policy in one year.

To Develop Resources.

It was true that municipalities during the past few years had not been practicing the extravagance of former years, and this in time would also aid considerably in placing them in a better financial position, but the speaker pointed out that it took the Government four years to work out a financial policy that brought the Province out of virtual bankruptcy and placed it on a basis of security.

Mr. Hart believed in getting something out of the development of the natural resources of the country for the establishment of a capital fund which would not be used for ordinary expenditure, but should go toward loans for farmers and the promotion of industrial plants.

The question of exchange was also dealt with by Mr. Hart along the lines of argument, as already published, the speaker showing that Provincial loans were made as advantageously as the Dominion Government or that of any other Province.

"An attempt has been made to make a political issue out of the Municipal Aid question," said Mr. Hart, "but the Premier and I discussed this and agreed that it was not good policy to make it a political issue, and we were in a much better position to make promises than the Bowser forces, because we were in power." Mr. Hart then referred to a telegram received from the President of the Union of B. C. Municipalities asking that this question be not taken up before election.

Able to Give Aid Now.

Mr. Hart pointed out that the Government was now in better shape to discuss municipal aid and he felt that it was the duty of the Government to assist the municipalities in every way possible along sane business lines.

As there were a large number of ladies present, Mr. Hart next briefly reviewed the legislation passed by the Liberal Government in the interests of women and children. In connection with votes for women he pointed out the deceit that had been practiced by the Conservatives to withhold this privilege from women, the Liberals losing no time to fulfil their promise in their platform of 1910 when they came into power in 1916.

Receives Ovation.

When F. A. Pauline, Liberal candidate for the district stood up to speak, he was given a great reception. Mr. Pauline was in good speaking form and in a most interesting address he disclosed the progressive policy for which he had always exercised his best endeavors in the interests of the Saanich Constituency. He showed his great faith in Vancouver Island and the wonderful opportunities for development which if carried into effect would mean so much to the people of not only this section but to the people of the Province as a whole.

"I hesitate to take up your time with refutations of what our opponents are saying about us. They say that we have got to the mud-slinging stage but they seem to have all the mud. In my own constituency they charge us with slandering the memory of the late Sir Richard McBride. That is pretty low, and not according to our consideration and respect to the late Premier, upon whose death the Liberal Government lost no time in making a substantial grant to his widow.

"They have even charged our Premier with cruelty to animals, when we actually passed an Act at the last session to retrieve these animals referred to and bring them down to a place where they could get something decent to eat.

"They have made personal charges against me but I have been here a good many years and I do not think anyone will take any stock in what they say. They have charged me with being a local director in the Dominion Trust Company. I am not a director and never attended any of their meetings. I was a shareholder in the company Bowser was supposed to have protected the people's interest in, and I lost my money. My only connection with that company was as a member of an advisory board which went around to look at a few houses for the purpose of making loans.

"They have charged the Liberals with not having kept faith, claiming that patronage had not been abolished and that an opportunity to dismiss a Conservative and put in a wicked Liberal was never passed up," said Mr. Pauline.

Accusations "False."

The speaker then quoted figures to show that the accusations made by the opposition candidates were false and absolutely uncalled for. He further showed the increases in revenues that had been shown by the reports of the various departments and referred to the efficiency of the staffs and the courteousness with which they dealt with the public.

"Mr. Bowser calls attention to some of the salaries that are being paid. Some do look large, but let me tell you that we are constantly losing officials because they can get a bigger salary elsewhere. We have over 1,200 officials in the service of British Columbia and the salary increase in four years is under ten per cent." It was not fair to say that the administration was costing too much, he said. Several new departments had been established, including the Labor, Prohibition, Workmen's Compensation and other branches, all of which were doing good work.

Needs Amendment.

The Civil Service Act required a little amending, said Mr. Pauline, who went on to explain that under the present conditions it was impossible for a man to rise from the ranks in the service. The speaker referred to the necessity of having superannuation for civil servants and he mentioned the discussions that had taken place between the Government and the employees with a view to working out something satisfactory, but so far they had not succeeded in agreeing. Such legislation should be put through.

Returned Soldiers.

Everything possible had been done by the Liberal Government in aid of the returned soldier, the care of whom was really a Federal matter, Mr. Pauline said. Much had been done, but much more could still be done on the part of the Province. Mr. Pauline referred in particular to the temporary assistance that had been given while the men were being re-established and praised the Government for passing the Industrial Aid Act, which had resulted in bringing into existence some seventy new industries, employing 1,179 returned men. The promotion of woollen manufactories should be encouraged as this was an ideal country for the woollen industry.

Mr. Pauline refuted the charges made by Mr. Bowser to the effect that the Liberal administration had put reserves on the natural resources of the country. He explained that the Government had gone to expense in getting at the real facts regarding reported deposits of coal, iron, oil and other resources in the intereats of the people for whom it was believed these resources should be opened up and developed and during such investigations certain restrictions had, of course, been placed upon outsiders.

The Government has grub-staked no less than twenty-five parties of returned soldiers to all parts of the Province to discover what minerals they could. Some have brought in very good reports, and we have reason to believe that various valuable discoveries have been made," said the speaker.

Iron Industry.

Mr. Pauline spoke in glowing terms of the possibilities that lay in the development of the iron industry on Vancouver Island. He was astonished to find that an electrical furnace in Seattle was turning out twenty tons a day from ore taken from British Columbia, and another plant of a similar nature was in contemplation.

The speaker was glad to say that at present there was a concern in this province negotiating with the Government for the opening up of this industry on a large scale. There was sufficient magnetic ore on Vancouver Island, if converted into pig iron, to pay off the national debt of Canada, and "this Government is prepared, if necessary, to establish the first unit of an iron and steel plant," declared Mr. Pauline amid enthusiasm.

What of the Future?

It was impossible for Mr. Pauline to understand how the opposition candidates could attempt to ridicule his proposals to develop this industry when it was in the best interests of the people that it should be done. Recently the Chamber of Commerce had sent out questionnaires to the school children of the city asking: "What are you going to do when you leave school?" and a large percentage of them said that they were going to leave Victoria and their homes for various parts of the United States because there was no employment here for grownups, and not much hope for the future.

"We must bring about conditions that will permit us to keep our boys and girls at home, so that they can help build up this glorious country and enjoy happiness and success for themselves. We have unlimited opportunities if only we would seize them, and we have the natural resources and people of the same stock that in the Mother Land built up the strength of the British Empire on her iron and coal mines. There is a good deal of jealousy between the East and the West, and so long as the East can keep us from developing the resources which we enjoy in common she will do so but it is our duty to forge ahead and become self-reliant through producing not only for our own needs but for export," said Mr. Pauline.

Mr. Pauline paid a very high tribute to the honesty and integrity and the bulldog tenacity with which Hon. John Oliver stuck to what he considered was right. As leader of the Liberal Party he was sure that the people of this Province would again return him to power and thus insure a continuation of the business-like administration which had been carried on during the past four years. This sentiment was greeted with a burst of applause and the meeting was concluded by the singing of the National Anthem.

John McDonald acted as chairman of the meeting, and made a few introductory remarks.

A Pimply Face or Poor Complexion Quickly Restored

Thousands of young men and women would be handsome and attractive were it not for unsightly pimples, blackheads, and rough uneven skin. Custom seems to recommend lotions and salves, but unfortunately their effort is but temporary. These disfiguring blemishes do not originate in the skin—their birth in every case goes further back, to the blood, which must be cleansed of humors before the pimples depart for good.

A physician who has made a careful study of such cases, says that the quickest cure comes from a blood-building medicine like Ferrozone. The minute Ferrozone strikes the blood its good work begins. Poisons and foul matter are expelled. Every trace of humor is driven out, and the whole life current is supplied with nutriment and health giving qualities. You can always tell a Ferrozone complexion when you see it— the cheeks are clear and rosy, no signs of sallowness—the eyes are bright and expressive because rich, red blood is circulating through the whole system carrying health, energy, and strength with it. Not only will all skin eruptions disappear, but an increase in vital strength, an all-round improvement will be apparent. No rebuilding tonic could be more efficient. Get Ferrozone to-day—Good for young and old, for well folks and sick ones, too. 60c. per box, or six boxes for $2.50, at all dealers, or direct by mail from The Catarrhozone Co., Kingston, Ont.

My Remedy Cures All Sick Women

Many of the woes of womanhood, says Dr. Hamilton, are due to kidney weakness.

At first the back aches.

Then pains gather round the hips and lodge right in the small of the back.

To stoop or bend seems impossible.

Headaches are constant.

Dizzy spells and bearing-down pains seem ever present. Urinary troubles steadily increase.

Unhappy existence. No pleasure in life when the body is overloaded with poisons that the sick kidneys can't filter out.

Bright's disease is the next stage, but it can be prevented by using Dr. Hamilton's Pills of Mandrake and Butternut. They cure sick kidneys and cure them permanently.

When the kidneys work properly pure blood is formed.

This means nourishment and strength for the whole body.

Back-aches and dragging pains are forgotten. Irregularities disappear, vital energy is restored, and happy robust health is once more established.

Dr. Hamilton's Pills for women's ills is the slogan of thousands to-day.

Enormous benefit in many ways follow their their use, and no woman or girl can use medicine that will do their general health more good.

For the sake of your kidneys, for the sake of your liver, for the advancement of your general well-being, you can't improve on Dr. Hamilton's Pills, 25c. per box; or five for $1.00, at all dealers, in yellow boxes.

POLITICAL HEADLIGHTS

By Commonsense.

One of the chief troubles of our friends the Conservatives is that they have to carry Mr. Bowser, and down in their hearts they know that Mr. Bowser cannot carry the country.

Many staunch Conservatives have informed me that they cannot support Mr. Bowser. They know that his public record has classed him as a rank political opportunist, and a most costly one to the Province.

We all remember how the late Hon. Mr. Tatlow, probably one of the most capable Finance Ministers that the Conservatives have ever produced, could not stand the extravagance of the McBride-Bowser administration, and resigned, along with the late Hon. Mr. Fulton, then Attorney-General. From that time on, the financial affairs of the Province rapidly went from bad to worse, and so perilously near to disaster was the ship of state, that the roar of the breakers beating upon the rocks of bankruptcy echoed throughout the country.

The people then took a hand, fired Mr. Bowser and his crew, and shipped a new crew under the late Hon. Mr. Brewster, with Messrs. Oliver, Hart & Co., as mates.

This new crew found that at the time they took over, the current expenditure of the Province amounted to $12,000,000, while the revenue from all sources did not exceed $6,000,000; that the public debt had trebled since the Conservatives took office, and that there was only $45,000.00 in the Treasury. The financial credit of the Province was indeed trailing in the mud.

In addition to this, slung 'round the Country's neck was the heavy load of the Pacific Great Eastern Railway. This pet of the Bowser Administration is of alarming and most costly proportions. It accumulates liabilities like a snowball gathering snow, but, unlike the latter, doesn't have to keep rolling to do so. It is altogether something far beyond the Province's financial capacity, and the sooner the Province is able to get the Federal Government to take it over, as advocated by Hon. John Oliver, the better for the Province.

What has been the result of the change in the management of your business that you made about four years ago? Cast up the accounts, and take stock. You find that instead of your expenditure being double your income, your expenditure is well within your income.

You find that your business has been pulled off the rocks, and its credit re-established on a firmer basis than ever before. Instead of taking months to float a loan, then getting it only on most onerous terms and paying exhorbitant charges to underwrite it, as was the case when Mr. Bowser was your manager, you find that under your present manager, people are clamouring for the Province's bonds, and the whole issue is placed in a day.

Having had these experiences under the two managements, there would appear to be absolutely no good reason why you should put Mr. Bowser back. On the contrary, having now a sound, sane and successful management, would it not be the highest pitch of folly to change it for the management of a man who four years ago brought us to the brink of ruin?

Mr. Bowser has not changed at all; he is still the political opportunist of yore. Now, on the eve of an election he is holding out all sorts of glittering promises in a general kind of way, but, unfortunately for him, he was in power once, and the people know that he was tried out and didn't make good.

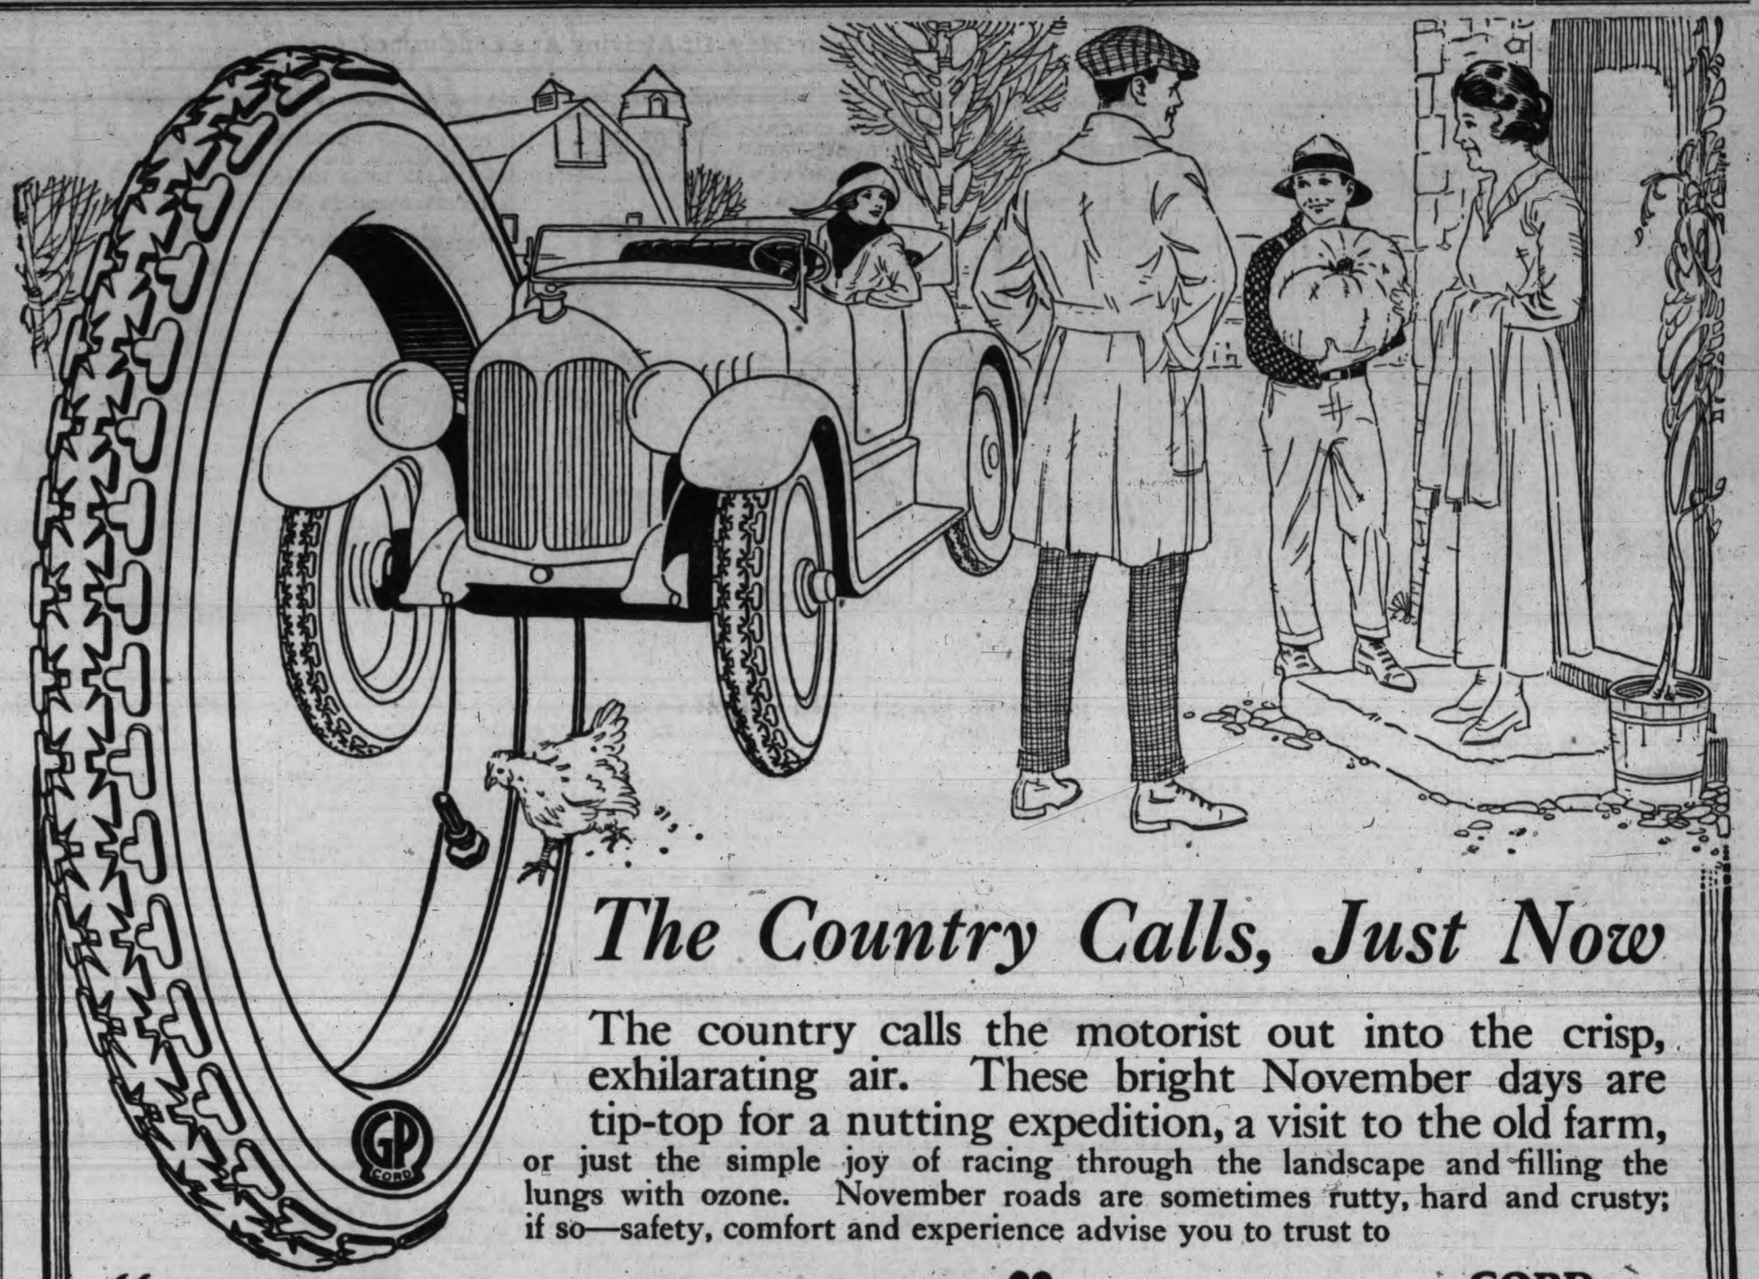
Some people appear to think that Party Government is a mistake, especially in Provincial politics, and that it would be better to revert to the old fashion of mixed or personal governments. The history of this country, both as a Crown Colony and Province, entirely disproves the wisdom of the policy of personal governments. You have only to read it to learn the chaotic conditions and situations which arose from such administrations. The defections of one man—owing, perhaps, to personal reasons, was sufficient more than once to break a Government. Ministers never knew from day to day how long they would be able to carry on. Elections were of great frequency, and the government of the country was not only in many instances an amusing farce, but a most costly one. There can be nothing approaching stability in the affairs of a country which is governed in such a fashion.

No, you must have responsible parties. Ministers of the Crown dealing with public funds must be placed in a position where, under normal conditions at least, they will be assured of a certain term of office. Therefore, they must be members of a party or group.

Of the two parties to-day, the Liberals stand between the reactionaries who represent the privileged classes, the big monied interests, and on the other side the Socialists, Radicals, and the "red" men.

The Government of the privileged classes and interests is in power at Ottawa to-day. Mr. Bowser is the first lieutenant in this Province of that Government. I would ask the returned soldier and every other citizen whether the Ottawa Government has ever done anything to indicate that it is protecting the interests of the people at large. Did it ever do anything to reduce the high cost of living? Did that farcical tribune of its own creation, the Board of Commerce, ever do anything but protect the big interests? To all these questions a most emphatic "No" can be truthfully given. While many profiteers were heavily fined in England, not in one single instance did we hear of a profiteer being fined in Canada, although many glaring cases came to light. The Board of Commerce was, in fact, inclined entirely the other way. Its decision to the effect that manufactures and wholesalers could legally combine and dictate prices to the retailer at which he had to sell and which the consumer had to pay, was one of its first activities. The sugar question was the next thing. While people had to go without sugar on account of alleged scarcity, it was suddenly discovered that all the time vast quantities of it were stored to private order in Government warehouses at Halifax and elsewhere. Finally, the Board's actions became so "raw" that two of its members resigned to try and retain their self respect. The climax came when this "creation" of the Cabinet passed its notorious Sugar Order. This was too much for the people to stand. The Government's "try on" through the Board, its instrument, overstepped the mark, public indignation became vociferous, the Order was revoked by the Cabinet, and the members of the Board resigned. They were, of course, made the "goats." It was an ignominious and fitting end to such a humbug.

Don't help such a party along by putting its Lieutenant Bowser, back again. Steer clear of such a course as you value your liberty and right to live. Keep Hon. John Oliver at the helm, and vote the straight Liberal ticket that means a square deal and a good, straight and efficient Government, free from the influence of any Government at Ottawa or elsewhere.



The Country Calls, Just Now

The country calls the motorist out into the crisp, exhilarating air. These bright November days are tip-top for a nutting expedition, a visit to the old farm, or just the simple joy of racing through the landscape and filling the lungs with ozone. November roads are sometimes rutty, hard and crusty; if so—safety, comfort and experience advise you to trust to

Established 1908.

"Advertising is to business as steam is to machinery."

Many make their own wills to save the lawyer's bill. The heirs pay the lawyers ten times as much. Some are foolish enough to build without an architect: they try it—the house is a bad bargain. As unwise as the man who builds a house without an architect, is the business man, no matter what his business, no matter how thoroughly he knows it, who tries to get the most out of that business without the assistance of an advertising expert.

Phone 1076 1112 Broad Street.

11½ ACRES; situated on high ground, with commanding view; all cleared and under cultivation. There are 250 large assorted bearing fruit trees, quantity of gooseberries, blackberries, currants, etc. Five-room bungalow, open fireplace, modern bathroom; city water laid on; good barn, chicken house, etc. This place is quite reasonably priced, and can be made a good revenue producer. There being no waste land. The soil is excellent. Terms. Close to school, store and church. $8000

14½ ACRES—I am offering one of the best and most attractive country homes on this part of the Island. It is all cleared, with the exception of three acres which is in standing timber. It is all under cultivation, there being some large and small fruits. The soil is light sandy and black loam. The home is storey and half bungalow consisting of large living room, open fireplace, panelled, archway to dining room, which is also panelled, built-in buffet; kitchen, pantry and dairy. There are two bedrooms on this floor and a modern bathroom. On the second floor there are three bedrooms with clothes closets. From each and every window is obtained a wonderful sweeping view of the mountains and Straits. The outhouses consist of chicken house for 1,000 birds, brooder house, barn for three head, and garage. City water is laid on. Terms can be arranged. $12000

6 ACRES—Situated within two miles of the city, on high ground and commanding view; all under cultivation; good soil; 75 fruit trees; small fruits of all kinds; garage and stable combined; chicken houses, etc.; modern twelve-room residence in good repair; open fireplaces, as well as hot water heat; modern bathroom and two toilets; flower garden laid out in lawns, shrubbery and tennis court; two street frontages; close to car lines and paved road. This is an ideal suburban home and worth your investigation. For price and terms please apply to this office.

$1800—IF YOU ARE LOOKING for a real choice 4-room bungalow at a very low figure, call and see us about this one. The house is practically new and the rooms are large, bright and in splendid condition; fireplace in living room; bath and toilet of the best material; full size basement, boarded. You can't lose any money if you buy this.

$2650 CAN BUY a splendid 5-room, modern house within the half-mile circle. It is ridiculously cheap at this figure, and anyone getting it can make big money. Large lot with valuable fruit trees on it. Reasonable terms.

$2600—ATTRACTIVE 5-ROOM BUNGALOW, close to car. House is modern throughout; basement is full size and one-half cemented; $500 cash, balance arranged as rent.

$3150 WILL BUY (if you are early enough) an excellent 6-room house, situate on paved street, close to car. House was built by owner for his home and is substantially built and particularly warm. The lot comprises about one-quarter acre; number of fruit trees, raspberry bushes, etc. The property is easily worth $1,000 more than the figure asked. Call and let us show you this.

$2000 WILL BUY a particularly fine 4-room bungalow, situate on large lot in the Gordon Head district. This is really a snap at the figure. Persons requiring more ground can obtain the adjoining piece of land at a low figure.

$3200—486 FRASER STREET, ESQUIMALT. This splendid bungalow, with 3 bedrooms, built-in effects, open fireplaces, etc., with large lot, could not be built to-day for less than $5,000. Terms arranged.

B. G. ROBINSON & COMPANY.
Phone 7148.

FAIRFIELD—Value extraordinary, near Linden Ave. and close to sea, semi-bungalow, 5 conveniently planned rooms downstairs, large pantry, built-in buffet, panelling, beaming, etc.; 3 large bedrooms (wardrobes) upstairs; high full basement, furnace; full sized lot in lawn and full length cement walks. This home was built in 1913. Sale price $4,200. We know of nothing else that can be purchased in this very select residential section for even $5,000. Immediate possession if desired.

OSCAR STREET—A fine substantial home of 7 rooms, 5 rooms downstairs; high full basement, cement floor, furnace; large lot in lawn, and cement walks. This attractive, well-lighted home was built 1913. Owner must realize quickly, hence price, $4,000, terms.

HILLSIDE (north of Hillside Avenue)—The best built 6-room home in this section, with a wonderful view southwards over city to sea. Every modern convenience and built-in effect, select beaming and panelling are in this home. Every room large and bright, wide windows of thick, heavy glass. Dining room with beautiful fireplace, bookcases, and imposing buffet. Every room, and hallways, conveniently planned; separate bath and toilet; 1 bedroom (or den) downstairs, 2 large bedrooms upstairs; full, high basement, cement floor. Home built 1916, only A1 solid material used. Home just repainted, and with its two wide verandas presents most attractive appearance. Extra large lot, no rock. Price only $4,200; no mortgage; terms.

JUST off Camosun Street, and close to new High School, we offer a very attractive family home with high full basement, on a full sized extra deep lot. This home, with its wide veranda between two imposing stone pillars, was built 1912 and very solidly constructed, is on a quiet residential street. For one desiring a home close to all the good schools, close to many churches, and within easy walking distance of city centre, this is well worth inspecting. Home to-day, without lot, would cost $5,000. Owner out of town, will sell for $3,500, terms.

A Most Attractive Selection of
MODERATELY PRICED HOMES
In Best Parts of the City.

$3500—AN UP-TO-DATE 8-ROOMED HOUSE on nice quiet street, just over the half-mile circle; house is in perfect condition and has every modern convenience except a furnace; there are five rooms downstairs, living room, dining room, kitchen, breakfast room, bedroom, bathroom and large hall; upstairs there are three good sized bedrooms and large sleeping porch; rooms downstairs are nicely panelled and beamed in fir with two large open fireplaces; full sized cement basement; large lot with rear entrance; general taxes low, no local improvement taxes. This is a really good buy.

$3600—A WELL-BUILT AND ATTRACTIVE BUNGALOW in James Bay, within easy walking distance of the city; 3 good sized bedrooms, full sized cement basement; lot 60x110. This house is in first-class order and is priced low to clear up a mortgage.

$4200—A REALLY LOVELY 7-ROOMED HOUSE on a car line and close to the sea; large entrance hall with large pressed brick fireplace, drawing room with conservatory off, cosy little dining room finished with wainscotting of imitation leather, open fireplace, etc.; good kitchen with an exceptionally large pantry; 4 roomy bedrooms and bathroom upstairs; front bedroom has French windows opening on to a balcony; full sized cement basement with good furnace and laundry tubs; well-built workshop or garage with entrance from rear; good chicken house; very large lot with good soil and well drained. This is one of the best buys we have on our books.

$4725—A VERY ATTRACTIVE 7-ROOMED HOUSE in Fairfield, close to the sea; this is a most convenient house, the rooms all being large and exceptionally well laid out; downstairs there is a large reception hall, living room with open fireplace, large bright dining room with built-in buffet, cosy little den or breakfast room, large pass pantry to nice bright kitchen; upstairs there are 3 large bedrooms and bathroom; good sized attic; at the rear there is a well-built little cottage, double boarded and shingled, now being rented, and which could be converted into an ideal garage or chicken house; lot 50x120, good soil, no rock; very best locality. This is real good value at the above price.

NOTICE TO CREDITORS,

In the Matter of the Estate of Annie Mary Brown, late of Esquimalt, in the Province of British Columbia, Deceased.

NOTICE IS HEREBY GIVEN that all creditors and others having claims or demands against the estate of Annie Mary Brown, wife of Percival Rideout Brown, who died on or about the 17th day of September, 1920, are required, on or before the 15th day of December, 1920, to send by post prepaid, or deliver to A. R. Wolfenden, Percival Brown and Harold H. Brown, 1112 Broad Street, Victoria, B. C., the Executors of the last Will and Testament of the said deceased, their Christian names and surnames, addresses and descriptions, the full particulars of their claims, statement of their accounts, and the nature of the securities held by them.

AND TAKE NOTICE that after such last mentioned date the Executors will proceed to distribute the assets of the said deceased among the parties entitled thereto, having regard only to the claims of which they shall then have notice, and that the Executors will not be liable for the said assets or any part thereof to any person or persons of whose claims notice shall not have been received by them at the time of such distribution.

Dated this 15th day of November, 1920.

BODWELL & LAWSON,

ART LOVERS HERE PLAN FOR PERMANENT GALLERY

(Continued from page 1.)

Victoria, linking the East with the West," said the Rev. John Gibson Inkster.

"An art gallery is the kind of education we need very badly to counteract the course, vulgar influences that are working on the minds of our youths. We can bring our children here instead of taking them to degenerate picture shows. There is no use of us condemning the movies. We should try to bring in something better. As residents of Victoria we ought to take advantage of our city's great residential possibilities."

Premier Sympathetic.

"I assure you that I am very sympathetic towards the art project," the Premier replied.

"But you must remember that the Government is being continually besieged by delegations with proposals which require the expenditure of money. Out of thousands of requests for money I have only received one letter suggesting how the Government can obtain money. And that man said that before he would impart his secret he wanted me to send him a cheque for $500.

"I am going to lay your request before the executive for their consideration.

Wants City's Co-operation.

"I want to point out, however, that when the Government undertakes such a proposal as this we will have similar demands from all parts of the Province, and we cannot favor one locality at the expense of others. If we can co-operate with the city in this, I think it will be more satisfactory.

"I find in practice that when you require the people locally to contribute part of the expense of any project it has the effect of limiting the demands.

Fears Demands From Others.

"I believe that this project can be most successfully undertaken by the Government paying part of the cost and the rest coming from the cities.

"One of the troubles is that if the Government itself is to set aside a room here and pay a custodian for this city, then Vancouver will at once make a similar request and after that will come other cities of the Province."

Ex-Alderman John Harvey, who is credited with having originated the art gallery idea here, and who advocated it when he was at the City Hall and on the public platform, attended the meeting to urge the Government to aid in putting into force his scheme.

Others attending included Mayor Porter, Capt. T. J. Goodlake, John L. Beckwith, Mrs. Margaret Jenkins, B. C. Nicholas, J. C. M. Keith and Charles St. Barbe.

GOVERNMENT RALLIES TO MARK CLIMAX OF CAMPAIGN TO-NIGHT

(Continued from page 1.)

The programme of the Empress Hotel meeting has been arranged as follows:

Remarks of Chairman, William Ivel.
Hon. John Oliver, Premier.
J. B. Clearihue, M.C.
H. C. Hall.
Hon. John Hart, Minister of Finance.
God Save the King.

The election campaign will be wound up with other meetings this evening. The Federated Labor Party will hold a final rally, in the Crytsal Theatre and the Soldier-Labor-Farmer Party has arranged a gathering to take place in the Princess Tehatre. Saanich Opposition forces will hold a meeting in Cedar Hill Hall, and Saanich Soldier-Labor-Farmer supporters will meet in the Willows School. Opposition speakers will hold the boards in Esquimalt this evening, while Government supporters will meet at Langford.

Arrange For Polling.

Complete arrangements for the polling to-morrow have been made, Returning Officer Carew Martin announced this morning. The various polling booths are set forth elsewhere in this issue. The different parties contesting the election have made elaborate arrangements for transporting voters to the polls in motors.

Mr. Martin wishes to make it clear that all persons who may be in polling stations at 7 o'clock to-morrow night will not be allowed to vote. The regulations on this subject, he states, require the voter to be in possession of his ballot paper by 7 o'clock, in which case he may vote even a few minutes after that time.

Prince George

Prince George, Nov. 30.—Betting on the election in this constituency is running high, and until to-day the money in sight was fairly even, but to-day has been a decided change, there is lots of Liberal money in sight, but the Conservatives want two to one, and then with hardly any takers there is another $10,000 to bet that Perry, Liberal candidate, will be elected by the largest majority ever given a candidate in this district.

Put Your Cross opposite the Third, Tenth, Eleventh and Sixteenth names and ensure the return of the Oliver administration.

FIRE IN CORK

(Continued from page 1.)

house is situated has been closed by the police. It is a narrow thoroughfare near London Bridge and contains no dwelling houses.

Experts from Scotland Yard examined the building to-day, nobody being permitted to enter the offices on the upper floors. It seemed evident the damage from the fire was but slight. Several firms, shipping agents and manufacturers, used the building.

Several men suspected of setting fire to warehouses in Liverpool on Saturday night are under arrest. It is claimed by the police that "gunmen" from the United States are in that city and assertion is made that men wanted in Ireland for shooting policemen and soldiers have crossed the Irish Sea to Liverpool.

The financial loss occasioned by Saturday night's fires in Liverpool is estimated at £1,000,000.

The killing of fifteen police recruits at Macroom, Ireland, yesterday already has been followed by reprisals by the "Black and Tans," and it is reported there is an exodus of frightened people from towns near where the recruits were attacked.

Masked men entered and set fire to the building housing The Dublin Freeman's Journal last night. Considerable damage was done to the building.

Scores of arrests have been made in various districts of Ireland, among the places raided by military forces being a lunatic asylum near Ennis.

Glasgow and the Clyde shipbuilding districts have been placed under close guard. It is declared by the authorities that many Sinn Feiners are known to be in Scotland.

New York, Nov. 30.—(Canadian Press).—Archbishop Patrick J. Hayes made public last night a long statement in reply to a protest of a number of prominent Roman Catholics against the attack on the Union Club here on Thanksgiving Day by Sinn Fein sympathizers, in which he declared that he "has neither apology to make nor regret to express to a very small group of Catholics who in violation of the most elementary rule or ordinary politeness among well-bred people have seen fit to address me through the medium of the public press."

The letter to the archbishop, which was published in several New York newspapers was signed by sixty Roman Catholics. It protested particularly against what is termed the infusion of politics into the Roman Catholic Church on the Irish question.

Archbishop Hayes said the signers of the protest "are guilty of as nice a piece of church Bolshevism as I ever expect to look upon again."

Vote For Clean Politics and a clean and independent candidate—J. H. Gillespie.

WHERE YOU CAST YOUR BALLOT TO-MORROW

The location of the polling booths for to-morrow's Provincial election with the officers who will preside at each are as follows:

Division One (Ward One)—St. Francis Hotel, 750 Yates Street. James Bell.

Division Two (Ward Two)—Scott Building, corner of Douglas Street and Hillside Avenue. F. R. Carlow.

Division Three (Ward Three)—Lillie's Garage, 932 Johnson Street. E. G. Youngs.

Division Four (Ward Four)—Bell Block, corner of Cook and Mears Street. P. S. Jones.

Division Five (Ward Five)—Empress Garage, 617 Government Street. A. W. Staples.

Polls will open at 8 a.m. and close at 7 p.m.

All persons who can lend automobiles to-morrow to carry voters to the polls are asked to get in touch with the Government campaign manager in the Arcade Building or by telephoning 7520.

TO-MORROW!

WEDNESDAY DECEMBER 1st

Is Election Day

Go to the Polls Early and Cast Your Vote

EGG PRICES HAVE WORST BREAK YET

Local Market Demoralized With No Quotations Common to All Houses

Fresh eggs had the worst break yet on the local wholesale market to-day.

Prices were demoralized. Quotations this morning were ranging as much as eight cents apart from various firms.

Some firms were quoting fresh eggs as high as 82 cents. Others were quoting them at 77 cents. One large handler of produce was quoting 74 cents on large orders of 50 cases.

Outside of eggs local wholesale prices are steady. Sunkist grapefruit are down $1 a case to $5.

To-day's local wholesale prices are:

WOMEN COMMEND FARRIS'S COURSE

Attorney-General, Though Indisposed, Presented With Cane by Ladies

Vancouver, Nov. 30.—Attorney-General Farris, who is under his doctor's care at the home of his brother here, was presented with a gold-headed ebony cane by the women of Grandview. The presentation was made at the bedside of the Attorney-General yesterday afternoon.

With the cane went an address applauding all the legislation aimed at the betterment of the lot of women and children which he has sponsored and expressing the hope of the women of Grandview that he would long be spared to sit in the Legislature to continue his work, which was for all mankind.

Replied Briefly.

The Attorney-General was overcome by this spontaneous and unexpected mark of appreciation. His response was brief and from the heart as he said: "Ladies, I think this is the kindliest act that has ever been designed for me. Believe me, I am very conscious of the honor you do me and feel more than repaid by this one incident for any service it has ever been my duty and my pleasure to render you and womankind in British Columbia."

CONSERVATIVES IN ONTARIO MAY BE LED BY GEORGE HENRY

Toronto, Nov. 30.—George Henry's name will go before the Provincial Conservative convention, to be held in this city on Wednesday and Thursday of this week, as a candidate for the party leadership in the Province of Ontario. At a meeting here last night of Conservatives of East York, of which Mr. Henry is representative in the Legislature, it was decided to place his name before the convention. It was pointed out that Mr. Henry was the only practical farmer whose name had been mentioned, in connection with the Conservative leadership. Mr. Henry was Minister of Agriculture in the late Hearst Government.

TO-DAY'S TRADING IN WINNIPEG MARKETS

Winnipeg, Nov. 30.—Heavy selling of wheat on the local market to-day had a bearish influence on prices and the future market closed 3 to 4 cents lower, with cash showing a loss of 8½ to 7½ cents at the close. Demand for spot wheat was poor, indicating that November contracts had been well taken care of, but there was a fair inquiry for early December delivery.

The oats market was not active, the demand being only fair for certain grades, while the offerings were somewhat liberal. Top grade barley was in fair demand. Flax showed little change, with a fair demand from crushers at unchanged spreads.

Oats closed 1¼ to 1⅛ cents lower. Barley 1⅝ to 2⅜ lower. Flax 1 cent lower to 2½ cents higher, and rye 1½ cents lower to 2 cents higher. Cash flax declined from 8 to 10 cents from the previous close.

LABOR DISPUTE IN MONTREAL; POLICE GIVE PROTECTION

Montreal, Nov. 30.—Owing to the continuance of attacks upon members of the Catholic and National union here by striking plumbers, the central council of the Catholic and National Syndicates on Saturday sent a deputation to the Director of Public Safety, Lieut.-Colonel Gaudet, asking the protection of police for their members. This was granted, and it is further understood that five warrants also have been issued which may lead to arrests.

The strike of the plumbers here has been in progress for some weeks. The men are asking $1 an hour and an eight-hour day. They belong to the American Federation of Labor. The master plumbers have concluded agreements with the Catholic and National Unions here to supply all the men needed at 70 to 90 cents an hour and for a ten-hour day.

JOHN BAUDEN DIED IN MONTREAL

Montreal, Nov. 30.—The death occurred to-day at his residence of John Bauden, retired meat merchant, at the age of ninety-seven. It is said that he was the first to send a shipload of meat to England. He was later associated with the Allan Steamship Line in charge of the insurance department and in this connection he was the first man to send a telegram from Montreal to Quebec. His death occurred on his ninety-seventh birthday.

GRAINS WEAKEN AT CLOSE TO-DAY

(By Burdick Brothers, Ltd.)

Chicago, Nov. 30.—Grains showed much activity to-day, but with a lower trend. Wheat had a range of 4 to 5 cents on the downward side with little rally at the close. Corn followed wheat and closed soft.

DOMINION WINS FISHERIES CASE

London, Nov. 30.—(Canadian Associated Press)—The Privy Council gave judgment to-day in the Dominion versus Quebec Attorney-General case, concerning the powers of the Province to grant fishing rights in tidal waters. The judgment is somewhat involved, but is mainly favorable for the Federal contention that the control of fisheries in tidal waters is vested in the Dominion.

VANCOUVER CLEARINGS.

Vancouver, Nov. 30.—A new high record in bank clearings has been established here. For the eleven months of this year ending to-day, the bank clearings are more than $140,000,000 greater than for the twelve months of last year. The clearings this year have been $796,-227,503.

HUNDREDS CHEERS DR. HALL URGING NEW SOCIAL ERA

(Continued from page 7.)

Old People Need Pensions.

"Old age pensions for all salaried employees at age of 65, or when their earning capacity is reduced by one third must soon be seriously considered. In England 10 shillings per week is allowed. The United States has made it compulsory in the civil service.

"The Hon Walter Rollo, Minister of Labor in the Ontario Government, believes that there is need of old age pensions in Ontario, as people of 65 years and over have great difficulty in securing employment. The need for pensions, in his opinion, was not as great in Ontario as it is in Great Britain, but the necessity, he believes does exist in his Province.

Bringing Heaven Here.

"Now what of the new social structure that Mrs. Ralph Smith would call the Kingdom of Heaven?

"Our boys went over the top for democracy and freedom. We want men to-day to go over the top for making this new world, where men shall brothers be.

"O, men and women citizens of Victoria! In this great hour of moral and industrial crisis, when every programme must be shot through in utter disregard of favors or vested interests, when every plank of every platform must be tested by the question is it just? Is it for the benefit of the average man? Without respect for person, class or particular interest, do you realize that the real test, the test of justice must be applied as never before, and the party that rises the most adequately to that test will receive the support of the people, because it serves the people best? There is a grander, brighter prospect for us all, when we have learned the better way of co-operation and brotherly friendship. This is our aim, this our hope. And that can only be accomplished by hard faithful effort, step by step, a gradual adjustment from the abnormal to the normal, from the domination of materialism to the coming of true democracy and the reign of the people, a peaceful change from the centralization of wealth to the service of the people, from the privileges of the few to the benefits of the many."

"Dr. Hall has always worked for the workingman," said Arthur Lee, who presided. "I have known him for over 30 years and he has always stood for what is right."

SAYS GOVERNMENT PICTURES OF B. C. TAKEN IN STATES

Government motion pictures of mountain sheep, supposed to have been taken in the Cassiar, and so labelled, were actually taken in Yellowstone Park, R. H. Pooley, M.P.P., Opposition candidate for Esquimalt, told a meeting of his supporters in Colwood Hall last night. These pictures, taken under the supervision of Dr. Baker, were simply fakes, Mr. Pooley asserted, and stated that he had seen the pictures two years before.

In the course of his speech Mr. Pooley claimed that he had started shipbuilding in British Columbia. The Oliver Government had discontinued the good work of the former administration, but if his party were returned to power the B. C. Shipping Act would be put into force and shipbuilding would become active again, he promised.

Mr. Pooley stoutly defended the Egg Marking Act, which he had introduced, and said he had yet to learn that Henry Hall, Government candidate in Victoria, who had criticized this statute, had ever introduced any act.

Reeve Lockley, of Esquimalt, supported Mr. Pooley's contentions and assailed the Government for failing to aid the municipalities of the Province.

Cinnaform Pastilles

"The National Drug and Chemical Company of Canada, Limited, put up a preparation, which they call CINNAFORM PASTILLES, which have proved very efficacious in disorders of the Mouth and Throat, such as Quinsy, Sore Throat, Tonsilitis, and in the early stages of Diphtheria and Influenza".

Sweetened and pleasant to take. 50c. a bottle—smaller size, 25c.

CONSERVATIVES CLOSE WITH FINAL RALLY

Repeat the Old Charges, and Mr. Gaunce Quotes Shakespeare

At the Conservative rally last night, three of the candidates of the ticket made their final appeal to the electorate, being supported by Mrs. Andrews, H. B. Robertson and W. J. Gaunce, while the chair was occupied by W. H. Bullock Webster. The meeting was held at the Princess Theatre, with about fifty persons present.

Mr. Robertson, who spoke first on the programme, dealt exclusively with the alleged shortcomings of the Liberal Government, claiming that the legislation that they had enacted for the welfare of the people of this Province was mainly in the eleventh hour, and for the purpose of catching votes.

Ross Sutherland, the first candidate to speak, devoted most of his address to the alleged "Hogging of insurance to the firm of Gillespie, Hart & Todd," reading from the journals of the House on the question of tenders for the P. G. E. insurance.

Mrs. Andrews spoke next, dealing with the part of the women in the coming ballotting. Mrs. Andrews claimed that most of the legislation brought down in the last session of the House had been suggested in resolutions at the 1919 Conservative convention, and the Liberal administration could take no credit for any part of that legislation. Our educational system, which is reported to be the finest in the world, was not built in four years, she reminded her auditors, and the Liberals could take no credit for that either. "I want to call your attention to the Girls' Industrial School at Vancouver," she said, "where Mr. Bowser had appointed Mr. Colyer and his wife to take charge. They were turned out by the Liberals, and Miss Bain installed. Immediately the girls began to escape, and when the girls came back they sent them to Okalla prison, making convicts out of them.

"After the girls had escaped Miss Bain brought three steel cages into the basement, and the three girls were locked in these, the kind-hearted matron then turned a hose on them, first on one and then on the other, and when they cried the hose was turned on them again. One girl set fire to a mattress, and the hose was turned on her. I feel like crying "Shame, shame," when I think of it. Mr. Bowser will investigate that."

"Provincial Officer Wise made that statement at the Premier's meeting up the Island, and are we going to allow that condition to exist, that shameful condition in our industrial schools, or reformatories, as they are sometimes called? Vote for the men on the platform and Mr. Northcott, and Mr. Bowser will remedy this—I know he will," concluded Mrs. Andrews.

Mr. Stewart.

Mr. Stewart confined himself to the recent Government loan in New York.

"The Liberals are promising anything now, Mr. Farris promised the people of Vancouver $250,000 a year—soft soap—they are trying to treat the people of British Columbia like fools."

Canon Hinchliffe.

Canon Hinchliffe spoke next, prefacing his remarks with an appreciation of the actions of his opponents. "I have tried to carry on this campaign without casting any aspersions on my opponents, and I want to take this opportunity of publicly thanking the other candidates for the generous way in which they have treated me. I am an Englishman, and have been for fifteen generations back; I am not a Roman Catholic, not even in disguise, and I am in this campaign simply because it was explained to me as my duty, and if I am elected I will try to do my best for the country."

Mr. Gaunce closed the speaking for the party with a very strong attack on the Liberal administration from all angles and sidelights available. Mr. Gaunce gave much of his time to the Minister of Finance, who, he said, "demanded an answer." "What does this great Caesar feed on that he has grown so sleek?" he queried amid laughter. By this time the house had dwindled down to a few scattered couples and the meeting was brought to a close.

ENTHUSIASM SHOWN BY SOOKE LIBERALS

Meeting in Interests of Mr. Helgesen Cheers Government Candidate

The three best speeches of the Esquimalt campaign were delivered at Sooke Hall last night to a large audience. The big hall was packed to the doors, and all three speakers, Mrs. Alfred Watt, M.B.E., Frank Higgins, K. C., and the candidate, H. C. Helgesen, received round after round of applause.

Mr. Helgesen gave a magnificent fighting speech, evidently feeling at home in a community composed of farmers, fishermen, miners, prospectors and lumber men, with whose work he was familiar, and whose labors he had shared. He was received with the greatest enthusiasm and from beginning to end of his speech warm approval was manifested, and the evident sincere regard with which he is held in is own district was none more manifest. He outlined plans for land development and described a lumber policy which would give great results. Mr. Helgesen's speech was a surprise even to his friends.

Mrs. Watt.

Mrs. Watt made the most eloquent speech she has yet delivered in the campaign, outlining the reasons she was supporting Mr. Helgesen, just because he was a farmer, and she believed that the agricultural point of view in the Legislature would not be got except by a farmer. She was not alarmed by farmers being in the preponderance in the legislature. Farmers had done very well in Ontario, and she hoped that there would not only be farm men, but presently farm women in the legislature; second because the Oliver Government had enacted during their term of four years a very great number of laws for the protection of women and children. She described in detail the provisions and operation of these acts and gave many and touching instances of injustice before these laws were enacted.

In conclusion Mrs. Watt affirmed her strong belief in the integrity of women in public life. She believed that the sort of women who would take part in public affairs would be women by whom no corrupt practices would be permitted. "I believe every woman here will vote as her conscience dictates, and if she does we can look for a new era to begin. We women freed from the disabilities we have suffered under, secure now in protection of the law, can look forward to a better state of things. We owe, in all fairness, appreciation to the Oliver Government and we have it in our power now to show our gratitude. Mrs. Watt concluded with a humorous anecdote, which aptly hit off a local difficulty, and which was greeted with great merriment.

Her address throughout made a wonderful appeal to the audience.

Mr. Higgins.

The whole issues of the campaign were dealt with by Mr. Higgins in a speech packed full of useful facts, and delivered with fine effect. His exposure of the Bowser claims were explicit and appreciated fully by the audience. He rehearsed all that might have been done by Mr. Bowser and was not done to develop British Columbia's natural resources. No more inspiring address was ever delivered before a Sooke audience.

THE WONDERFUL FRUIT MEDICINE

Every Home in Canada Needs "FRUIT-A-TIVES"

To those suffering with Indigestion, Torpid Liver, Constipation, Sick or Nervous Headache, Neuralgia, Kidney Trouble, Rheumatism, Pain in the Back, Eczema and other skin affections, "Fruit-a-tives" gives prompt relief and assures a speedy recovery when the treatment is faithfully followed.

"Fruit-a-tives" is the only medicine made from Fruit—containing the medicinal principles of apples, oranges, figs and prunes, combined with valuable tonics and antiseptics.

50c. a box, 6 for $2.50, trial size, 25c. At all dealers or sent postpaid by Fruit-a-tives, Limited, Ottawa, Ont.

CAPT. GADSDEN CONCLUDES HIS ELECTION FIGHT

Final Rally in Esquimalt Last Evening Was Well Attended

Capt. Burges Gadsden, candidate of the Soldier-Farmer-Labor Party in Esquimalt, wound up his campaign last night with an enthusiastic rally in the Sailors' Club. About 150 people attended the meeting, over which Comrade W. Fawcett presided.

After charging the two big parties in the present campaign of degrading the issues before the electors and lapsing into mere personal recrimination, Capt. Gadsden went on to describe the aims and objects of the Soldier-Labor-Farmer Party. Being a young party, its vision was not backward, he said, and he hoped that, as a returned man, he might be excused if he felt that the men who had been overseas had returned with a broader vision. They wanted to interpret their vision for the benefit of the entire people of the Province. The platform of the party showed plainly that he and his colleagues were standing for a sane and intelligent progress in the public policies of British Columbia.

Capt. Gadsden ridiculed the claim of the Oliver Government that it had done all in its power for the returned men. None of the returned men would regard this claim seriously, he asserted. He recalled that he had been a member of a delegation of ex-service men which had waited upon the Government last Winter in connection with the prevailing unemployment. That delegation, he said, had been very coldly received and had been informed by Hon. T. D. Pattullo, Minister of Lands, that if the returned soldiers could not get work in the city they had better go into the country. The returned men had never forgotten nor forgiven that cold comfort.

The Oliver Government claimed that it had been progressive in its social legislation, particularly in connection with women's rights, Capt. Gadsden observed. British Columbia was the only Province in the Dominion, however, where a wife had no dower right on her husband's home. If he were elected he would seek to have a law granting such right brought into effect.

In conclusion Capt. Gadsden said he had fought a clean fight and had no regrets to express nor apologies to make. If he were elected he would carry on his campaign in the Legislature in the spirit which had animated him in the election; if he were defeated he would carry on as a citizen in a similar spirit.

The candidate was accorded hearty applause.

C. K. Christian and James Dakers, candidates of the Soldier-Labor-Farmer Party in Victoria, also addressed the meeting, as did Messrs. C. A. Mackenzie and Webb. Comrades Tom Obee and J. W. Doble, D.C.M., rendered vocal solos.
